

Close to Toronto and the scenic Niagara region, the City of Hamilton is alive with social, cultural, economic and recreational diversity. Its population of 500,000 people can take pride and comfort in having one of Canada's leading centres for patient care, community service, teaching and research in their own backyard. As an academic health sciences centre affiliated with McMaster University, Hamilton Health Sciences serves as a tertiary care hospital for the 2 million residents of Central South Ontario.

Regular Part-time
\$44.62 - \$60.00 per hour**

Requisition # 17920 – Professional Affairs – General

Unit Profile

The Professional Affairs portfolio encompasses Professional Practice & Clinical Practice and Education across Hamilton Health Sciences, the Juravinski Cancer Program and the McMaster Children's Hospital and St. Peter's Hospital. The portfolio supports professional and clinical practice across the hospital by ensuring the appropriate practice standards, education, processes, systems and structures are in place. The portfolio fosters the community, regulatory bodies and academic linkages necessary to develop and sustain a quality practice environment in collaboration with our clinical partners across the organization.

Position Summary

The Chief of Professional Practice will focus on profession-specific strategic and operational issues across Hamilton Health Sciences. Working within a collaborative model, the Chief will act as an advocate for the profession, professional practice and quality patient care delivery. Areas of accountability will include: strategic planning, standards of practice, education and research, human resources and fiscal management and the development and implementation of a profession-specific communication plan.

Scheduled Working Hours

Monday to Friday; days
