

Manager, Clinical Services - Surrey

Due to the continuing demand for clinical services OrionHealth Surrey is recruiting a second Manager of Clinical Services. Our clinics are an interdisciplinary team of health care professionals (psychology, medicine, pharmacy, occupational therapy, physiotherapy and kinesiology) offering an evidence-based programs in chronic pain management and return to work rehabilitation. Our organization has a commitment to quality, innovation and providing services based on best practices. Our staff members enjoy a fun, dynamic and challenging environment that encourages professional development and career growth. Along with a competitive salary, we offer great benefits and generous vacation time.

Reporting to the Senior Director BC and in collaboration with the Director of Operations and Planning, the Manager of Clinical Services is responsible to ensure ethical, efficient and effective delivery of clinical services for Work Safe BC programs and non-WorkSafe BC customers.

Specifically, the position assumes responsibility for day-to-day program management of activities and functions in the return to work and pain programs, as well as individualized services including:

- providing input into developing, implementing and evaluating program policies, procedures and standards,
- implementing and monitoring overall quality of program delivery,
- reviewing of reports,
- determining program service levels and enhancements, and
- providing clinical advice and supervision to team leaders and clinicians.
