CLINICAL PSYCHOLOGIST OPERATIONAL STRESS INJURY CLINIC

University of Manitoba &
Winnipeg Regional Health Authority

The Department of Clinical Health Psychology in the Faculty of Medicine, University of Manitoba, in collaboration with the Winnipeg Regional Health Authority (WRHA) invites applications for a Contingent Geographic Full-Time Clinical Psychologist at the Assistant Professor level (position # 08052), commencing August 1, 2010 or as soon as possible thereafter. The successful applicant will join an established multi-disciplinary team providing treatment for post-traumatic stress disorder and other operational stress injuries to Veterans, Members of the Canadian Forces, RCMP and their families. The position will be based in the Operational Stress Injury (OSI) Clinic at Deer Lodge Centre, in Winnipeg.

Position Responsibilities:

- Treatment of adult outpatients suffering from operational stress injuries.
- Psychological assessment.
- Psychological consultation to other health professionals and social services supporting military, veterans, RCMP and their families.
- Clinical research
- Supervision of Psychology Residents in our CPA and APA accredited Psychology Residency training programme
- Participation in teaching of medical students and students of other health professions.

Qualifications:

- PhD in Clinical Psychology from a CPA or APA accredited training programme, and completion of a CPA or APA accredited Internship / Residency.
- Eligibility for registration as a Psychologist by the Psychological Association of Manitoba (the Clinical Health Psychology programme of the Winnipeg Regional Health Authority will provide the required pre-registration supervision).
- Satisfactory results of pre-employment criminal records and child abuse registry checks.
- Experience with evidence-based psychological treatment of post-traumatic stress disorder and other operational stress injuries.
- Education and experience in the administration and interpretation of standard adult psychological tests and measures.
- Experience with the areas of chronic pain, addictions, or neuropsychological assessment would be an asset.
- Fluency in both English and French would be an asset.
- Training, experience, and/or research background and interests in Aboriginal health issues would be an asset.
- Valid driver's license and vehicle required.

Salary and Benefits:

- Salary and Academic Rank will be commensurate with experience.
- Attractive Benefits Package is available through the University of Manitoba.
- The GFT agreement provides for on-site private practice opportunities.
