The CPA endeavours to include a comprehensive list of university-based graduate programmes in psychology in Canada in its Graduate Guide. However, listing in the guide is voluntary and not every Canadian programme is necessarily included. Additionally, the guide might not capture the most recent changes affected to any given programme. The universities' coordinates are listed in the guide and users are advised to confirm the information contained in the Graduate Guide with the programmes themselves.

There are many other websites which list Canadian universities and their links. These can be accessed by searching Canadian universities. Any university with a graduate psychology program which it would like listed in the Graduate Guide is invited to contact CPA.

It is important to note that CPA does not review or in any way evaluate those programmes listed in the Guide. Listing in the Guide indicates only that a programme **describes itself** as a graduate programme in psychology and has asked to be listed. Users of the Guide should not assume that graduation from any programme listed in the Guide will render the graduate eligible for licensure as psychologist in any Canadian or foreign jurisdiction. Prospective graduate students are well advised to contact the regulatory body of psychology in the jurisdiction in which they intend to practice, to find out if the graduate studies they are considering undertaking, will render them eligible for licensure. A listing of all the regulatory bodies of psychology in Canada can be found at <http://www.cpa.ca/psychologyincanada/psychologyintheprovincesandterritories/provincialandterritorialregulatorybodies/>

The CPA does accredit doctoral programmes in professional psychology <http://www.cpa.ca/accreditation/cpaaccreditedprograms/>. Accredited programmes must meet and maintain compliance with rigorous standards of training http://www.cpa.ca/documents/Accreditation_Standards2002.pdf and it is typically the graduates of these programmes who go on to obtain licensure as psychologists in Canada. Although graduation from a CPA-accredited programme almost always ensures that the graduated student has all the qualifications necessary for licensure in a Canadian jurisdiction, it is the provincial and territorial regulators of psychology who exercise licensing authority.

Policy for offers of graduate admission and/or financial support

The Board of Directors of CPA approved the following as a policy of the Association on June 16, 1979, and makes copies of this statement available to departments for distribution to prospective students. The policy is designed to provide prospective students and departments with a period of time in which it is understood that offers of financial assistance will be made and can be considered and freely accepted.

1. Departments will endeavour to make offers of admission and/or support to applicants before April.
2. Applicants have until April 15th to accept an offer of admission.
3. After April 15, offers will be made only to applicants who state that they are not committed to another department.

Meaning of the Policy for Prospective Students

Within this policy prospective students should not feel pressured to accept awards before April 15, when they will have had an opportunity to consider all of their options. A student who accepts an award at another University without the written approval of the first Department. Prospective students who had previously indicated acceptance of an award must then obtain a written release from the first Department before they are free to accept another award.

Note that the Policy for Prospective Students is endorsed by the CPA but is not necessarily binding on students or programmes.

L'objectif de la SCP est de présenter dans ce répertoire une liste complète des programmes d'études supérieures en psychologie offerts dans les universités au Canada. Cependant, la participation à ce répertoire se fait sur une base volontaire et certains programmes peuvent ne pas être inclus. De plus, le répertoire peut ne pas contenir les modifications les plus récentes effectuées à certains programmes. Les coordonnées des universités sont comprises dans le répertoire afin de permettre aux utilisateurs de confirmer les informations avec les départements qui offrent les programmes.

Plusieurs autres sites web présentent des listes des universités canadiennes et l'adresse de leurs sites web. Vous pouvez effectuer des recherches sur le web sous universités canadiennes. Les universités qui ont un programme d'études supérieures en psychologie et qui désirent l'afficher dans ce répertoire, sont invitées à communiquer avec la SCP.

Il est important de noter que la SCP ne passe pas en revue ou n'évalue de quelque façon les programmes présentés dans le Guide. La liste du Guide indique seulement qu'un programme **se décrit** comme un programme de deuxième cycle en psychologie et qu'il demande à figurer sur la liste. Les utilisateurs du Guide ne doivent pas supposer qu'un diplôme décerné dans le cadre d'un des programmes énumérés dans le Guide permettra à un diplômé d'obtenir une licence de psychologue dans toute administration canadienne ou étrangère. Nous recommandons aux étudiants qui veulent éventuellement obtenir un diplôme de communiquer avec l'organisme de réglementation de la psychologie dans l'administration où ils ont l'intention de pratiquer, afin de déterminer si les études de deuxième cycle qu'ils veulent entreprendre mèneront à l'octroi d'une licence. Vous trouverez une liste des organismes canadiens de réglementation de la psychologie au Canada à l'adresse

<http://www.cpa.ca/psychologieauncanada/lapsychologiedanslesprovincesetlesterritoires/organismescanadiensdereglementation/>.

La SCP veille à l'agrément des programmes de doctorat en psychologie professionnelle

<http://www.cpa.ca/agrement/programmesagrees/>

Les programmes qui reçoivent l'agrément doivent satisfaire et maintenir des normes de conformité rigoureuses de formation <http://www.cpa.ca/documents/AccreditationStandards2002.pdf> et se sont habituellement les diplômés de ces programmes qui font la demande d'une licence de psychologue au Canada. Même si le diplôme d'un programme agréé par la SCP assure presque toujours que les diplômés possèdent toutes les qualifications nécessaires pour obtenir une licence dans une administration canadienne, ce sont les organismes de réglementation provinciaux et territoriaux de la psychologie qui ont l'autorité d'octroyer une licence.

Politique relative à l'admissibilité des étudiants et étudiantes aux programmes d'études et/ou à l'aide financière

Le 16 juin 1979, le Conseil d'administration de la SCP adoptait comme politique officielle la politique suivante sur l'admissibilité aux programmes d'études supérieures et à l'aide financière et en distribuait l'énoncé aux futurs étudiants dans les départements de psychologie. La raison d'être de cette politique : accorder aux étudiants et aux étudiantes le temps nécessaire pour leur permettre de prendre en considération et d'accepter de façon éclairée toute offre d'aide financière qui leur serait faite.

1. Les départements s'efforceront de faire l'offre d'admission et/ou de bourses d'études aux candidats et aux candidates avant le 1^{er} avril.
2. Les candidats et les candidates auront jusqu'au 15 avril pour accepter l'offre qui leur sera faite.
3. Après le 15 avril, des offres seront faites seulement aux candidats et aux candidates qui auront précisé qu'ils ne sont pas inscrits à un autre département.

Interprétation de la politique. Dans le cadre de cette politique, les étudiants et les étudiantes ne doivent pas se sentir obligés d'accepter une bourse avant le 15 avril, mais bien lorsqu'ils auront eu l'occasion d'étudier tous les choix qui s'offrent à eux. Un étudiant ou une étudiante qui accepte une offre prend la place et une somme d'argent qui auraient pu être accordées à une autre personne. Aucun étudiant ne pourra accepter une offre d'une autre université à moins d'en avoir reçu l'autorisation écrite du premier département avec qui il a fait affaire. Les étudiants et les étudiantes qui auront reçu une offre d'aide

GRADUATE GUIDE 2006 - 2007

financière devront préciser qu'ils ne se sont pas engagés envers un autre département. Les étudiants qui ont déjà accepté une offre devront obtenir une libération écrite du premier département avant d'en accepter une autre.

Notez que la politique relative aux étudiants éventuels en psychologie reçoit l'aval de la SCP, mais n'engage pas nécessairement les étudiants ou les programmes.

Policy for offers of graduate admission and/or financial support

The Board of Directors of CPA approved the following as a policy of the Association on June 16, 1979, and makes copies of this statement available to departments for distribution to prospective graduate students. The policy is designed to provide prospective students and departments with a period of time in which it is understood that offers of financial assistance will be made and can be considered and freely accepted.

1. Departments will endeavour to make offers of admission and/or support to applicants before April.
2. Applicants have until April 15th to accept an offer of admission.
3. After April 15, offers will be made only to applicants who state that they are not committed to another department.

Meaning of the Policy for Prospective Students. Within this policy prospective students should not feel pressured to accept awards before April 15, when they will have had an opportunity to consider all of their options. A student who accepts an award ties up a position and money that could have been offered to another student. Therefore, after April 15 that student is not regarded as free to accept an award at another University without the written approval of the first Department. Prospective students who had previously indicated acceptance of an award must then obtain a written release from the first Department before they are free to accept another award.

Politique relative à l'admissibilité des étudiants et étudiantes aux programmes d'études et/ou à l'aide financière

Le 16 juin 1979, le Conseil d'administration de la SCP adoptait comme politique officielle la politique suivante sur l'admissibilité aux programmes d'études supérieures et à l'aide financière et en distribuait l'énoncé aux futurs étudiants dans les départements de psychologie. La raison d'être de cette politique: accorder aux étudiants et étudiantes le temps nécessaire pour leur permettre de prendre en considération et d'accepter de façon éclairée toute offre d'aide financière qui leur serait faite.

1. Les départements s'efforceront de faire l'offre d'admission et/ou de bourses d'études aux candidats et candidates avant le 1^{er} avril.
2. Les candidats et candidates auront jusqu'au 15 avril pour accepter l'offre qui leur sera faite.
3. Après le 15 avril, des offres seront faites
4. Seulement aux candidats et candidates qui auront précisé qu'ils ou elles ne sont pas inscrits(tes) à un autre département.

Interprétation de la politique. Dans le cadre de cette politique, les étudiants ne doivent pas se sentir obligés d'accepter les bourses avant le 15 avril mais bien lorsqu'ils auront eu l'occasion d'étudier tous les choix qui s'offrent à eux. Un étudiant qui accepte une offre prend la place et une somme d'argent qui auraient pu être accordées à une autre personne. Par conséquent, après le 15 avril, un étudiant ne pourra accepter une offre d'une autre université à moins d'en avoir reçu l'autorisation écrite du premier département avec qui il a fait affaire. Après le 15 avril, tous les étudiants qui auront reçu une offre d'aide financière devront préciser qu'ils ne se sont pas engagés envers un autre département. Les étudiants qui auraient déjà accepté une offre devront obtenir une libération écrite du premier département avant d'en accepter une autre.

The Psychology Department offers a two year M.Sc. degree in Clinical Psychology. Graduates of this program either pursue doctorate degrees in Psychology or work as Master's-level psychologists in provinces that have Master's-level registration.

- Department of Psychology:** Established 1926. Head: Doug Symons. Faculty: 12 full-time (7 full Professors, 5 Assistant Professors) and 1 Instructor. Academic year system semester. M.Sc. degrees awarded in the Clinical area. First M.A. awarded in 1949 in the area of Tests and Measurement.
- Department Orientation:** Master of Science in Clinical Psychology only.
- Applications to be Addressed to:** Admissions Officer, Acadia University, Wolfville, Nova Scotia, B4P 2R6. Deadline: February 1 . Fee: \$50.00.
- Admissions Requirements:** Preferred minimum scores: GRE-V 500; GRE-Q 500; GRE-Advanced 500; GPA and Psych GPA-3.0; Last two years GPA-3.0. High GRE-V compensates for low GRE-Q, and vice versa. Also important are previous research activity, work experience, clinically-related public service, three letters of recommendation. Priority is given to B.A., B.Sc. Honours graduates in selecting candidates for the Graduate program.
- 2006-2007 Student Statistics:** 10 Full-time Master of Science. (1 male, 9 females). 5 First year
- Degree Requirements:** Five courses plus thesis required. Two 150-hour practical in Clinical Psychology. Two years average time from Bachelor's Degree to complete program.
- Tuition Costs:** Year 1: \$7,211 Year 2: \$3,248
- Financial Assistance:** Graduate Fellowships available in some cases.
- Applications in 2006:** 40 applications, 5 accepted.
- Anticipated Openings in 2007:** 5
- Average Scores of Students Admitted in 2006 for Masters:** GRE Verbal – 510. GRE Advanced – 620. GRE Quantitative – 5.0
- Research and Clinical Space:** Extensive office and laboratory space.
- Typical Requirements for Academic Staff Appointments:** Ph.D. and, for a Clinical appointment, clinical doctorate plus internship experience and eligibility for registration in the Province of Nova Scotia. Language requirements, English.

University of Alberta (Educational Psychology)

Edmonton, Alberta

Fax: (780) 492-1318

Email: rob.short@ualberta.ca

URL: <http://www.uofaweb.ualberta.ca/edpsychology>

Department of Educational Psychology:

Established 1949: Dr. R. Overall, Chair. Faculty: Full-time 30. Academic year system: two semesters. 14 Full Professors, 14 Associate Professors, 5 Assistant Professors, 35 Professors Emeriti, 1 Administrative Professional Officer. Degrees awarded 1949-2005 inclusive: Masters: 1674, Ph.D. 702. Largest number of degrees awarded in Educational Psychology: Counselling Psychology.

Department Orientation:

Psychological Studies in Education (Research Stream or Professional (School Psychology) Stream); Counselling Psychology; School Counselling; Special Education; Teaching English as a second language; and Measurement, Evaluation and Cognition.

Programs and Degrees Offered:

M.Ed. Thesis-based and Course-based M.Ed. in Special Education, and Counselling Psychology. M.Ed. course based in Teaching English as a Second Language, and School Counselling (cohort admitted alternate years). M.Ed. thesis based in Psychological Studies in Education ; and Measurement, Evaluation and Cognition.

Ph.D. Ph.D. in Counselling Psychology (CPA accredited); Ph.D. in School Psychology; Ph.D. in Special Education; Ph.D. in Psychological Studies in Education; Ph.D. in Measurement, Evaluation and Cognition; Ph.D. in Studies in Teaching and Learning English as a Second Language.

Applications to be Addressed to:

Department of Educational Psychology, University of Alberta, Edmonton, Alberta, T6G 2G5, Tel: 780-492-5245, Fax: 780-492-1318. E-mail: rob.short@ualberta.ca Deadline: January 15. www.uofaweb.ualberta.ca/edpsychology

Admission Requirements:

Master of Education: 1) an approved 4-year degree with academic standing 2) acceptance by the Department as a candidate 3) 3.0/4.0 GPA or equivalent. Ph.D.: 1) an approved Master's degree with thesis or equivalent 2) acceptance by the Department as a candidate.

Student Statistics:

2005-2006 Full-time Ph.D. 67; M.Ed. 49. Part-time: Ph.D. 34; M.Ed. 73. Student % – Male 23, Female 77.

Degree Requirements:

Thesis- based M.Ed students must maintain full-time registration throughout their program. To satisfy the requirements for an M.Ed. degree, students must complete a specified minimum number of graduate courses. Students in the thesis-based route must also complete and defend a thesis. The Department supports a wide range of thesis research including quantitative and qualitative studies.

Ph.D.: Requires full-time registration throughout the program, appropriate course work, a written comprehensive examination, a candidacy examination, a dissertation, and a final oral examination.

Programs at the Doctoral level are developed on an individual basis in consultation with both an academic advisor and thesis supervisor. Students enrolled in a Counselling Psychology or School Psychology program are also required to complete a full-year of internship.

- Tuition Costs:** 2005-2006: Canadian: M.Ed., Ph.D.: \$3,950 Sept-Apr (9 cwt per term). Campus housing available.
- Financial Assistance:** Graduate Assistantships — Teaching or Research; Bursaries and Awards; Scholarships and Fellowships.
- Applications in 2005:** Ph.D. Counselling: 12, Accepted 4; Special Education: 4, Accepted 1; Psychological Studies in Education: 9, Accepted 4; Measurement, Evaluation and Cognition: 12, Accepted 1. M.Ed. Counselling: 87, Accepted 9; Special Education: 16, Accepted 2; Psychological Studies in Education: 14, Accepted 6; Measurement, Evaluation and Cognition: 5, Accepted 1; Teaching English as a Second Language: 22. Accepted 7.
- Special Facilities or Resources:** Clinical Services, Division of Educational Research, Group Process Laboratory, Internship Placements, Developmental Disabilities Centre, Psychological Test Library, Center for Research in Applied Measurement and Evaluation.
- Support Staff:** Computer technicians, Audio-visual technicians, duplicating services, curriculum and test librarian.
- Research and Clinical Space:** Clinical Services: 29,394 square feet; Research: 14,000 square feet; Administration: 3,000 square feet.

University of Alberta (Psychology)

Edmonton, Alberta

Tel: (780) 492-5216

Fax: (780) 492-1768

Email: psygrad@ualberta.ca

URL: <http://www.psych.ualberta.ca>

- Department of Psychology:** Established 1961. Chair: Doug Grant. Faculty: 31, including 15 full professors, 6 associate professors, and 10 assistant professors. Academic year system: two semesters. Degrees awarded 1962-2005: 248 Master's, 153 Ph.D.s.
- Departmental Orientation:** The emphasis is on both research and on career preparation; the goal is to prepare people for career opportunities in both academic settings and non-academic settings in a broad range of public and private institutions.
- Applications to be Addressed to:** Graduate Program Assistant, Department of Psychology, University of Alberta, Edmonton, Alberta, T6G 2E9, for information regarding admission, the graduate program, and financial assistance (or phone (780) 492-0969 or fax (780) 492-1768). On-line applications now accepted through our website at: www.psych.ualberta.ca.
- Admission Requirements:** Normal requirements include a four-year BA or BSc in psychology or related disciplines for admission to the Master's program or an MA or

MSc in Psychology for entry into the PhD program. There is also an option for Bachelors students to be admitted directly into the PhD program. Experience in research and an excellent record of achievement are very helpful. Graduate Record Examination scores (the general test) are required. Foreign students whose native language is not English must obtain a satisfactory score on the Test of English as a Foreign Language.

Student Statistics 2006-2007: 31 in the PhD program, 14 in the MSc, 6 in the MA; 60% are female and 40% are male. 51 total.

Median Scores of Students Admitted: Grade-point averages for incoming students typically are 3.5 or better (on a 4-point scale).

Degree Requirements: Master's students complete six one-term courses that have been approved by their supervisory committees. A first-year research project and a Master's thesis are required. PhD students must complete an oral candidacy exam and a dissertation.

Tuition Costs: Fees typically total about \$3971 per year for Canadian students and \$7563 for international students. Fees are subject to change. Further details can be found at the Faculty of Graduate Studies and Research website, <http://gradfile.fgsro.ualberta.ca>

Financial Assistance: Graduate students typically receive about \$21,000 to \$25,000 per year in the form of teaching and/or research assistanships during the academic year and the summer. Scholarships and awards are also available.

Applications for September 2006: Total applications: 58. New students entering the program: 10.

Anticipated Openings for September 2007: 10 openings in total across areas.

Programs and Degrees Offered: PhD degree offered in a variety of specializations, including developmental science; behaviour, systems and cognitive neuroscience; cognition; comparative cognition and behaviour; and social and cultural psychology.

Affiliated Institutes Offering Programs: Center for Neuroscience.

Special Facilities or Resources: Excellent general-purpose computing facilities on campus, and numerous micro computers within the department. A wide range data collection and analysis software packages are available. The department has excellent electronics shop and technical services.

Support Staff: 1 programmer analyst, 3 electronics technicians. Animal services provided by the Biological Sciences Animal Services.

Research Space: 36,000 sq. ft.

Typical Requirements for Staff Appointments:

New assistant professors must have a PhD and have published a significant number of papers in refereed journals. Many have postdoctoral experience. Hiring decisions are made on the basis of demonstrated research capability, teaching ability, and the potential for interactions with colleagues.

University of British Columbia

(Educational & Counselling Psychology, and Special Education)

Vancouver, British Columbia, V6T 1Z4

World Wide Web address: <http://www.ecps.educ.ubc.ca>

Department Telephone: (604) 822-8229

Department Head: Dr. Shelley Hymel

Department of Educational & Counselling Psychology, and Special Education:

36 Full-time Faculty (15 Full Professors; 16 Associate Professors; 5 Assistant Professors). Academic Year System: three terms per year. Degrees awarded 2005-2006: M.A.: 57, M.Ed.: 66, Ph.D.: 19.

Departmental Orientation:

Counselling Psychology, Educational Psychology, and Special Education.

Programs and Degrees Offered:

Masters of Arts (M.A.), Master's of Education (M.Ed.), and Doctoral (Ph.D.) degrees are offered across five distinct areas of specialization: Human Development, Learning and Culture (HDLC); Special Education (SPED), including teaching of the deaf and hard of hearing, visually impaired and high ability students, Measurement, Evaluation, and Research Methodology (MERM); School Psychology (SCPS); and Counselling Psychology (CNPS), including CPA accredited Masters programs in School Counselling, Counselling in Higher Education, and Community Counselling, in addition to the APA/CPA accredited PhD. program.

Applications to be Addressed to:

Online applications available at department website: <http://www.ecps.educ.ubc.ca>
Regular applications send to: Graduate Secretary, Educational and Counselling Psychology, and Special Education, Faculty of Education, 2125 Main Mall, University of British Columbia, Vancouver, B.C. V6T 1Z4. Deadline for applications: Dec. 1, 2006.

Admission Requirements:

Applicants should note that admission requirements vary depending on the desired program of study. Current admission requirements for each program are available online at ECPS website.

Students Statistics:

2005-2006 Full-time Ph.D. 112; M.A. 160; M.Ed. 170. Student %: Male 16%, Female 84%.

Degree Requirements:

Magistral: Varies across programs. Departmental requirements include a minimum of 30 credits with required courses varying by program area.

Doctoral: (1) 6 credits of Doctoral seminar, advanced quantitative statistics and research design, qualitative research design, and other required courses varying by program area; (2) candidacy examinations,

and (3) a dissertation. Counselling and School Psychology programs also require a 1600 hour internship.

- Tuition Costs:** 2005-2006: Canadian Masters: \$5521 per year; Ph.D. \$3786 per year. (Canadian residents do not have to pay for the Ph.D. tuition within the first 4 years, after the 4th years, students required to pay.) International Students: Masters: \$7200 per year; Ph.D. \$7200 per year.
- Financial Assistance:** Limited numbers of teaching assistantships, research assistantships, graduate academic assistantships, work-study positions are available on a competitive basis. Merit based awards (fellowships) are available and administered through the Faculty of Graduate Studies. The Graduate Entrance Scholarship is available from the department on the merit based.
- Applications in 2006:** Applied 355, Accepted 137.
- Special Facilities or Resources:** The UBC Psychoeducational Research and Training Centre which includes a Test Library and clinical training and research facilities; the New Westminster Counselling Centre; computer lab facilities.
- Support Staff:** Computer technicians, Audiovisual technicians; Educational Librarian; 6 departmental staff.
- Research and Clinical Space:** Includes approximately 18 research offices, 12 interview rooms, 40 student shared office spaces.
- Web Address:** <http://www.ecps.educ.ubc.ca>

University of British Columbia (Psychology)
Vancouver, British Columbia
 Phone: 604-822-2755
 Graduate Program Secretary: 604-822-3144
 Fax: 604-822-6923
 E-mail: askus@psych.ubc.ca
 Web-site: www.psych.ubc.ca

- Department of Psychology:** Established 1951. Head: Eric Eich. Faculty: 48 full-time. (25 full professors, 12 associate professors, 11 assistant professors, 1 instructor), 15 part-time. Academic year system: September to August. Degrees awarded 1967-2006: MA 485, PhD 283. Doctoral program in Clinical Psychology is accredited by CPA and APA.
- Department Orientation:** Heavy research emphasis, including laboratory, field and applied research as appropriate for given areas and problems. Excessively narrow specialization is discouraged. Skills training emphasized in applied areas, although not at the expense of research.
- Programs and Degrees Offered:** MA and Ph.D: Behavioral Neuroscience, Clinical, Cognitive Science, Developmental, Forensic, Health, Quantitative Methods, Social-Personality.
- Applications to be Addressed to:** Apply online (www.grad.ubc.ca/apply/online) or mail to: Graduate Program Secretary, Department of Psychology, 2136 West Mall, University of British Columbia, Vancouver, BC, V6T 1Z4. Deadline:

January 15. Application fee: \$90 for Canadians and permanent residents or \$150 for international applicants.

Admission Requirements:

The basic prerequisite for admission to the MA program is a 4-year BA or BSc degree with a major or honors in psychology. Students should have at least an 80% average (or a GPA of 3.5) in the last 2 years of undergraduate courses. In addition, GRE scores should be above the 80th percentile.

The basis prerequisite for admission to the PhD program is an MA or MSc degree in psychology. In addition, students should have GRE scores comparable to those cited above, and they must demonstrate that their masters-thesis research was of high quality.

Importance of non-objective criteria: previous research ability – high; work experience – medium; extracurricular activity – low; clinically-related public service – medium; letters of recommendation – high; student's interests and goals – high.

2006-2007 Student Statistics:

full-time MA 28; PhD 69. part-time 0.

Degree Requirements:

MA: A minimum of 30 credits of course-work; thesis required; 2 years to complete program.

PhD: Dissertation required; additional courses depending on student's need; student must take two courses outside own program plus written comprehensive exam (oral exam may also be required); oral dissertation defense required; 6 years (7 in clinical program) average time, after completion of bachelor's degree, to complete MA and PhD program.

Tuition Costs:

MA: Canadian citizens and permanent residents: \$3,862 for each of the first 2 years of MA program. International students: \$7,200 for each year of MA program, but tuition fee scholarships of \$3,338 are awarded to eligible international students.

PhD: No tuition in the first 4 years of PhD program.

Financial Assistance:

All applicants who are accepted for graduate study are fully funded for the first 2 years of the MA and the first 4 years of the PhD. This financing is in the form of tuition waivers, teaching assistantships, research assistantships, and fellowships (UBC, NSERC, SSHRC, CIHR) to a minimum of \$15,000 annually.

Applications for 2006-2007:

Behavioral Neuroscience: 10 applications, 2 accepted; Clinical: 143 applications, 4 accepted; Cognitive Science: 27 applications, 1 accepted; Developmental: 23 applications, 1 accepted; Forensic: 1 application, 1 accepted; Health: 13 applications, 2 accepted; Quantitative Methods: 6 applications, 0 accepted; Social-Personality: 53 applications, 3 accepted

Anticipated Openings for 2007-08:

Behavioral Neuroscience 5, Clinical 8, Cognitive Science 5, Developmental 5, Forensic 0, Quantitative Methods 2, Social-Personality 5. *Note:* no new applications will be accepted for the forensic program.

Average Scores of Students Admitted in 2006-07:

GRE-verbal 615. GRE-quantitative 727; undergraduate GPA 3.8.

Support Staff: 1 clinic director, 1 administrative manager, 1 IT manager, 1 stores-keeper, 3 animal technicians, 5 secretarial/clerical staff, 1 accounts clerk, 1 web manager, 1 computer support technician, 1 undergraduate adviser.

Research and Clinical Space: 56,000 ft² net usable space.

Typical Requirements for Academic Staff Appointments: References required; quality stressed; length of experience unimportant; papers published in refereed journals (quality and quantity stressed); language requirements (English); particular research areas preferred depends on needs at that time.

Brock University

St. Catharines, Ontario, Canada

Phone No.: 905-688-5550, ext. 3543

Fax No.: 905-688-6922

Email: lindap@brocku.ca

URL: <http://www.brocku.ca>

Department of Psychology: Established 1969. Chairperson: Kathy Belicki. Faculty: 26 full-time, (13 Professors, 10 Associate Professors, 3 Assistant Professors). Academic year system: three semesters. Masters and PhD degrees in three focus areas: Behavioural Neuroscience; Lifespan Development; Social/Personality Psychology. Full-time and part-time options.

Department Orientation: The emphasis is on basic and applied research with the goal of preparing students for further studies at the Ph.D. or postdoctoral level or for work in settings where an appreciation of the theoretical, conceptual, and methodological bases of psychology is of value.

Applications to be Addressed to: Supporting documents should be sent to: Office of Graduate Studies, Brock University, St. Catharines, Ontario, L2S 3A1. <http://www.brocku.ca/gradstudies/>

Application Materials and Information:

Instructions and application forms are available online at: www.brocku.ca/gradstudies/

Application Fee: \$75.00

Application Deadline: January 15.

Web Site: For more detailed descriptions and up-to-date information about the program, please visit our web site: <http://www.psyc.brocku.ca>

Admission Requirements: *Master's:* Honours B.A. in psychology or its equivalent, with an average not less than 75 percent.

Ph.D.: MA in Psychology or its equivalent, with an A average in the previous 2 years of graduate study and evidence of research competence normally demonstrated by the successful completion of a Master's Thesis.

Both Programs: Applicants must supply official transcripts of academic work completed to date; Graduate Record Examination scores, both General and Psychology sections; 3 confidential letters of recommendation; a personal statement of interest in pursuing graduate studies; a listing of research, teaching, or work experience related to proposed area of specialization; and the research and faculty checklist form. Official TOEFL, MELAB, or IELTS scores are required for those whose native language is not English.

Degree Requirements:

M.A. degree requirements include successful completion of the core course in research design, the core area course, one additional half course elective, ongoing participation in the relevant Focus Area Research seminar, and the successful completion and oral defence of a thesis.

Ph.D. degree requirements include completion of an advanced course in statistics / methods, one skills-based apprenticeship, a course in professional issues, ongoing participation in the Focus Area Research seminar, two half credit electives, and the successful completion and oral defence of a thesis.

Tuition Costs:

Information about tuition for the 2005-2006 academic year is available on the office of Graduate Studies website: <http://www.brocku.ca/gradstudies/financial/>.

Financial Assistance:

First year full-time graduate students without external funding typically receive about \$14,000.00 per year in the form of University Fellowship and Teaching Assistantship. It is University policy to subsidize International Students where possible. Funding levels are indicated when an offer of admission is made. More information about available funding can be found on the office of Graduate Studies website: <http://www.brocku.ca/gradstudies/financial/>.

Applications for September 2006:

Total applications: 58. New students entering the program: 10. Total current enrolment: 36 full-time and 3 part-time.

Anticipated Openings for September 2007:

Approximately 9-12 students could be admitted to the program. However, admission to all three focus areas of study may not be offered in any given year.

Programs Offered:

MA and PhD programs in the focus areas of Behavioural Neuroscience; Lifespan Development; and Social/Personality Psychology. Collaboration and integration across focal areas is also possible.

Special Facilities or Resources:

Whereas the primary thrust of the graduate program is towards basic research, many research programs have reasonably direct application to health or social issues. The Department has also forged links with the community that will facilitate student access to special populations, community resources, agencies, and school boards. Active research collaboration with the community and across focus areas and faculties is encouraged through initiatives such as *The Centre of Excellence for Youth Engagement*, *The Youth Lifestyle Choices - Community-University Research Alliances*, and *The Institute for Electrophysiological Research*.

University of Calgary
(Applied Psychology APSY)
Calgary, Alberta

Division of Applied Psychology: Established 1966 (Autonomy from University of Alberta). Named Department of Educational Psychology 1966-2000, renamed Division of Applied Psychology in September 2000. Associate Dean: Dr. Vicki Schwean. Faculty: 23 full-time tenure track faculty. Academic year system - 4 sessions.

Division Orientation: The Division of Applied Psychology in the Faculty of Education offers graduate work leading to the Master of Education (MEd), Master of Science (MSc) and Doctor of Philosophy (PhD) degrees in School and Applied Child Psychology, Counselling Psychology, and Special Education. Detailed program information may be obtained from the Division brochures. Applicants should apply to the program of their choice. An on-line MEd in School and Applied Child Psychology will be introduced in May 2007. The Division of Applied Psychology also participates in the Campus Alberta Master of Counselling initiative. The Campus Alberta Master of Counselling is a conjoint degree, developed and delivered through a partnership between the University of Calgary, Athabasca University, and the University of Lethbridge. The Campus Alberta Master of Counselling Program is a course-based, off-campus masters program that equivalent to the MEd in Counselling Psychology in the Division of Applied Psychology.

Applications to be Addressed to: Graduate Program Administrator, Division of Applied Psychology, University of Calgary, 2500 University Drive NW, Calgary, Alberta, T2N 1N4. Phone: 403-220-3585; fax: 403- 282-9244.
Web: <http://external.educ.ucalgary.ca/edps/html>.

Admission Requirements: Admission requirements vary as a function of program and specialization. Division requirements for the MSc in School and Applied Child Psychology include: a) Honours degree in Psychology (or equivalent) with a grade point average of 3.0 over the courses taken during the last two years of study; b) score above the 50th percentile on the Aptitude dimension of the Graduate Record Examination; c) a typewritten resume and statement of research and professional interests, including the specification of a prospective research supervisor; and d) three letters of reference. In addition to a completed four-year undergraduate degree, requirements for the MEd and MSc in Counselling Psychology include: a) minimum of two and a half full-course equivalents in applied psychology and/or psychology. This must include at least one full-course equivalent in statistics and research design (APSY 301 and 303, or equivalents); b) at least one half-course in each of developmental psychology, learning theory, and personality theory is highly recommended; and c) resume and concise rationale for the application (500 words or less). Students applying to Counselling are advised to complete APSY 419 (Communication Skills in Guidance and counselling) or equivalent before seeking admission.

Keeping with a seamless model of doctoral studies, students who have a minimum grade point average of 3.5 in their first year of the MSc program in School and Applied Child Psychology can apply to transfer to the PhD program at the end of their first year. All of the requirements for transfer must be completed: a) successful completion of all first year graduate courses and b) approval of PhD Research

Program Proposal by the student's PhD supervisory committee. A limited number of outstanding applicants holding equivalent Bachelor's and Master's degrees from elsewhere may be considered; however, if the course content of their Master's program is not equivalent to the MSc at the University of Calgary in School and Applied Child Psychology, students will be required to take additional courses within their doctoral program to ensure equivalent training. These additional courses (a maximum of two full courses) must be completed in the first year of study. Applicants must also have a research advisor selected from among professors in the Division of Applied Psychology upon entry to the program.

Applicants to the PhD in Counselling Psychology must have a completed Master's degree in Applied Psychology or Psychology from an approved university and submit a resume and concise rationale for the application.

2006-2007 Student Statistics: PhD: 45, MEd: 15, MSc: 71. Total Graduate Students: 131

Degree Requirements: Degree requirements vary as a function of the program and area of specialization. For the MSc in School and Applied Child Psychology, students are required to complete: a) 15 half-courses; b) a thesis (equivalent to 3 half-courses); and, c) a 1200-hour internship. A non-credit research seminar is also required. The MSc requires three years of full-time study to complete. The MSc and MEd in Counselling Psychology normally require six full-course equivalents plus a thesis (MSc) or written and oral comprehensive examination (MEd).

MSc students in School and Applied Child Psychology admitted to the PhD program will be required to complete: a) all remaining MSc courses (except the thesis and internship); b) two doctoral-level half courses; c) candidacy examination; d) dissertation; and e) twelve month full-time accredited internship. Generally, the program will be completed in five years from entry to the MSc. Students enrolled in the doctoral program in Counselling Psychology will normally be expected to complete: a) three full course equivalents; b) candidacy examination; c) dissertation; and d) twelve-month full-time accredited internship. Expected completion time is four years.

Tuition Costs: Canadian: varied. Foreign: varied, with 100% differential fee assessed on tuition. Housing available on campus.

Financial Assistance: Graduate Assistantships, Graduate Research Scholarships, Division Scholarships. Funding support is provided to all PhD students.

University of Calgary (Clinical Psychology)
Calgary, Alberta

- Program in Clinical Psychology:** Established 1993. Director: David Hodgins, Ph.D. This program, which has been accredited by the CPA, is in the Department of Psychology in the Faculty of Social Sciences. Faculty: Full-time (8 Professors including 2 Associate Professors and 2 Assistant Professors. There are 33 Adjunct faculty). Academic year system - two terms in regular year; summer research and practicum requirements.
- Program Orientation:** This program subscribes to the scientist-practitioner model of training, and offers strong training in both the research and applied aspects of the profession of clinical psychology. Focussed interests within the program include Clinical Adult and Clinical Child.
- Programs and Degrees Offered:** The program offers two degrees, the M.Sc. and the Ph.D. in Clinical Psychology. Students are not admitted to the program if they only seek the Master's degree; however, as the program endorses the need for doctoral training in clinical psychology and also has integrated the training across the two degrees, students may be admitted to the program with a previous Master's degree.
- Applications to be Addressed to:** Department of Psychology, Program in Clinical Psychology, University of Calgary, 2500 University Drive N.W., Calgary, Alberta, Canada T2N 1N4. A \$100.00 non-refundable application fee must accompany the application. Applications must be received by January 15 of the year in which September admission is sought.
- Inquiries to be Addressed to:** Graduate Secretary, Department of Psychology, Program in Clinical Psychology, A 274 Administration Building, University of Calgary, Calgary, Alberta, T2N 1N4. Phone: (403) 220-5659. Fax: (403) 282-8249. E-mail address: psycgrad@ucalgary.ca. CPSY's web address is: <http://psychology.ucalgary.ca>
- Admission Requirements:** Applications are sought from students who normally have an undergraduate honours degree in Psychology, or its equivalent. Applicants to the program must include in their application the following: Graduate Record Examination (GRE) results, academic transcripts, letters of reference, a description of life and research experience, a statement of career objectives and a prospective research supervisor. Admission to the program will be based upon a minimum 50 percentile score on each of the GRE Verbal and Quantitative dimensions and a minimum 3.6 GPA (approximately 80%). Prior experience, compatibility between the applicant and the program's orientation, as well as the availability of a prospective research supervisor will be important factors in admission decisions. The Program will only admit applicants who are motivated to and appear capable of completing both the M.Sc. and Ph.D. requirements.
- Student Statistics:** Ph.D. – 25, M.Sc. – 12, First year 86% female.
- Degree Requirements:** *M.Sc.:* Requirements include courses in statistics and experimental design, professional issues and ethics, adult and child psychopathology, as well as assessment and therapy. Summer practica, including a minimum of 300 hours of supervised experience and a Master's thesis are required.

Ph.D.: Requirements include the above requirements, plus breadth courses in psychology, specialty practica, clinical research seminar, candidacy examinations, a doctoral dissertation and a full-year, pre-doctoral clinical internship.

Tuition Costs: Students in the program will pay full fees for the years they fulfill their residency requirement at the University of Calgary (Year 1 of the Master's degree and Years 1 and 2 of the Ph.D.), and continuing fees as a graduate student thereafter. For 2006-07, the University of Calgary has set tuition fees as \$5408.00 per year, and continuing fees at \$1,573.00 per year. Foreign students will pay a higher amount, as set by University policy.

Financial Assistance: Owing to the number of requirements in the program, the program attempts to ensure funding for all of its students, though this may not be possible in all instances. Support can come in the form of Graduate Research Scholarships (GRS: \$1,025/month) or Graduate Teaching Assistantships (GTA: \$1,555.25 per month). GTA's carry a teaching responsibility of up to a maximum of 12 hours per week. In addition, the University, Province of Alberta and Government of Canada offer scholarships, for which students are encouraged to apply.

Anticipated Openings in 2007: Six.

Support Staff: One full-time Program Secretary.

Special Facilities or Resources: The program is based in a unit which comprises classrooms, rooms with one-way mirrors for training in interviewing and therapy skills, audio/video facilities, and test library. Access to other research facilities in the sponsoring department is also available.

University of Calgary (Psychology)
Calgary, Alberta

Department of Psychology: Established 1963. Head: Keith Dobson. Faculty: Full-time. (16 Full Professors, 11 Associate Professors, 6 Assistant Professors). Academic year system - four sessions in regular year. Degrees awarded in the areas of Experimental and Applied Psychology. First M.A. degree awarded in 1964 in the area of Aging; first Ph.D. awarded in 1971 in the Social Psychology area.

Department Orientation: Strong research emphasis; balance between experimental and applied topics.

Program and Degrees Offered: M.Sc., Ph.D., in all major areas of study. The Department offers training in all major areas of psychology, as well as several specialty areas. Areas of specialization include:
Behavioural Neuroscience, Clinical Psychology*, Cognition and Cognitive Development, Industrial/Organizational Psychology, Perception, Aging and Cognitive Ergonomics, Social Psychology and Theoretical Psychology.

*Clinical Psychology: Those wishing to apply to the Clinical Psychology Program should request information from: Graduate Program Administrator, 274 University of Calgary, 2500 University Drive NW, Calgary, AB T2N 1N4. Web site: www.psych.ucalgary.ca/

- Applied Programs:** Individual programs in applied psychology are also offered at both the M.Sc. and Ph.D. levels, with specialization in Industrial/Organizational. These programs consist of the regular Master's and Doctoral courses, additional **Applied Programs** instruction at the University level; thesis or dissertation, and four-month, paid practicum placements in a variety of settings.
- Applications to be Addressed to:** The University of Calgary, 2500 University Drive, N.W., Calgary, Alberta, Canada T2N 1N4. Fee: \$100.00 non-refundable. Fax Number: (403) 282-8249. Deadline for applications each year: January 15, October 1.
- Inquiries to be Addressed to:** Graduate Program Administrator, Department of Psychology, University of Calgary, Calgary, Alberta T2N 1N4. Fax: (403) 282-8249 or E-mail: psycgrad@ucalgary.ca. Web site: <http://psychology.ucalgary.ca>
- Admission Requirements:** Students must have satisfactory scores on the Graduate Record Examination (Verbal, Quantitative, Analytical) and must **exceed** the minimum requirement for admission into the Faculty of Graduate Studies — a 4-year baccalaureate degree with a grade point average of 3.0 (equivalent to a B or 70% in many universities) over the courses taken during the last two years of study. (**Departmental requirement - minimum 3.4 over the courses taken during the last two years of study**). Applicants are expected to hold a 4-year undergraduate degree, typically with specialization in Psychology, or a related discipline, including courses in experimental design and statistics. The Department will normally accept only applicants who appear capable of completing the M.Sc. and Ph.D. requirements.
- Student Statistics:** Ph.D.- 19, M.Sc.- 24. First year - 50% female, 50% male. 43 students are active in the graduate programme.
- Degree Requirements:**
M.Sc.: Three full-course equivalents including one full course in experimental design, one full-year research course and four elective half courses. Written thesis and oral defence. Applied programmes require more course work.
Ph.D.: Written and oral dissertation and oral defence candidacy exams, three full course equivalents. Applied programmes require more course work.
- Tuition Fees:** MSc – one year of full-time study at full program fees, with each subsequent year at continuing fees. PhD – Two years of full-time study at full program fees, with each subsequent year at continuing fees. For 2006/2007 program fees total \$5408.00 and continuing fees are \$1573.00.
- Financial Assistance:** Graduate Research Scholarships (GRS) or Graduate Assistantships (Teaching) (TA) are awarded to virtually all eligible students for the eight-month regular session (September-April). Summer financial assistance is available through Graduate Research Scholarships and external grants. Graduate Research Scholarships (\$1025/month) are awarded to conduct research. No teaching or service duties are required of graduate students who hold a GRS. Graduate Teaching

Assistantships (\$6915.00 per term) involving a maximum of 12 hours per week (including preparation) for teaching laboratories or tutorials.

Anticipated Openings in 2006: About 10, in all areas of Psychology.

Support Staff: Technical staff totals 3. 2 programmers, 1 electronics/engineering. Clerical staff totals 6. Administrative staff: 1 administrative assistant, 1 graduate program administrator, and 2 administrative program assistants.

Special Facilities or Resources: Completely equipped laboratories for auditory physiology, cognitive, ergonomics, auditory and visual psychophysics, physiological, psychophysiological and electro-physiological research, visual aging, as well as social, developmental and psychometrics laboratories.

Research Resources: Major Department facilities include large graduate and undergraduate Macintosh computer laboratories, IBM compatible systems and a selection of attached printers. The Department has several videotape labs, sound and RF-shielded chambers, a digital speech synthesizer and speech editor, a vision tunnel, driving simulator, eye tracking equipment, and digital sonographs and spectrum analyzers. Fully equipped laboratories for research in perception, cognition, neurophysiology, behavioral medicine, psychophysiology, social and developmental psychology are available for student use. The Department maintains a well-equipped shop with technicians who are available to graduate students as well as to faculty. Research facilities are also available in local hospitals and clinics, at the Vocational and Rehabilitation Research Institute located adjacent to the campus, and in local industrial settings. The University Libraries house excellent collections.

Research and Clinical Space at the University: More than 2,900 square meters.

Typical Requirements for Academic Staff Appointments: At least two years of suitable teaching experience beyond Ph.D. Independent research program with a strong record of publication in refereed journals. Established and continuing interest in one of the Department's primary areas of specialization.

Carleton University
Ottawa, Ontario

Department of Psychology: Established 1952. Chairperson: Mary Gick. Faculty: 47 Full time (16 Full Professors, 16 Associate Professors, 15 Assistant Professors). Academic year system – semester. Largest number of degrees awarded in the General/Experimental area.

Department Orientation: Research orientation. No clinical psychologists trained, though graduate students are urged to gain research experience in applied fields through practice arranged by the department.

Programmes and Degrees Offered:

M.A., M.Sc. & Ph.D. General/Experimental. Thesis specialization available in developmental, forensic, health, human behavioural neuroscience, human computer interaction, human learning and cognition, and social/organizational.

Applications to be Addressed to: Etelle Bourassa, Graduate Studies Administrator, Department of Psychology, Carleton University, 1125 Colonel By Drive, Ottawa, Ontario K1S 5B6, Phone: (613) 520-2647, Fax: (613) 520-3667.
 WWW URL: <http://www.carleton.ca/psychology/graduate>.
 Deadline for consideration of financial support: January 15.

Admission Requirements:

Masters The requirements for admission into the Master of Arts program in Psychology consist of an Honours B.A. in Psychology or equivalent. Particular emphasis is placed here on background in experimental methods, statistics, history of psychology, physiological psychology, learning and research experience such as the Honours thesis. The scores for the Graduate Record Examination are optional. The minimum GPA (grade point average) requirements are a B+ overall in Psychology and a B- overall GPA

Ph.D.: The requirements for admission into the Ph.D. program in Psychology consist of a Master's degree in Psychology or equivalent. Applicants should have at least an A- overall GPA and two strong letters of reference. The scores for the Graduate Record Examination are optional.

2005-2006 Student Statistics:

Full-time Ph.D. 45; M.A. 41, M.Sc. 12.
 Part-time Ph.D. 12; M.A. 13, M.Sc. 4, 44 Professors, plus 30 adjunct professors active in graduate programme.

Degree Requirements:

Master's Students are required to take 5 credits at the M.A. level, 3 of which are course work and 2 of which are theses. Students are required to take Statistics PSYC 5410 and PSYC 5411 totalling 1.0 credits of the required course work.

Ph.D.: Students are required to take 10 credits at the Ph.D level, 5 of which are course work and 5 of which are theses. Students have a Comprehensive requirement PSYC 6905 worth 1.0 credit of the required course work, as well as Statistics PSYC 5410 and PSYC 5411 totalling 1.0 credit of the required course work and an addition 0.5 credit from PSYC 5401, PSYC 5402, PSYC 5403 or PSYC 5406.

Tuition Costs:

Resident: \$2,226.57 per term. Non-resident: \$5,331.57 per term. Campus housing is available.

Financial Assistance:

Upon application, Teaching Assistantships augmented with University scholarships are available to many full-time students. Students are expected to apply for external scholarships (e.g. NSERC, SSHRC, OGS, etc.) for which they are eligible.

Applications in 2006:

General Experimental: 203 applications, 75 accepted.

Anticipated Openings in 2007:

General Experimental, 48.

Concordia University

Montreal, Quebec

World Wide Web addresses:

Graduate program information and graduate application can be downloaded from this Web site.

Graduate application can be downloaded from: <http://www.concordia.ca>

Psychology Dept. (tel.): (514) 848-2424 ext.2205;

Psychology Dept. (fax): (514) 848-4545

E-mail: Ms. Shirley Black, M.A., Graduate Program Assistant,

Shirley.Black@concordia.ca

Department of Psychology:

Established 1961. Chairperson: J. Chaikelson.. Faculty: 41.5 Full-time, (13.5 full professors; 16 associate professors; 10 assistant professors, 1 Senior lecturer; 1 adjunct clinical faculty). Academic year system – full-year. First Ph.D. awarded in 1978. First M.A. awarded in 1969.

Department Orientation:

Graduate training in psychology at Concordia University is for students intending to obtain the Ph.D. degree in our program. At the beginning of graduate training, students pursue the M.A. degree and affiliate with either the General or the Clinical Profile. The two profiles have the same research requirements but the Clinical Profile also includes clinical course work and training. For the doctoral degree, the emphasis is again on research within, General or Clinical Profiles. Graduate training at Concordia has two unique features: areas of research specialization and the availability of clinical training regardless of research specialization area.

Programmes and Degrees Offered:

The Department of Psychology offers two degrees. Master of Arts (Psychology) and Doctor of Philosophy (Psychology).

Research Areas:

In keeping with the department's emphasis on research, new students immediately become part of a research team. Students are accepted into the program under the sponsorship of a faculty member whose research interests are similar to their own. Areas of research specialization have been defined so as to include a range of perspectives and methods, from pure research to applications. Students and faculty may specialize in one or more areas. The areas of specialization offered by the department are:

1. Appetitive motivation and drug dependence: Analysis of behaviours oriented around intake of nutrients and drugs. Research on behavioural control in humans and animals. Study of neuro-physiological and bio-chemical mechanisms underlying appetitive motivation and addiction. Applied experience with alcoholism, drug abuse, obesity, and anorexia nervosa.

2. Behaviour disorders: The study of neurophysiological, biological and social factors associated with particular behaviour problems and their remediation. Research on the origins, nature, determinants and treatment of the various disorders. Current research with children and adolescents focuses on developmental psychopathology, including risk factors for adult psychopathology and precursors of particular clinical symptoms. Research with adults examines the etiology of anxiety and

depression, and the relative effectiveness of therapies in controlling them.

3. Human development and developmental processes: The study of normal and atypical patterns in human development across the lifespan. Research on the origins, nature, determinants and interaction of cognitive, perceptual and motor abilities, personality characteristics and social skills. Research programmes on childhood and adolescence include: perceptual, cognitive and motor processes in normal and high risk infants and young children; family and peer relations; sex differences and sex role socialization; predictors of adjustment, in particular across developmental transitions; and ethnic attitudes. Research programmes on aging examine lifestyle factors that maintain competence in elderly women and men, and changes and continuity in cognitive abilities, language and personality.

4. Perception, Cognition and Neuropsychology: The study of sensory, perceptual and cognitive processing and their development, leading to the perception, responding to and comprehension of visual, auditory and verbal stimuli. Research programs in perception include perception of motion, depth, texture and color, spatial vision, and visual search, with special emphasis given to the role of attention. Research programs in cognition include studies of attention, memory, reading, skill acquisition, second language skills, and musical performance skills. The developmental aspects of cognition currently investigated include the origins of a theory of mind in infancy and early lexical and conceptual development in monolingual and bilingual children. Research programs in neuropsychology give special emphasis to the role of attentional strategies, to auditory information in perceptual and cognitive processing, neuropsychological mechanisms and thought disorders, using neuropsychological methods such as brain wave recording and brain imaging. Research is based on normal as well as clinical, neuropsychological and other special populations.

5. Health psychology: The study of the psychological processes important in developing and maintaining fitness and health. The role of stress and coping variables, as they influence health, illness and pain perception. The role of illness as a transition from healthy aging into frail old age. The experience, interpretation of and derived meaning of major illness by the elderly. The impact of various risk factors and disease states on cognitive function, and of cognition and suggestion on pain.

6. Sexual and sex-related behaviour: Studies of biological and social influences on sexual and sex-related behaviour in humans and animals. Research areas covered include the following: sexual development in animals; maternal behaviour and nutrition-endocrine interactions in animals; genetic and hormonal influences on sex differences in brain anatomy, function and behaviour; human sexual behaviour-reproduction, contraception, abortion, sex role socialization and identification; sex differences in attitudes, motivation, cognitive development functioning.

Clinical Profile:

The clinical training program is fully accredited by the Canadian Psychological Association, the American Psychological Associations and L'Ordre des psychologues du Québec. Students in any area of research specialization may follow the Clinical profile, though

historically Clinical Profile students have concentrated on certain areas. Clinical course work and practica, including a Certificate in Clinical Psychology, are begun concurrent with the Master of/Magisteriate in Arts requirements, and continue as part of the Ph.D. Degree.

Applications to be Addressed to: Inquiries and correspondence regarding the programs and source of funding should be addressed to: Graduate Programme Assistant, Department of Psychology, SP A244-13, Concordia University, 7141 Sherbrooke Street West, Montréal, Québec, H4B 1R6. Phone: 514-848-2424 ext. 2205. Fax: 514-848-4545. E-mail: Shirley.Black@concordia.ca

Admission Requirements: Enrollment is limited, in part by the availability of research supervisors. Applicants are selected on the basis of past academic record, letters of recommendation, the results of the Graduate Record Examination (optional but highly recommended), and the relevance of their proposed research to the areas of specialization of the department.

M.A.: (Psychology): Admission for the Master's program requires an honours degree or its equivalent.

Ph.D.: (Psychology): Admission to the Doctoral program requires a Master's degree in psychology (or equivalent), with thesis, from Concordia or another recognized university.

2005-2006 Student Statistics: Full-time Ph.D. 84; full-time M.A. 43;
Total: 131 students (25% male; 75% female).

Degree Requirements: The minimum period of residence for the **M.A.** in Psychology is one calendar year of full-time study (45 credits). The degree includes course work and thesis requirements. Clinical Profile students also complete the Certificate in Clinical Psychology (15 credits). The minimum period of residence for the **Ph.D.** is two calendar years. A fully qualified candidate is required to complete 90 credits of course work, comprehensive examinations and a thesis. Clinical Profile students also complete a one year full-time internship.

Tuition Costs (2005-06):

M.A. Degree (per year, 2 years):
 Québec residents: \$3,114.15
 Non-Québec Canadians and Permanent Residents (landed immigrant status): \$5,163.90
 International students: \$9,741.93.

Certificate in Clinical Psychology (per year, 2 years):
 Québec residents: \$500.49
 Non-Québec Canadians and Permanent Residents (landed immigrant status): \$1,320.39
 International students: \$2,930.49.

Ph.D. Degree (per year, 4 years): Canadian,
 Québec & Non-Québec residents: \$3,114.15
 International students: \$9,021.93

Financial Assistance: The Department of Psychology employs graduate students as teaching assistants in undergraduate and graduate courses in research methods and statistics. Individual professors may also offer financial support in the form of research assistantships. Students who wish such employment should indicate their interest on the application form. In addition, students wishing support should apply in the year preceding

their admission for all national, provincial, and university scholarships or fellowships for which they are eligible. Information may be obtained from the Graduate Awards Officer in the Office of the Dean of Graduate Studies.

- Applications in 2005:** M.A. (General Profile): 56 applications, 11 accepted.
M.A. (Clinical Profile): 173 applications, 11 accepted.
Ph.D.: 26 applications, 3 accepted.
- Anticipated Openings in 2006:** M.A. (General Profile) 10; M.A. (Clinical Profile) 10; Ph.D. 3.
- Support Staff:** Technician, computer consultant, technical officer, administrator, clinical psychologist, secretaries.
- Special Facilities or Resources:** Extensive new laboratory and computer facilities for human and animal research; Centre for Research in Human Development; Centre for Research in Behavioural Neurobiology; Applied Psychology Clinic (treatment rooms equipped with video, audio and one-way mirrors).
- Typical Requirements for Academic Staff Appointments:** Completed Ph.D. requirements are essential. A strong record of research productivity and publications and evidence of superior teaching ability. Applicants for clinical positions should have completed the equivalent of a CPA- or an APA-accredited program in clinical psychology.

- Department of Psychology:** Established 1848. Chair: Richard Brown. **Faculty 31 Full-time, 4 Part-time (13 Full Professors, 7 Associate Professors, 10 Assistant Professors, 5 Senior Instructors).** Academic year system- September to April
- Department Orientation:** We offer research oriented programmes leading to PhDs in Psychology, Psychology/Neuroscience and Clinical Psychology. Areas of research strength include: Clinical, Cognition, Cognitive Neuroscience, Development, Forensic, Neuropsychology, Neuroscience, Perception..
- Programmes and Degrees Offered:** M.Sc. Experimental Psychology. M.Sc. Psychology/Neuroscience. Ph.D. Experimental Psychology. Ph.D. Psychology/Neuroscience Ph.D. Clinical Psychology.
- Applications to be Addressed to:** One copy of Part A and application fee to: Registrar's Office, Dalhousie University, Halifax, N.S. B3H 4H6. Remaining documents to Graduate Program Secretary, Psychology Department, Dalhousie University, Halifax, NS B3H 4J1. Phone: (902) 494-3839, Fax: (902) 494-6585, E-mail: marymac@dal.ca; Graduate Studies [www: http://www.dalgrad.dal.ca/](http://www.dalgrad.dal.ca/). Deadline January 1. Fee \$70.

GRADUATE GUIDE 2006 - 2007

Admission Requirements:	Application form, two or more letters of reference, two copies of all college transcripts, GRE's verbal and quantitative test scores.
2005-2006 Student Statistics:	Full-time Ph.D. 49, M.Sc. 12. 11 male, 50 female
Tuition Costs 2005-2006:	M.Sc. = \$6984; Ph.D. = \$7299. Campus housing is available.
Financial Assistance:	Killam Fellowships and graduate stipends.
Anticipated Openings in 2005-06:	Experimental Psychology, 4. Neuroscience, 4. Clinical, 5.
Average Scores of Students Admitted in 2005 for Ph.D.:	GRE-V 640. GRE-Q 630. GRE-Adv. 600. GPA A-.

University of Guelph *Guelph, Ontario*

Department of Psychology:	M.A. programs established 1966. Ph.D. programs established 1990. Chair: Harvey H.C. Marmurek. Graduate Faculty: 16 Full Professors, 7 Associate Professors; 6 full-time Assistant Professors, 1 part-time Assistant Professor, and 5 Professor Emeriti. Total 29, all of whom are full-time. Academic year consists of 3 twelve-week semesters per calendar year. From Fall 2005 to Spring 2006, 14 Master's degrees and 5 Doctor of Philosophy degrees were awarded.
Department Orientation:	The department has a strong emphasis on both research and applications of psychology. Students specialize in Clinical Psychology: Applied Developmental Emphasis, Applied Social Psychology, Industrial/Organizational Psychology, or Applied Cognitive Science. For more details, link to www.psychology.uoguelph.ca
Applications to be Addressed to:	Graduate Secretary, Department of Psychology, University of Guelph, Guelph, Ontario, N1G 2W1. Tel: (519) 824-4120 Ext. 53508. Psychology Department Fax: (519) 837-8629. Graduate Secretary E-Mail address: psygsec@psy.uoguelph.ca \$75.00 application fee. Complete applications www.psychology.uoguelph.ca (application form/questionnaire, GRE results, 2 letters of reference, 1 official transcript) for fall semester admission must be received by December 15 at the latest.
Tuition Costs:	2006-2007: \$2,320.41 full-time per semester.
Fall 2006 Student Statistics:	Registrations as of September 2006, 33 full-time M.A., 46 full-time Ph.D.; 20% male, 80% female.
Programs and Degrees Offered:	Ph.D. Clinical Psychology: Applied Developmental Emphasis; Applied Social Psychology; Industrial/ Organizational Psychology; Applied Cognitive Science M.A. Clinical Psychology: Applied Developmental Emphasis; Applied Social Psychology; Industrial/Organizational Psychology; Applied Cognitive Science

Students are not accepted into terminal M.A. programs. Requirements for an M.A. typically are satisfied within the first two years of the Ph.D. program.

- Admission Requirements:** For M.A. consideration, an Honours B.A. or B.Sc. or equivalent in psychology or allied discipline. As a minimum, GPA of B+ in the last two years, GPA in psychology of B+. Typically competition is such that those admitted have a higher GPA. For Ph.D. consideration, high academic standing from the B.A. and M.A. programs. Applicants must complete the GRE General Test consisting of Verbal, Quantitative, and Analytical Writing sections and the Psychology Subject Test. Importance of additional characteristics of applicants: previous research activity typically in the form of an honours thesis: high; letters of recommendation: high; clinically related public service: medium; relevant work experience: medium; extracurricular activity: low.
- Degree Requirements:** *Ph.D.:* Coursework, practicum/work term, qualifying examination and dissertation typically completed within three years of post M.A. full-time study.
- M.A.:* Coursework, practicum/work term, thesis or research project completed in six semesters.
- Financial Assistance:** Teaching assistantships/departmental service assistantships are available for all students admitted for the following academic year (2006-2007) rate \$4946.15 per semester for 10 hours per week. University Graduate Fellowships (\$2000); Board of Graduate Studies Research Scholarship \$1797.00; and College of Social Science Founders Scholarships (\$1000) are awarded. Research assistantships from individual faculty research grants and loans through the University may also be available.
- Applications in 2006:** Clinical Psychology: Applied Developmental Emphasis-103; Applied Social - 40; Industrial/Organizational - 26; Applied Cognitive Science - 12.
- Anticipated Openings in 2006:** Clinical Psychology: Applied Developmental Emphasis
Ph.D. - 2
Applied Social Ph.D. - 2
Applied Cognitive Science Ph.D. - 2
Industrial/Organizational Ph.D. - 2
- Clinical Psychology: Applied Developmental Emphasis
M.A. - 4
Applied Social M.A. - 4
Industrial/Organizational M.A. - 4
Applied Cognitive Science M.A. - 4
- Average Scores of Students Admitted in 2005:** GPA = A-
Psych. GPA = A-
Ver. = 560
Quan. = 645
Anal. = 660
Psych. = 695
- Support Staff:** 1 Admin. Asst.; 2 technicians; 4 secretarial staff + 1 temporary.

Research Office and Clinical Space:

One-way observation facilities, micro-computer laboratories, animal learning and surgery facility, teaching laboratory; Centre for Psychological Services; Guelph Centre for Organizational Research, Inc.; office space. Approximately 10,000 square feet.

Lakehead University

Thunder Bay, Ontario

<http://psychology.lakeheadu.ca>

Department of Psychology:

Established 1968. Chairman: Dr. Gordon Hayman. Faculty: 14 full-time (3 full professors, 6 associate professors, 3 assistant professors). Academic year system – full year. M.A. and Ph.D. degrees awarded in the area of Clinical Psychology, and M.Sc. degrees in the area of Experimental Psychology with two streams; general experimental psychology, and health research. First M.A. awarded in 1971, first Ph.D. awarded in 1998.

Department Orientation:

The majority of graduate students are in the Clinical area, however, the Department has been active in, and remains firmly committed to, research in Experimental Psychology. The M.A. and Ph.D. programs in Clinical Psychology adhere to the scientist-practitioner model of training.

Applications to be Addressed to:

Sheila Delin, Graduate Program, Department of Psychology, Thunder Bay, Ontario, P7B 5E1. Tel: (807) 343-8441; Fax (807) 346-7734; e-mail Sheila.Delin@LakeheadU.Ca.

Admission Requirements:

M.A. and M.Sc. programs: Applicants must hold an Honours B.A. or B.Sc. degree in Psychology. The degree must be from an approved university. Offers for admission and support will be made to successful applicants up to April 15.

2006-07 Student Statistics:

M.A. clinical 12, 6 in 1st year; M.Sc. 5, 2 in 1st year.

Degree Requirements:

The experimental program consists of three courses and a thesis for a total of five courses. Students in clinical psychology do four courses plus a thesis for a total of six courses. Clinical students are also required to complete 400 hours of practicum training. Normally, it takes two years to complete an M.A./M.Sc.. degree.

Ph.D Clinical Psychology Program: Applicants must hold an M.A. or M.Sc. degree in Psychology. The degree must be from an approved university. Offers for admission and support will be made to successful applicants up to April 15.

Clinical Ph.D. candidates are also required to complete an additional one-year internship of approximately 2000 hours in an approved setting.

2006-07 Student Statistics:

Ph.D. 22, 4 in 1st year.

Degree Requirements:

Students are required to take 6 full course equivalents as part of the Ph.D. program. Comprehensive examinations are written to examine competency in the science of psychology and in clinical

practice. In addition to a dissertation, students are required to complete a minimum of 600 hours of practicum hours.

- M.A. in Human Development:** Est. 1979 Director: TBA. Faculty: 36 Full-Time. Two Adjunct.
- Programmes and Degrees Offered:** M.A. and M.Sc. in Human Development (available in English and French).
- Applications to be Addressed to:** Office of Admissions, Laurentian University, Ramsey Lake Road, Sudbury, Ontario, P3E 2C6. Deadline, February 28. Fee: \$50.00.
- Admission Requirements:** Honours degree; psychology, sociology, or kinesiology/physical education with standing of B+ or better **OR** successfully completed qualifying year in one of the three contributing academic disciplines.
- Degree Requirements:** Master's. Six graduate half-courses (18 credits) plus thesis or eight graduate half-courses (24 credits) plus a major paper.
- Tuition Costs:** **Canadian;** \$1,384.50 per term plus incidentals. **Foreign;** \$8248.50 first year. \$2,749 each subsequent term. Campus housing available.
- Financial Assistance:** Graduate Teaching Assistantships; Laurentian University Bursaries; Alumni Entrance Scholarship, Joseph Errington Scholarship.
- Special Facilities or Resources:** Laurentian University Day Care Centre, motion analysis lab, anthropometric measurement facilities, stress testing lab, micro-computer and computer graphics systems, on-line computer analysis of various movement parameters, body shape sensing. Psychoacoustic laboratory, child assessment lab, neuropsychology laboratory.
- Support Staff:** Two electronic and computer technicians.
- Research and Clinical Facilities:** Observation rooms, video equipment. Laboratories for motor learning, biomechanics, growth and development, and physiology (2,000 sq. ft.), placements in school boards and mental health facilities.
- Applications in 2005:** M.A. in Human Development: 42 applications, 16 full time, 4 part-time accepted.

Université Laval
Québec, Québec

École de psychologie :

(418) 656-5383 ou 656-2376. Courriel : psy@psy.ulaval.ca
 Site Web : www.psy.ulaval.ca
 Établie en 1961. Directeur : François Y. Doré.
 Le système académique est conçu en termes de sessions.

Titres délivrés :

Ph.D. Recherche et intervention (orientation clinique ou communautaire), Ph.D. Recherche et D.Psy.

**Orientation générale
 des programmes :**

La maîtrise : En 2002-2003, l'École de psychologie a admis pour la dernière fois des étudiants dans ses programmes de maîtrise. Cependant, un étudiant qui doit abandonner le programme de doctorat auquel il est inscrit peut obtenir un diplôme de maîtrise (M.Ps. ou M.A.) s'il satisfait certaines conditions.

Le Ph.D. Recherche et intervention : Le programme de doctorat Ph.D. Recherche et intervention vise à former à la fois des chercheurs autonomes et des praticiens de haut niveau en psychologie. Les orientations clinique et communautaire de ce programme sont agréées par l'Ordre des psychologues du Québec (OPQ) et donnent donc accès à l'OPQ et à l'exercice de la profession de psychologue au Québec. L'orientation clinique est aussi agréée, depuis 1995, par la Société Canadienne de Psychologie. Le Ph.D. Recherche et intervention comporte 156 crédits, répartis en 93 crédits obligatoires (33 crédits de cours, 3 crédits d'examen doctoral, 18 crédits de practicum et 36 crédits d'internat), 9 crédits à option et 57 crédits de thèse. L'orientation clinique du Ph.D. Recherche et intervention offre deux concentrations: une concentration en psychologie clinique axée sur l'évaluation, l'intervention et la recherche psychologiques, comprenant aussi une formation de base obligatoire en neuropsychologie clinique; et une concentration en neuropsychologie clinique axée sur l'évaluation, l'intervention et la recherche neuropsychologiques, comprenant aussi une formation de base obligatoire en psychologie clinique. L'orientation communautaire du Ph.D. Recherche et intervention est axée sur la prévention et la promotion de la santé mentale. Il comprend notamment des cours et une formation pratique à l'évaluation de programmes et l'évaluation psychosociale des milieux, à l'épidémiologie psychosociale ainsi qu'à l'intervention éducative et interculturelle.

Le Ph.D. Recherche : Le programme de doctorat Ph.D. Recherche est axé sur la formation à la recherche et s'adresse aux étudiants qui désirent faire carrière en recherche comme professeur-chercheur en milieu universitaire ou comme chercheur autonome en milieu institutionnel (centres de recherche, centres hospitaliers, gouvernements, entreprises privées, etc.). Ce programme comprend un tronc commun d'activités et offre trois concentrations à l'étudiant: psychologie du développement; psychologie sociale; psychologie cognitive et neuroscience comportementale. Il ne donne pas accès à l'exercice de la profession de psychologue, mais il admet à certaines conditions les titulaires d'un baccalauréat ou d'une maîtrise dans une autre discipline que la psychologie. Le Ph.D. Recherche comporte 120 crédits, répartis en 27 crédits obligatoires (7 crédits de cours, 3 crédits d'examen doctoral, 12 crédits de practicum de recherche et 3 crédits de

practicum pédagogique), 21 crédits à option et 74 crédits de thèse. Le practicum de recherche est une activité individualisée et constitue une occasion de se familiariser avec d'autres milieux de recherche. Pendant une période de 4 mois, l'étudiant travaille dans un laboratoire ou un centre de recherche, au Canada ou dans un autre pays, sur un thème connexe à sa thèse qu'il a lui-même choisi. Le practicum pédagogique est une autre activité individualisée qui a deux objectifs: initier l'étudiant à l'enseignement aux grands groupes et initier l'étudiant à l'encadrement de recherches empiriques.

Le D.Psy.: Le programme de doctorat D.Psy. est un programme de formation en psychologie clinique. Il est axé sur l'acquisition de compétences professionnelles et vise à former des cliniciens de haut niveau. Ce programme est agréé par l'Ordre des psychologues du Québec (OPQ) et donne donc accès à l'OPQ et à l'exercice de la profession de psychologue au Québec. Conçu également pour satisfaire les critères d'agrément de la Société Canadienne de psychologie, ce programme a le potentiel d'être agréé par la Société Canadienne de Psychologie. Le D.Psy. comporte 132 crédits, répartis en 90 crédits obligatoires (33 crédits de cours, 3 crédits d'examen doctoral, 18 crédits de practicum et 36 crédits d'internat), 18 crédits à option et 24 crédits de recherche. Le D.Psy. offre deux concentrations: une concentration en psychologie clinique axée sur l'évaluation, l'intervention et la recherche psychologiques, comprenant aussi une formation de base obligatoire en neuropsychologie clinique; et une concentration en neuropsychologie clinique axée sur l'évaluation, l'intervention et la recherche neuropsychologiques, comprenant aussi une formation de base obligatoire en psychologie clinique.

Ressources :

L'École de psychologie met à la disposition de ses étudiants un Centre de documentation qui offre: une bibliothèque spécialisée; une testothèque; un parc informatique pourvu d'une vingtaine d'ordinateurs et qui donne aussi accès aux services Internet, à des logiciels pédagogiques et statistiques et à des sites Web conçus particulièrement pour des cours; des locaux et de l'équipement pour l'enregistrement et le visionnement de vidéocassettes. L'École de psychologie possède également: un service informatique, audiovisuel et multimédia qui prête de l'équipement pour l'enseignement, la formation pratique et la recherche; un service d'aide à la recherche qui informe les étudiants sur les programmes de bourses d'études supérieures, qui offre des consultations méthodologiques et statistiques et qui donne de la formation sur les logiciels de traitement de données; des laboratoires sur le campus et dans de nombreux centres de recherche hors campus auxquels les professeurs sont affiliés. La formation pratique en évaluation et en intervention est assurée sur le campus par des professeurs de carrière qui encadrent les étudiants au Service de consultation de l'École de psychologie, qui est aussi un milieu de recherche et clinique. La formation pratique est aussi assurée hors campus par de professeurs de clinique qui, psychologues en exercice dans divers milieux d'intervention, collaborent activement à la formation professionnelle des étudiants.

L'École de psychologie fournit aussi un soutien financier à ses étudiants par divers moyens: une bourse de 2 000 \$ durant la première année d'études; un fonds de soutien dans les années suivantes qui, pour

la durée totale des études, représente 10 000 \$; des postes d'auxiliaires d'enseignement et de recherche et des charges de cours rémunérées.

Demande d'admission : Bureau du registraire, Pavillon Jean-Charles-Bonenfant, Université Laval, Québec, Qué., Canada, G1K 7P4 (www.ulaval.ca/reg/).

Dates limites de réception des demandes d'admission :

1^{er} février pour la session d'automne dans tous les programmes.

Aucune admission aux sessions d'hiver et d'été.

Conditions d'admission :

Ph.D. Recherche et intervention: être titulaire d'un baccalauréat (spécialisé, avec majeure ou avec *honours*) en psychologie comportant au moins 42 crédits en psychologie.

Ph.D. Recherche: être titulaire d'un baccalauréat (spécialisé, avec majeure ou avec *honours*) en psychologie ou d'une maîtrise en psychologie comprenant une formation de base à la recherche empirique ou une expérience de recherche jugée équivalente; ou être titulaire d'un baccalauréat ou d'une maîtrise dans une discipline liée aux sciences du comportement et incluant une formation de base à la recherche empirique ou une expérience de recherche jugée équivalente.

D.Psy.: être titulaire d'un baccalauréat (spécialisé, avec majeure ou avec *honours*) en psychologie comportant au moins 42 crédits en psychologie

Procédure de sélection :

Le principal critère est l'excellence de l'ensemble du dossier mais l'École de psychologie publie à chaque année, sur son site Web, la grille d'évaluation et la répartition des points pour la sélection des candidats dans chaque programme.

Nombre de places disponibles : 40 places sont assignées aux deux programmes menant à la pratique de la psychologie clinique, 40% de ces places étant attribués au Ph.D. Recherche et intervention (orientation clinique) et 60% au D.Psy. Pour le moment, la capacité d'accueil du programme Ph.D. Recherche et intervention (orientation communautaire) est d'environ 5 places par années. Dans le programme Ph.D. Recherche, environ 10 places sont disponibles mais ce nombre peut être supérieur si la capacité d'accueil des professeurs le permet.

University of Lethbridge

Lethbridge, Alberta

Department of Psychology:

Established 1967. Chairperson: Drew Rendall, Faculty: 11 Full-time (3 Full Professors, 5 Associate Professors, 2 Assistant Professors, 1 Academic Assistant).

GRADUATE GUIDE 2006 - 2007

Department Orientation: Our graduate program is research oriented. The central experience is lab/field research culminating in a thesis.

Programmes and

Degrees Offered: MA, MSc and Ph.D. (Ph.D. in Evolution and Behaviour).

Enquiries to be Addressed to: Department of Psychology, The University of Lethbridge, 4401 University Drive, Lethbridge, AB T1K 3M4.

Phone Number: (403) 329-2235; Fax No.: (403) 329-2555, email: wehlage@uleth.ca.

Graduate Studies Website [full details]: <http://www.uleth.ca/sgs>

Evolution and Behaviour Website: <http://www.uleth.ca/berg>

Application Fee: \$60.00

Applications to be Addressed to: Office of the Registrar, The University of Lethbridge, 4401 University Drive, Lethbridge, AB T1K 3M4.

Application Deadlines:

-March 1 [second round – May 1] fall session (September-December)

-October 1 for study to start in the subsequent spring session (January – April)

-March 1 for study to start in the subsequent summer session (May-August)

Admission Requirements:

A 40 semester course Baccalaureate degree, or its equivalent, in a related discipline from a recognized university and a minimum grade point average of 3.00 (based on a 4.00 scale) on the last 20 graded university level semester courses are required for admission to our Master's program. A Master's degree in a related discipline and evidence of scholarly competence are required for admission to our Ph.D. program. Applicants will be considered on a case by case basis. Because the capacity of our program is limited, not all students meeting the general admission requirements can be admitted. Selection criteria include GPA, reference letters, the proposed project—its timeliness and ability of proposed supervisor(s) to supervise it, availability of funding, space and availability of resources. Our graduate program is only available on a full-time basis. The minimum residency requirement is 12 months for the Master's degree and 24 months for the Ph.D.

2005-2006 Student Statistics: 5 Full time MSc; 1 Full-time Ph.D.

Degree Requirements

for MA/MSc:

Successful completion and defense of a research-based thesis. Students are required to complete a limited number of courses (minimum 2), the

number and details of which are determined at the time of admission and vary from student to student in consultation with their committee.

for Ph.D.:

Successful completion of a set of comprehensive examinations and subsequent completion and defense of a research-based dissertation. Students may be required to complete a limited number of courses (0-6), the number and details of which are determined at the time of admission and vary from student to student in consultation with their committee.

Tuition Costs:

Effective May 1, 2006 \$4,173.00 for the first two years of study (3 semesters); a continuation fee begins in the fourth semester: Summer 2006 - \$593.50; Fall 2006 - \$894.50; Spring 2007 - \$549.50

Financial Assistance:

- Scholarships: a small number of minor scholarships are available, offering support of \$2,000-2,500 per year.
- Graduate Teaching Assistantships: \$7,000 teaching assistantships are available for 2 years for a MA/MSc and \$7,000 teaching assistantships are available for 3 years for Ph.D.s in return for 120 hours per year of teaching duties.
- In some cases, the Faculty Supervisor may be able to offer a research stipend from a research grant.

Applications in 2006/2007:

MSc - 10 Applicants, 5 Accepted.
Ph.D. - 3 Applicants, 1 Accepted.

Specialized Programmes

Within Department:

The Department offers opportunities to specialize in areas of Cognitive Science, Animal Behaviour, Comparative and Evolutionary Psychology.

Support Staff:

1 Administrative Support.

Special Facilities or Resources:

The department has full computer-based audio and video analysis equipment, computer based cognitive and experimental psychology laboratories, and social psychology labs. Its faculty also maintains several fieldsites for human and animal field research both locally in southern Alberta and in foreign countries (e.g. South Africa, Japan, Independent Samoa).

McGill University (Educational and Counselling Psychology)

diane.bernier@mcgill.ca; all other graduate programs from geri.norton@mcgill.ca. Voice: 514-398-4240; Fax: 514-398-6968. Post: Graduate Program Coordinators, Educational and Counselling Psychology, McGill University, 3700 McTavish, Montreal, Quebec H3A 1Y2

Department of Educational and Counselling Psychology:

Chair: Susanne P. Lajoie. Program Directors: Alenoush Saroyan (Cognition and Instruction), Ada Sinacore (Counselling Psychology and Family Life), Kim Cornish (School/Applied Child Psychology), Nancy Heath (Inclusive Education).

Accredited by APA for the PhD (Educational Psychology) Major in School/Applied Child Psychology. Initial joint CPA-APA accreditation for the PhD in Counselling Psychology. Accreditation for both these PhDs by the *Ordre des psychologues du Québec* (OPQ). Accredited by the *Ordre professionnel des conseillers et conseillères d'orientation du Québec* (OPCCOQ) for the MA (non-thesis) in Counselling Psychology. Recognized by the Canadian and Quebec Associations of Family Life Educators in Family Life Education for the Diploma and MEd in Educational Psychology Concentration in Family Life Education. Approximately 75 graduate degrees are awarded annually (master's and doctorate).

Programs Offered:

MA, MEd, and PhD programs are available in most of the following specializations. Please consult the web page for up to date details. All degrees except Counselling Psychology are nominally in "Educational Psychology." Admission requirements vary somewhat according to the specialization. In general, Counselling Psychology, School/Applied Child Psychology, and Applied Developmental Psychology require an undergraduate Major or Honors degree in Psychology, or the equivalent in qualifying work for other degrees. Other programs will consider degrees in education, psychology, or other relevant areas, e.g., computer sciences, the health sciences, and social sciences. All degree areas maintain separate master's and doctoral levels. School/Applied Child Psychology is an integrated MA/PhD program.

- Applied Cognitive Science
- Applied Developmental Psychology
- Computer Applications in Education/Instructional Technology
- Counselling Psychology
- Family Life Education
- Gifted Education
- Health Sciences
- Higher Education
- Inclusive (Special) Education
- Instructional Psychology
- School/Applied Child Psychology

General Orientation: All graduate degrees include a research or inquiry-driven component. The Counselling and School/Applied Psychology programs adhere to the Scientist-Practitioner Model. All MA (thesis) and PhD degrees require a dissertation. The M.Ed programs require a smaller research project. A variety of research models (including action and evaluation) are considered where appropriate.

Admission and

Degree Requirements: These vary somewhat from program to program. Please consult the web page; it contains links to the most current version of the Graduate Calendar. <http://education.mcgill.ca/ecp>

Financial Assistance: Teaching, Research, and General Assistantships, Co-Instructorships, and Foreign-Student Differential Fee waivers are available in varying numbers in different years. Many of our MA and PhD students hold major fellowships from government agencies and other funding sources (e.g., SSHRC, FCAR). Applicants are urged to apply for such fellowships in September of the year before their initial applications for admission, and again once admitted. An application for a teaching assistantship may be made at any time during the application process; a form is available on request. Research assistantships are awarded by individual professors from their research funds.

Fees: The web site contains links to the latest fee schedule, or the web site of the Office of Graduate and Post-Doctoral Studies may be consulted directly at Faculty <http://mcgill.ca/gps/>. There are three fee schedules: Quebec residents, Canadian residents (who are charged the average of Canadian fees outside Quebec), and others. Students from selected countries (most French-speaking countries, Mexico, and others, are charged the Quebec fees). Master's (Med Educational Psychology and MA (Non-thesis) Counselling Psychology) students pay their fees by-the-credit, that is, as they take courses (this accommodates part-time students in programs where part-time studies are possible. Master's degrees are 48 credits with two exceptions, Counselling Psychology (60) and School/Applied Child (72). MA (Thesis) and PhD students pay fees per semester.

McGill University (Psychology)

Montréal, Quebec

Brochure available from: <http://www.psych.mcgill.ca>.

Information available from: gradapp@psych.mcgill.ca; Voice: 514-398-6124; Fax: 514-398-4896. Post: Graduate Secretary, Psychology, McGill University, 1205 Dr. Penfield, Montreal, Quebec H3A 1B1.

Department of Psychology: Acting Chair: David Zuroff. The language of instruction at McGill is English. Accredited by the CPA and the APA in Clinical Psychology. Graduate Degrees awarded since 1984 – 250.

Programs Offered: The Department offers two full-time graduate program tracks, both research-intensive, ultimately leading to a PhD. In the Clinical track, which combines research and clinical training, students are typically admitted directly from a Bachelor's degree to the PhD. In the Experimental track, students wishing to pursue a PhD are admitted into a Master's program and either complete the Master's degree or are allowed to fast-track to a PhD after undergoing a formal evaluation and admission process.

General Orientation: Course work in the experimental program is at a minimum; students' major occupation is the pursuit of original laboratory research. There is somewhat more course work in the clinical program as well as clinical training; but conducting original research also plays a prominent role.

Applications and Information: Departmental information is available online at www.psych.mcgill.ca, and application forms and additional information are available at www.mcgill.ca/applying.

Admission Requirements: Normally a minimum of 36 credits in Psychology, including Introductory, Statistics, Experimental, Contemporary Psychological Theory, and advanced courses in the applicant's area of interest. Applicants must submit transcripts, 3 letters of recommendation, a personal letter describing their training interests and goals, and GRE scores (only from applicants whose first language is English). International (ie. non-Canadian) students who have not studied in English should submit TOEFL scores.

Degree Requirements:

M.A. or M.Sc.: Courses in psychological theory and statistics. A comprehensive examination. A series of individually determined exercises designed to remedy weaknesses and reinforce strong points. A thesis based on experimental work.

Experimental PhD: A series of seminars. A comprehensive examination. A thesis based on experimental work.

Clinical PhD: Courses in psychological theory and statistics. A series of 12 one-term theoretical and practical courses in clinical psychology. A seminar in clinical psychology. A first-year comprehensive examination and a third-year special comprehensive examination. A thesis based on experimental work. A 4-month practicum and 1-year internship.

Financial Assistance: Some teaching assistantships are available. The Department attempts to support each student at a level of approximately \$17,600 per year plus Canadian student fees. Students receive varying remuneration, depending on their other sources of support. Research assistantships

and McGill University Graduate Fellowships are also available. Many of our students are supported by government agencies (e.g., NSERC, SSHRC, and FQRNT, FQRSC, FRSQ). Applicants are urged to apply to these agencies.

Fees: Canadian: \$3,200 – 6,400 (per year). International: \$10,600 - 11,640 (per year + 641 compulsory health insurance). Some fee waivers are available for international students. The minimum residence for a Ph.D. in a Clinical Program is 6 terms. In the experimental program, the minimum residence requirement for the Master's degree is 3 terms, 2 terms of which may be counted toward the 6-term Ph.D. residence requirement.

McMaster University

Hamilton, Ontario

**Department of Psychology,
Neuroscience & Behaviour:**

Established: 1958. Chair: Professor Betty Ann Levy. Faculty: Full-time, 28. Academic year system: three terms. Degrees awarded from 1959 to 2002: 381. Master's, 165. Ph.D., 216.

Department Orientation:

Experimental Psychology; Experimental Applied Research.

Applications to be Addressed to:

Chair of the Graduate Studies Committee, Dept. of Psychology, McMaster University, Hamilton, Ontario L8S 4K1. Deadline: 15 January. Fee: \$90. PHONE: (905) 525-9140 Ext 23298. FAX: (905) 529-6225. E-MAIL: riddeIn@mcmaster.ca;

WWW URL:

<http://www.science.mcmaster.ca/psychology/grad/gradinfo.html>

Programmes and

Degrees Offered:

Nonterminal M.Sc., Ph.D. in Experimental Psychology.

Admission Requirements:

Honours B.A. or B.Sc. in Psychology (or equivalent) with grade average of at least B+; GRE General Scores; 2 Letters of Academic Reference.

2005-2006 Student Statistics:

Full-time, Ph.D. 50, M.Sc. 15. Part-time, Ph.D. 0, M.Sc. 0. First year, 15.

Degree Requirements:

Ph.D.: 5 graduate courses, 6 comprehensive examinations, and thesis.

2005-2006 Tuition Costs:

Canadians and Landed Immigrants \$4,773.00 Visa \$12,525.00

Financial Assistance:	Teaching Assistantships, Department Scholarships, External Scholarships (NSERC, SSHRC, CIHR, OGS), Visa Student Tuition Bursaries.
Support Staff:	3 Technicians, 2 Animal Caretakers, 4 Secretaries.
Research Space:	19,700 sq. ft. of newly renovated human research facilities plus 20,700 newly renovated animal research facilities.
Applications for 2006-2007:	126 applications, 13 accepted.

University of Manitoba

Winnipeg, Manitoba

Department of Psychology:	Established 1947. Head: Harvey J. Kesselman Faculty: 43 Full-time, (13 Full Professors, 21 Associate Professors, 11 Assistant Professors). Academic year system – Fall and Winter terms. Accredited by CPA and APA in Clinical Psychology. Degrees awarded from 1948 to 2006 inclusive: 564 Master's; 340 Ph.D.'s. Largest number of degrees awarded in the following areas: Clinical, Experimental and Social/Personality. First M.A. awarded in 1950 in the area of Personality. First Ph.D. awarded in 1968 in the area of Physiological.
Department Orientation:	While having a relatively broad, applied orientation, the department emphasizes a research approach to all areas. Clinical Programme graduates are prepared to assume either clinical-practitioner roles or academic-scientific positions. The School Program emphasizes the scientist-practitioner perspective, and aims to meet the highest standards of excellence in relevant knowledge, skills, ethics, and professionalism.
Specialized Programmes:	Ph.D. offered in Applied Behavioral Analysis, Behavioural Neuroscience, Clinical, Cognitive, Developmental, Experimental, General, Social and Personality Psychology. Two year MA offered in School Psychology.
Applications to be Addressed to:	Psychology Graduate Office, Department of Psychology, University of Manitoba, Winnipeg, Manitoba, Canada, R3T 2N2. Phone: (204) 474-6377, Fax: (204) 474-7917, E-mail: inglislf@ms.umanitoba.ca WEB site: http://www.umanitoba.ca/faculties/arts/psychology Deadline, January 15. Fee: \$75.00 (CDN); International Fee: \$90.00 (CDN)
Admission Requirements:	Students holding a B.A. (Honours) or B.Sc. (Honours) from the University of Manitoba or a four-year Honours B.A. or Honours B.Sc.

from another Canadian university are normally eligible to be accepted into the M.A. program. Students holding a general or advanced B.A. or B.Sc. degree may be required to take a Pre-M.A. year before proceeding to the M.A. course work. All students entering the Pre-M.A. program should have taken the following courses: eight half (3-credit hour) courses in psychology which include introductory psychology and research methods, and a second course in research methods or a course in statistics or computer science. Applicants for the Ph.D. program should hold an M.A. degree in psychology from the University of Manitoba or its equivalent from another university. Applicants at all levels must have at least a 3.0 grade point average (on a 4.5 grade point system) in their last 60 credit hours at a minimum, including hours in excess of the minimum taken during the same semester. All applicants must submit scores on two components of the General Test (quantitative and verbal) of the Graduate Record examination. The GRE must be taken in time to meet the January 15 admissions deadline.

2005-2006 Student Statistics: Full-time Ph.D. 61; Full-time M.A. 46; (77% female, 23% male).

Degrees Offered: M.A. and Ph.D.

Minimum Degree Requirements: *M.A. (1 year program):* Applies to all admission areas other than School Psychology.

Honours B.A. or its equivalent plus a) 2 graduate level half courses in psychology, b) one half course as an ancillary, which may be either psychology or another discipline, c) 2 half courses in psychological statistics, and d) a thesis.

M.A. (2 year program): Applies to the School Psychology Program only.

Honours B.A. or its equivalent plus a) comprehensive exam, and b) courses listed under the School Psychology Program information on the Psychology web page: www.umanitoba.ca/faculties/arts/psychology

Ph.D.: M.A. plus a) 3 half courses in psychology, b) one half course as an ancillary, c) history or systems, d) one half course in quantitative methods, e) candidacy exam, and f) a thesis. Clinical students must complete additional course requirements, practica, and an approved, one-year internship.

Tuition Costs in 2006: Refer to the Registration and Fees section of the Faculty of Graduate Studies Calendar, web link:

http://umanitoba.ca/faculties/graduate_studies/media/registration_fees0607.pdf

Financial Assistance: Financial assistance for students is available from a number of sources. Students may apply for fellowships awarded by the Canadian Institute of Health Research, Natural Sciences and Engineering Research

Council, Social Sciences and Humanities Research Council, the Manitoba Health Research Council, and other funding bodies. The University of Manitoba offers M.A. and Ph.D. Fellowships, teaching assistantships, research and clinical assistantships are also available from the department.

Applications in 2006: Clinical: 54 applications, 7 accepted; Non-clinical other than School: 42 applications, 7 accepted; School: 22 applications, 11 accepted.

Anticipated Openings in 2007: Clinical: 6, Non-clinical: 10, School: 10

Average Scores of Students Admitted in 2006: GRE-Quantitative – 603; GRE-Verbal – 540, GPA 4.19 on a 4.5 point scale.

Support Staff: 3 electronic/computer technicians, 1 animal laboratory technician, 6 administrative/clerical/secretarial.

Special Facilities or Resources: The Department has a variety of research facilities in virtually all areas of psychology. These facilities are housed in over 100 different research rooms. There is widespread utilization of computers to perform control and data acquisition functions in several research laboratories. A local area network and an instructional/research facility provide the latest in microcomputer technology. Other major facilities include extensive closed circuit television equipment, a group dynamics laboratory, a laboratory for improving college teaching, a fully equipped aviary permitting the study of water fowl on a year-round basis, a sleep and dreams laboratory, an animal classical conditioning laboratory, two animal operant conditioning laboratories, and two laboratories equipped for the study of animal physiological processes. The Department also has metal, wood, and electronic work shops; and surgery as well as histology rooms. The Department has the technical capability for designing and constructing all digital logic systems required to interface peripheral devices to laboratory computers. The University Computer Centre facilities are readily available to the Psychology Department. These facilities include a mainframe computer, campus LAN and Internet Access.

Research and Clinical Space: The Department has 37,000 square feet of space for offices, laboratories, and classrooms in its modern, 5-story Duff Roblin Building. The Psychological Services Centre has an additional 6,000 square feet of on-campus space for offices, delivery of client services, and clinical training purposes.

Department of Psychology: Established 1964. Interim Head: I. Nrath. Faculty 30 full-time, 2 half-time. (17 Full Professors, 8 Associate Professors, 7 Assistant Professors). Academic year system - Trimester. Degrees awarded 1970-2006 inclusive: M.Sc. - 314, Ph.D. - 39. Largest number of degrees awarded: M.Sc.: Cognitive, Developmental, Animal Behaviour, Applied Social, Animal Learning, Physiological, Perception. Ph.D.: Animal Learning, Physiological, Cognitive, Perception, Social and Developmental. First M.Sc. awarded in Animal Learning. First Ph.D. awarded in 1978 in Perception.

Department Orientation: Main emphasis is Experimental Psychology with an applied branch in social.

Programmes and

Degrees Offered: M.Sc. in Experimental (see subareas above), M.Sc. in Cognitive and Behavioural Ecology (jointly with Biology), Master of Applied and Social Psychology (Co-operative). Ph.D. in Experimental, Ph.D. in Cognitive and Behavioural Ecology (jointly with Biology).

Applications to be Addressed to: School of Graduate Studies, Memorial University of Newfoundland, St. John's, Newfoundland, A1B 3X5. Deadline, February 1. Fee, \$40.00.

Admission Requirements: Two completed copies of application form. Official transcript of applicant's university record. Results from the General section of the Graduate Record Examinations. Three academic recommendations on prescribed forms, one of which should come from someone who is familiar with the applicant's research capability. Applicants applying to programmes in Social, Cognitive, Perception and Animal Learning are required to submit an example of their academic writing. This could include, but is not limited to, papers submitted in class, honour's thesis, etc. At least 2nd class honours degree or equivalent in area of study and achievement from recognized institution for M.Sc. At least 1st class honours degree or M.Sc. for Ph.D.

2005-2006 Student Statistics: M.Sc. Full-time 33, Part-time 3. Ph.D. Full-time 7, Part-time 1.. First year 13.61% female.

Degree Requirements: *M.Sc., MASP* Honours bachelor degree in psychology with at least 2nd .Class. Minimum period of residence is 1 year. *M.Sc. Experimental:* Thesis of topic in consultation with advisor. Thesis examined by two scholars. Complete 6 semester courses including statistics, research design. Remainder dependant on area selected. *Master of Applied Social:* Course work, work terms and projects for 6 consecutive semester, 4 academic terms and 2 work terms.

Ph.D. Master's degree or 1st class honours in Bachelor's. Programmes operate on research apprenticeship basis with a minimum of formal course requirements. Programmes to be specified at admission but will require at least 2 courses at graduate level. Minimum period of study is 2 years from Master's or 3 years from Bachelor's. Comprehensive exam and oral defence during 1st year. Dissertation with oral defense. 1 external examiner, 2 internal examiners.

Université de Moncton (M.A.Ps.)

Moncton, Nouveau-Brunswick

École de psychologie : Établi en 1963. Directeur : Paul Bourque, Ph.D., L.Psych. L'année académique est conçue en terme de sessions (3 sessions par année). Corps professoral : 15 temps plein. Diplômes conférés depuis 1966.

Programmes et degrés offerts : Maîtrise ès Arts en Psychologie (M.A.Ps.)

Objectifs : Ce programme vise principalement à donner à l'étudiante et à l'étudiant une formation approfondie dans l'étude de la personne et de son comportement. Il a pour objectifs de préparer les étudiantes et étudiants à la recherche en psychologie et à la pratique de la psychologie clinique. L'orientation du programme implique que l'étudiante ou l'étudiant possède des habiletés scientifiques et professionnelles conforme au modèle Boulder. L'École de psychologie adhère aux principes déontologiques avancés par la Société Canadienne de Psychologie.

Adresser toute demande

d'admission : Services des admissions, Registrariat, Université de Moncton, Moncton, N-B., E1A 3E9. Date limite d'inscription: 1^{er} février (documents reçus). Frais d'étude de dossier : 39 \$.

Conditions particulières

- d'admission :** Pour être admis au programme d'études de 2^e cycle en psychologie la candidate ou le candidat doit :
- détenir un baccalauréat avec spécialisation en psychologie ou l'équivalent avec, une moyenne de 3.0 dans un système où la note maximale est 4,3. Le baccalauréat avec majeure en psychologie peut également servir de base d'admission, toutefois, une propédeutique peut être exigée :
 - avoir une connaissance adéquate des deux langues officielles du Canada;
 - se soumettre aux exigences et aux procédures de sélection suivantes fixées par l'École;
 - faire parvenir une lettre d'intention à l'École dans laquelle est décrit son domaine d'intérêts en psychologie ainsi que deux lettres de recommandation;
 - compléter le formulaire d'admission et faire parvenir le tout au registrariat de l'Université avant le 1^{er} février (documents reçus), pour l'admission en septembre de la même année.
- Statistiques (septembre 2003) :** M.A.Ps. 1. n=12; M.A.Ps. 2. n =12; M.A.Ps., 3. instance de thèse, n =10.
- Admissibilité au diplôme :** Avoir complété un minimum d'une année de résidence à l'Université de Moncton; avoir suivi un minimum de 24 crédits de cours et séminaires académiques au niveau du 2^e cycle; avoir complété un stage dans un centre d'internat reconnu par l'École ou avoir complété un stage de recherche accepté par l'École; avoir présenté et soutenu avec succès une thèse; être recommandé par l'École
- Droits de scolarité :** 170,00\$ taux par crédit de cours.
- Aide financière :** Assistantes et assistants de cours, assistantat de recherche, CRSNG, CRSH, et bourses de maîtrise.
- Ressources matérielles spéciales :** Laboratoires en psychologie cognitive, psychologie conjugale, psychologie différentielle, psychologie de la santé et psychologie sociale.
- Grandeur de locaux servant à la recherche et au travail en clinique :** L'École vient d'être complètement rénovée. Sa superficie est de 8 500 pds carrés.

Université de Moncton (Ph.D.)

Moncton, Nouveau-Brunswick

Téléphone : (506) 858-4203

Télécopieur : (506) 858-4768

Courriel : psycho@umoncton.ca

<http://www.umoncton.ca/psychol/index.html>

École de psychologie : Établi en 1963. Directeur: Paul Bourque, Ph.D., L.Psych. L'année académique est conçue en terme de sessions (3 sessions par année). Corps professoral: 15 temps plein.

Programmes et degrés offerts : Philosophiae doctor (Ph.D.) (clinique).

Date d'entrée en vigueur : Septembre 2000.

Objectifs : Ce programme dont l'orientation est en psychologie clinique vise principalement à donner à l'étudiante et l'étudiant une formation approfondie dans :

- l'évaluation et le diagnostic des problèmes de fonctionnement psychologique;
- l'intervention et le traitement de ces problèmes;
- la prévention et l'action communautaire face à ces problèmes;
- la recherche en psychologie.

Dans l'optique du programme, le praticien ou la praticienne en psychologie applique les principes de rigueur intellectuelle propres à la recherche et à la pratique de sa profession. Non seulement cet individu doit faire preuve d'une vaste connaissance et compréhension des faits scientifiques établis en psychologie et de sa maîtrise des habiletés associées à l'intervention psychologique, mais il doit aussi intégrer dans sa démarche professionnelle, les principes de la recherche scientifique.

La formation offerte et la spécialisation que développera l'étudiante ou l'étudiant devraient lui permettre d'acquérir les compétences spécifiques pour exercer dans divers domaines de la psychologie clinique. L'École adhère aux principes déontologiques avancés par la Société Canadienne de Psychologie.

Titres décernés : M.Sc., Ph.D. (recherche), Ph.D. (recherche-intervention)

Spécialisation :

Deux types de programmes sont offerts.

1- Le premier type auquel est rattaché le diplôme suivant : Ph.D. (recherche-intervention) comprend des stages et des internats et peut donner accès à la pratique professionnelle. Ce programme est offert dans les spécialisations suivantes.

Psychologie clinique : Ph.D. (recherche-intervention). Programme accrédité par la Société canadienne de psychologie (SCP). Formation à la recherche, à la consultation et à l'intervention dans le domaine de la psychologie clinique.

Neuropsychologie clinique : Ph.D. (recherche-intervention) : Programme accrédité par la SCP. Formation à la recherche et à l'intervention dans le domaine de la neuropsychologie clinique.

Psychologie du travail et des organisations : Ph.D. (recherche-intervention). Formation à la recherche et à l'intervention dans le domaine de la psychologie industrielle/organisationnelle, en particulier en psychologie du personnel et en psychologie du travail.

2- Le second type auquel sont rattachés les diplômes suivants : M.Sc et Ph.D. (recherche) comprend des programmes où l'accent est mis exclusivement sur l'acquisition d'habiletés de recherche. Ces programmes sont offerts dans les spécialités suivantes:

Sciences cognitives et neuropsychologie : Ph.D., Formation à la recherche en sciences cognitive et neuropsychologique.

Psychologie : M.Sc. et Ph.D. Formation à la recherche dans le domaine choisi par l'étudiant en fonction de ses intérêts et de ceux de son directeur de recherche.

Psychoéducation : Ph.D. formation à la recherche dans le domaine des enfants-adolescents à problèmes.

WWW URL

<http://www.msvu.ca/calendar/Graduate/Programs/SchoolPsychology.ap>

Program Head:	Dr. Elizabeth Church.
Department Orientation:	The Master of Arts in School Psychology is a clinical-specialty program designed to prepare graduates to enter the profession of school psychology and to become registered as psychologists in provinces/territories where masters-level registration is permitted. The two-year full-time program balances theory, practice, and research. It adopts a wholistic approach where children, youth, and young adults are seen as key collaborators, along with their parents/guardians and other professionals, in addressing their strengths and needs within the context of home, school and community. Evidence-based practice is emphasized throughout the program.
Application Deadline:	January 15
Applications to be Addressed to:	Admissions, Mount Saint Vincent University, 166 Bedford Highway, Halifax, NS B3M 2J6. Telephone: (902) 457-6128; Fax: (902) 457-6498.
Assistantships:	Yes
Admissions Requirements:	Undergraduate degree in psychology, normally an honours degree. High academic standing, work/volunteer experience with children, and three letters of reference. A degree in education is preferred.
Degree Requirements:	The program requires two years of full-time study during which students complete 10 full units of course work, including three practica, a 600-hour internship, and a thesis.
Tuition Costs:	2006-2007 fees are \$1566 per full unit of study.
2006-2007 Student Statistics:	25 full-time.
Applications in 2006:	62 applications; 10 accepted.
Support Staff:	Dana Bennett, Graduate Education Secretary; Telephone: (902) 457-6341; Fax: (902) 457-4911; E-Mail: dana.bennett@msvu.ca

University of New Brunswick

Fredericton, New Brunswick

Phone Number: 506-453-4707

Fax Number: 506-447-3063

E-mail: psyc@unb.ca

WWW URL: <http://www.unbf.ca/psychology>

Department of Psychology:	Established 1966. Chairperson: Sandra Byers. Faculty: 13 Full-time, (8 Full Professors, 3 Associate Professors, 2 Assistant Professors). Degrees awarded 1966 to 2006 inclusive: 200 M.A.; 63 Ph.D.
----------------------------------	---

Department Orientation: The programmes are designed to provide a firm grounding in the basics of psychology and in research for all students. Students in the clinical program also receive intensive training in basic clinical skills and supervised practica and internship experience.

Programmes and Degrees Offered:

An integrated M.A./Ph.D. is offered in Clinical, or Experimental and Applied Psychology.

Enquiries to be Addressed to:

Theresa Sherwood, Admissions Secretary, Department of Psychology, University of New Brunswick, Bag Service #45444, Fredericton, New Brunswick. E3B 6E4, Phone No. (506) 453-4707, Fax No. (506) 447-3063, email: tsherwoo@unb.ca.

Applications to be Addressed to:

School of Graduate Studies, University of New Brunswick, P.O. Box 4400, Fredericton, New Brunswick, E3B 5A3, Phone No. (506) 453-4673. Deadline: Applications must be received by January 15th for September entrance and for fellowship competition. Fee: \$50.

Admission Requirements:

Admission into the combined M.A./Ph.D. programmes is strictly competitive; successful applicants normally have at least an A- average with a solid and broad background in basic psychology courses. Applicants are normally required to submit G.R.E. scores and three letters of reference from persons familiar with the candidate's academic performance. Other, non-objective criteria include the extent to which a candidate has developed specific academic or applied interests (viz. conference participation, publications, relevant professional experience), and the extent to which these interests match those of the Department. Admission decisions are based on **all** relevant information – not solely on any factor such as grades or G.R.E. scores.

Students are asked to submit a written statement describing their past and current interests in psychology and their career objectives. Telephone interviews are required for short-listed applicants.

2005/2006 Student Statistics:

52 Ph.D.; 16% male, 84% female.

Degree Requirements for

M.A./Ph.D.:

Experimental and applied: 52.5 ch, incl research and teaching apprenticeships, comprehensive project and dissertation. Clinical: 63.0 ch incl the above with the addition of skills courses, practica and internship.

Tuition Costs:

\$5874 per year.

Financial Assistance:

Graduate Fellowships are available on a strictly competitive basis. Presently they amount to \$12,000 a year for the first year and \$13,200

for each of the next three years. Nearly all of the Department's students are funded. All applications received by January 15 are automatically considered for the fellowship competition.

Applications in 2005/2006: 67 applicants, 7 accepted.

Anticipated Openings in 2006: 8 across the combined MA/Ph.D. programmes.

Average Scores of

Students Admitted in 2005: GRE-V 558. GRE-Q 580. GRE-Anal. 5.0.

Specialized Programmes

Within Department:

The Department offers opportunities to specialize in areas of clinical psychology, social, perception, cognition, neuropsychology, developmental, or neuroscience.

Special Facilities or Resources:

The Department occupies Keirstead Hall. The facilities include laboratories for research in human cognition, perception, developmental and physiological psychology, computer terminals, and infant study facilities. Research as well as teaching and interview rooms also are available.

University of New Brunswick

Saint John, New Brunswick

Fax Number: (506) 648-5780

E-mail: psych@unbsj.ca

WWW URL: <http://www.unbsj.ca/arts/psychology>

Department of Psychology:

Established 1992, Chairperson: Alexander E. Wilson. Faculty: 10 Full-time, (4 Full Professors, 2 Associate Professors, 3 Assistant Professors, 1 Instructor). Graduate program established 1994. Degrees awarded 1994 to 2006 inclusive: 20 M.A.; 4 Ph.D. (Jointly with UNB-Fredericton).

Department Orientation:

The program has been designed to provide students with a firm grounding in the basics of psychology and with current issues and developments in a broad range of research areas, as well as training in advanced research methodologies and statistical analyses.

Programs and Degrees Offered:

M.A. and Ph.D.¹ (CPA/APA Accredited) degrees. Opportunities to specialize may be individually determined according to the research interests of faculty members.

GRADUATE GUIDE 2006 - 2007

- Enquiries to be Addressed to:** Dr. Enrico DiTommaso, Director of Graduate Studies
Department of Psychology, The University of New Brunswick,
P.O. Box 5050, Saint John, New Brunswick, E2L 4L5
Phone No. (506) 648-5636
Fax No. (506) 648-5780
Email: rico@unbsj.ca
- Applications to be Addressed to:** School of Graduate Studies, The University of New Brunswick,
P.O. Box 5050, Saint John, New Brunswick, E2L 4L5
Phone No. (506) 648-5673
Deadline: Applications should be received by **February 1st**, for
September entrance and fellowship competition.
Fee: \$50.
- Admission Requirements:** An undergraduate Honours degree or its equivalent in Psychology is normally a prerequisite for entry into the graduate program in Psychology, although consideration will be given to exceptional students from other disciplines. Students without sufficient preparation may be required to satisfy the prerequisites of the Graduate Academic Unit (GAU) without graduate credit (Qualifying year). All applicants are required to submit recent scores on the Graduate Record Examinations (Aptitude and Advanced Tests), as well as a written statement describing their past and current interests in psychology and their career objectives.
- 2006-2007 Student Statistics:** 5 Full time M.A.; 5 Full time Ph.D.; 90% female, 10% male.
- Degree Requirements for M.A.:** Students must complete seven courses plus a thesis (PSYC 6997). The designated courses are: PSYC 6013, 6014, 6103, 6203, 6303, 6403 and one other agreed to by the Director, GAU and the student's advisor. Depending on the background of the incoming student, the course requirements may be revised.
- Degree Requirements for Ph.D.:** For Ph.D. degree requirements refer to UNB-Fredericton entry.
- Tuition Costs:** \$5,515.50 per year.
- Financial Assistance:** Graduate Fellowships are available on a strictly competitive basis. The present amount is \$12,000.00 a year. Nearly all the department's full-time students are funded. All applications received by February 1st are automatically considered for the fellowship competition.
- Applications in 2005-2006:** 5 applicants, 2 accepted.
- Anticipated Openings in 2007:** 3-4 positions.

Average Scores of Students

Admitted in 2006: GRE-V 505. GRE-Q 525. GRE-Anal. 5.75. GRE-Adv. 635. GPA, 4.1.

Specialized Programmes

Within Department: The Department offers opportunities to specialize in neuroscience, human neuropsychology, animal learning, psychopharmacology, psycho-physiology, addictions, criminal justice, perception, interpersonal relations, developmental, or social psychology.

Support Staff: 1 full-time animal care technician.

Special Facilities or Resources: The department is located in Hazen Hall. The research and teaching facilities at **UNB-Saint John** include laboratories for human and animal research. The laboratories for human participants are equipped for 1) experimentation with both children and adults (isolation/observation rooms), 2) studies of lie detection or other types of research that involve polygraphic recording, 3) studies of perceptual phenomena, 4) neuropsychological testing, 5) psychophysiological testing, and 6) testing of individual participants with computer generated tasks. The two animal laboratories are equipped for 1) studies of operant and classical conditioning and 2) studies of behavioral effects of psychoactive drugs. Most of the labs are equipped with personal computers.

Outside of the confines of the university, many of the faculty members have established contacts at institutions where practical learning and research experience can be obtained by graduate students. These include the Saint John Regional Hospital, the Ridgewood Alcohol and Drug Rehabilitation Center, the New Brunswick Workers' Rehabilitation Center and the Saint John Community Mental Health Clinic.

Interlibrary loans from UNB-Fredericton and elsewhere are easily obtainable. The recent acquisition of several web-based electronic Databases by UNB has greatly facilitated information gathering. In addition, several faculty members maintain extensive personal libraries that can be made available to graduate students.

¹ **Ph.D. is offered jointly with UNB-Fredericton. Programs in Clinical Psychology and in Experimental/Applied Psychology are available.**

www.unbc.ca/psychology

Psychology Program: Established 1993. Chairperson: Henry Harder, Faculty: 9 full-time, (1 full professor, 3 associate professors, 4 assistant professors) and 1 senior lab instructor. Degrees awarded since 1994: 23 M.Sc; 1PhD.

Program Orientation: Emphasis on health and developmental psychology.

Degrees Offered: M.Sc. and Ph.D. in Psychology.

Enquiries to be Addressed to: Psychology Graduate Officer, Psychology Program, University of Northern British Columbia, 3333 University Way, Prince George, BC V2N 4Z9, Phone No. 250-960-6666, Fax No. 250-960-5744

Applications to be Addressed to: Graduate Officer, Office of the Registrar, University of Northern British Columbia, 3333 University Way, Prince George, BC, V2N 4Z9. Application Fee: (\$50.00 domestic, \$250.00 international). Application deadline: January 15.

Admission Requirements: Students interested in applying for the M.Sc. or Ph.D. in Psychology should submit or arrange to have submitted: by January 15: a letter of interest; official transcripts of grades in university; scores on the Graduate Record Examination General and Advanced Psychology tests; (GREs will not be required for Ph.D applicants with prior degrees in Psychology); three letters of reference from academic referees; a copy of a thesis or paper submitted for course work.

Master's Degree Program: In general, an acceptable academic standing will be a four year (120 academic UNBC credit hours) baccalaureate degree (or equivalent) in Psychology from a recognized institution. For a student to be considered for admission, he or she would need a grade point average* of at least 3.0 (B) in the work of the last two years (60 credit hours) leading to the baccalaureate degree. Please note that students who are admitted typically have a GPA above 3.80. Evidence is required, in the form of three letters of reference submitted directly to the Office of the Registrar from qualified referees, of the student's ability to undertake research work and advanced study in the topic area of interest.

*Any course(s) used in calculation of the entering grade point average cannot be used as credit toward a graduate degree program.

Ph.D. Degree Program: In general, an acceptable academic standing will be a two year master's degree in Psychology or a closely related discipline from a recognized institution. Students who complete their M.Sc. in psychology at UNBC are required to make a separate application to enter the Ph.D. program.

Application and

Admission Statistics:

Fall 2004 entry: MSc 5 applicants; 3 full-time admitted; PhD: 5 applicants; 2 admitted

Anticipated Openings

for Fall 2005:

5 MSc; 2 PhD

Degree Requirements for M.Sc.:

Students in the M.Sc. Program are required to complete a minimum of 23 credit hours of course work consisting of two quantitative methods courses:

PSYC 600-4 Quantitative Methods I

PSYC 605-4 Quantitative Methods II

an ethics course

PSYC 740-3 Ethical and Legal Issues in Psychology

and four courses, two of which must be from among the following:

PSYC 610-3 Cognitive Neuroscience

PSYC 615-3 Social Psychology

PSYC 620-3 Health Psychology

PSYC 631-3 Psychopathology

PSYC 635-3 Cognition and Learning

PSYC 645-3 Development Psychology

These courses will provide students with the basic foundations upon which to build their M.Sc. Research. In addition, all M.Sc. students are required to successfully complete an M.Sc. thesis (PSYC 690-12).

Students must have a cumulative GPA of B+ or greater by the end of their second semester of registration and maintain it at B+ thereafter. Students may be required to address deficiencies within their background preparation in Psychology or in their area of concentration that are identified by the Psychology Graduate Committee. Additional courses may be required. Normally, a student will present an acceptable thesis proposal to their supervisory committee by the end of their first

year in the program. It is expected that defense of the Master's thesis will take place within two years of acceptance into the program.

Degree Requirements for Ph.D.: Students in the Ph.D. Program are required to complete a minimum of 16 credit hours of course work consisting of two graduate seminars:

PSYC 800-2 Graduate Seminar I

PSYC 801-2 Graduate Seminar II

a research practicum

PSYC 860-6 Research Practicum

and two courses from:

PSYC 610-3 Cognitive Neuroscience

PSYC 615-3 Social Psychology

PSYC 620-3 Health Psychology

PSYC 631-3 Psychopathology

PSYC 635-3 Cognition and Learning

PSYC 645-3 Development Psychology

PSYC 720-3 Cross-Cultural Communication in Health Care Settings

PSYC 725-3 Cognitive Neuropsychological Assessment

PSYC 726-3 Personality Assessment

PSYC 730-3 Psychological Interventions

PSYC 805-3 Advanced Topics in Quantitative Psychology

In addition, all students are required to successfully complete a comprehensive examination (PSYC 880-0) and a Ph.D. dissertation (PSYC 890-12).

Students must have a cumulative GPA of B+ or greater by the end of their second semester of registration and maintain it at B+ thereafter. Students may be required to address deficiencies within their background preparation in Psychology or in their area of concentration that are identified by the Psychology Graduate Committee. Additional courses may be required. In particular, students entering the Ph.D. from other universities will be required to take PSYC 600-4 (Quantitative Methods I), PSYC 605-4 (Quantitative Methods II), and/or PSYC 740-3 (Ethical and Legal Issues in Psychology) if they have not completed parallel coursework as part of their Master's degree.

Normally, students will take a comprehensive examination by the end of the first year in the program (or 12 credit hours for part time students). Upon successfully completing the comprehensive examination and presenting an acceptable dissertation proposal to their supervisory committee, a student is granted Ph.D. Candidate status, and embarks upon completion of the dissertation under the supervision of a

GRADUATE GUIDE 2006 - 2007

Faculty Academic Supervisor. Normally, it is expected that the defense of the dissertation by full-time Ph.D. candidates will take place within three years of acceptance into the program.

Tuition Costs (2004-2005): Master's full-time: \$1135.82 per semester, minimum 6 semesters.
Master's part-time: \$600.36 per semester, minimum 12 semesters.
Ph.D.: same as MSc but tuition waivers available for full time students.
Part-time PhD is not available at this time.
Maintenance Fee: \$400.00 per semester for Master's/Ph.D. students who extend their studies beyond the fee payment schedule noted above.

International Students Tuition: Same as Canadian students

Student Fees: Student service fee: \$35.91 per semester.
Student society fee: \$15.00 per semester.
'One Card' fee: \$5.70 per semester.
Fitness Centre fee: \$35.00 per semester (Prince George Campus students only).
PGPIRG fee; \$4.00 per semester.

Other Fees: Application fee: \$50.00(domestic) \$250.00 (international) to accompany each application for admission (nonrefundable).
Document evaluation fee: \$40.00 (for out of province or out of country or post-secondary documents)
Graduation fee: \$40 one time fee for all graduating students
Smart Card replacement: \$15 per lost card
Late Registration fee: \$100
Reapplication fee: \$100

Parking Fees: Daily \$0.25 per 1-1/2 hour period, maximum \$2.00 per day.
Semester: \$128.40
Annual \$385.20
Carpool \$22.47 per month

Financial Assistance: Scholarships, awards, bursaries, fellowships, and prizes may be available. Contact the Awards and Financial Aid Office at UNBC 250-960-6363. Teaching assistantships may be available in return for relevant work for the Program, and in some cases funds may be available from research grants. PhD students are eligible for tuition waivers.

Support Staff: 1 administrative support.

Special Facilities or Resources: Psychology and Education test library; Resource room with journal collection; Psychophysiology lab; Observation suites with one-way mirrors; Interview rooms; new Computer Labs; free computer account for each student.

The Ontario Institute for Studies in Education of the University of Toronto (OISE/UT) (Counselling)

Toronto, Ontario

As of July 1, 1996, OISE merged with the Faculty of Education at the University of Toronto. At that time, two distinct divisions were created out of the existing Department of Applied Psychology. These divisions are: The Department of Human Development and Applied Psychology and; Program in Counselling Psychology (which is housed in the Department of Adult Education and Counselling Psychology). Information on both divisions is supplied separately below.

Program in Counselling

Psychology:

Department of Adult Education and Counselling Psychology: Established 1965, formerly Applied Psychology. Chair: Marilyn Laiken. Faculty: 8 full-time; 3 Full Professors, 5 Associate Professors, 2 Assistant Professor. Academic year system — September to August. Degrees awarded from 1967 to June 1997 inclusive: 2013 Master's, 593 Doctoral. Largest number of degrees awarded in the areas of Educational Psychology and Counselling. First Ph.D. awarded in 1968 in the area of Educational Psychology. First M.A. awarded in 1967 in the area of Counselling and Educational Psychology. First Ed.D. awarded in 1968 in the area of Educational Psychology.

Department Orientation: Counselling Psychology.

Programs and Degrees Offered: Program in Counselling Psychology: M.A., Ph.D. Counselling Psychology for Psychological Settings; M.Ed., Ed.D. Counselling Psychology for Community and Educational Settings; M.Ed. Guidance and Counselling.

Applications to be Addressed to: The Registrar's Office, Graduate Studies Unit, OISE/UT, 252 Bloor Street West, 4th Floor, Toronto, Ontario, Canada M5S 1V6. Tel: (416) 923-6641 Ext. 2663/2664. Fax: (416) 926-4725. E-mail: gradstudy@oise.utoronto.on.ca . Deadline: December 1st. Fee: \$160.00 Canadian.

Admission Requirements: Available at: <http://www.oise.utoronto.ca/depts/aecp/cp.php>

2005 Student Statistics: Ed.D.: 10; Ph.D.: 47; M.A.: 15; M.Ed.: 66, Total: 138

Degree Requirements:	See Counselling Psychology guidelines at: http://www.oise.utoronto.ca/depts/aecp/PDFforms/CP/2006_CP_GUIDELINES.pdf
Tuition Costs (2006/07):	M.Ed. (Full-time): \$7,974.82 (\$18,452.82 visa students), Ed.D. (Full-time): \$7,587.82 (\$18,452,82 visa students). M.Ed. (Part-time): \$2,417.14 (\$6,039.34 visa students), Ed.D. (Part-time): \$2,301.04 (\$6,039.34 visa students).
Financial Assistance:	OISE/UT Graduate Assistantships, OISE/UT Scholarships, OISE/UT Bursaries, OGS, SSHRC. MA & PhD Guaranteed funding.
Applications in 2006/07:	Counselling (all programs), 460. Applications accepted, 57.
Administrative Staff:	1 Business Officer, 1 Graduate Studies Officer, 3 Administrative Assistants.

The Ontario Institute for Studies in Education of the University of Toronto (OISE/UT) (Human Development and Applied Psychology)

Toronto, Ontario

Website: <http://hdap.oise.utoronto.ca/>

As of July 1, 1996 OISE merged with the Faculty of Education, UT. At that time two distinct divisions were created out of the existing department of Applied Psychology: Human Development and Applied Psychology and the program in Counseling Psychology (housed in the department of Adult Education and Counselling Psychology).

The Department of Human Development and Applied Psychology currently offers three graduate programs: **Child Study and Education**, based at the Institute of Child Study, a preservice teaching program leading to the Ontario Teacher's Certificate of Qualification and an M.A.; **Developmental Psychology and Education** offers four degree programs with a focus on developmental psychology and human development and their implications for practice with children; and **School and Clinical Child Psychology**, a program intended to fulfill the academic requirements for registration as a psychological associate and psychologist.

Department of Human Development and Applied Psychology:

Formerly Applied Psychology with staff joining the department from the Institute of Child Study and the Faculty of Education, UT. Established 1965. Chair: Janet Astington. Associate Chair: Michele Peterson-Badali. Faculty: 26.93 full-time; 9.6 Full Professors, 7.5 Associate Professors, 7.0 Assistant Professors, 3 Senior Lecturers, 10-15 Extramural Instructors. Academic year: September to May. Degrees awarded from 1967 to June 2006 inclusive: 2603 Master's, 762 Doctoral.

- Department Orientation:** Human development, applied psychology and education.
- Programmes and Degrees Offered:** Child Study and Education (M.A.); Developmental Psychology and Education (M.Ed., M.A., Ed.D., Ph.D.); School and Clinical Child Psychology (M.A., Ph.D.).
- For Application Information:** Registrar's Office, OISE/UT, 252 Bloor Street West, 4th Floor, Toronto, ON M5S 1V6; Tel: (416) 923-6641, ext. 2663/2664; Fax: (416) 926-4725; e-mail: gradstudy@oise.utoronto.ca. Deadline: December 1, 2006 for submitting applications for the 2007/2008 school year. Fee: \$160.00 (Canadian).
- Admission Requirements:** Varies with program. For M.A. a 4-year B.A. is normally required. Undergraduate major in psychology or related field is normally required. For Ed.D. an M.Ed. or M.A. is normally required. For Ph.D. an M.A. is normally required. Minimum average ranges from mid-B to A-.
- 2005/2006 Registered Students:** M.Ed.: 39, M.A.: 104, Ed.D.: 3, Ph.D.: 99.
- Degree Requirements:** Varies with program. M.Ed.: full- or part-time, minimum 10 half-courses plus comprehensive examination. M.A.: normally full-time, from 6 half-courses to 16 half-courses, plus practicum and/or thesis. Ed.D.: full- or part-time with minimum 1 year full-time residency, minimum 8 half-courses, internship and thesis. Ph.D.: full-time, minimum 6 half-courses, comprehensive examination and thesis.
- Tuition Costs (2005-2006):** M.A. and Ph.D. (all Ph.D. are FT): full-time, \$6,628.82 (\$14,252.82 Int'l students), M.A. part-time, \$2,013.34 (\$4,779.34 Int'l students). M.Ed. and M.T.: full-time \$7,974.82 (\$18,452.82 Int'l students), part-time, \$2,417.14 (\$6,039.34 Int'l students). Ed.D.: full-time, \$7,587.82 (\$18,452.82 Int'l students), part-time, \$2,304.04 (\$6,039.34 Int'l students).
- Financial Assistance:** OISE/UT Graduate Assistantships, OISE/UT Entrance Scholarships, OISE/UT Bursaries, OGS and SSHRC.

Applications for the

2005/2006 academic year: Received: 459
Offers: 100
Accepted: 78
Admitted: 73

Administrative Staff (including

Institute of Child Study): Departmental administrator, Business officer, Graduate programs and admissions co-ordinator, 3 program secretaries and liaisons, Departmental administrative assistant, Research centre co-ordinator, Receptionist.

University of Ottawa

Ottawa, Ontario

School of Psychology:

Established 1941. Chairperson: Pierre Gosselin. Faculty: Full-time 46, Part-time 73. Academic year system 3 terms. Degrees awarded from 1943 to 2005 inclusive: Master's 467, Ph.D. 597. Largest number of degrees awarded in the following areas: Clinical-Counselling. Doctoral Programme in clinical psychology is accredited by CPA, OPA and APA.

Department Orientation:

Clinical Psychology: A scientist-practitioner model with special strengths in child and family intervention, adult and couples intervention and social and community interventions from cognitive-behavioural experiential and interpersonal orientations.

Experimental Psychology: Behavioural neuroscience, cognitive psychology, social psychology and personality, developmental psychology.

Programs Offered:

CPA and APA accredited Ph.D. in Clinical Psychology and Ph.D. in Experimental Psychology.

Applications to be Addressed to:

Graduate Program Administrator, School of Psychology, University of Ottawa, Ottawa, Ontario K1N 6N5. Tel: (613) 562-5801; Fax: (613) 562-5147; E-mail: hdore@uottawa.ca Deadline: January 15. Fee: \$75.00.

Admission Requirements:

Honours in Psychology including a thesis or equivalent. Students are admitted directly into M.A.-Ph.D. programs.

2005-2006 Student Statistics: Clinical Program: Total of 75 Ph.D. students. Full-time Ph.D.: 61 full-time not including first year students; M.A. and M.Ps. Ph.D. First year 14 students in 2005.

Experimental Program: Total of 43 Ph.D. students. Full time Ph.D.:35
Number of students admitted in 2005: 7.

Degree Requirements: For the clinical program Ph.D.: 12 trimesters in full-time residence, 14 trimester courses, 2000 hours internship, practica, comprehensive examination, thesis.

For the experimental program Ph.D.: 12 trimesters in full-time residence, 8 trimester courses, comprehensive examination, thesis.

Tuition Costs: Resident: \$6,400 per year. Non-resident: \$13,250 per year.

Financial Assistance: Teaching, clinical and research assistantship, admission scholarships from the Faculty of Graduate and Postdoctoral Studies. Average financial support for 2004 was: \$17,000.

Special Facilities or Resources: 1 internal training unit for the clinical program, the Centre for Psychological Services, and 17 associated external training units. Laboratories in behavioural neuroscience, cognitive psychology, social psychology, developmental psychology. Computer facilities and animal facilities.

Support Staff: 5 departmental support staff, Statistical Consultant.

Research and Clinical Facilities: 9000 sq. ft. of laboratory space. 1 training unit, Centre for Psychological Services.

Université d'Ottawa

Ottawa, Ontario

École de psychologie : Établie en 1941. Directeur : Pierre Gosselin. Corps professoral : Temps complet 46. Temps partiel 73. Le système d'année académique est conçu en terme de trimestres (3 trimestres par année). Diplômes conférés entre 1943 et 2005 inclusivement: Maîtrise 467, Ph.D. 597. Le plus grand nombre de titres conférés est en psychologie clinique. Le programme de doctorat en psychologie clinique a reçu l'accréditation de la SCP et l'APA. Milieu bilingue.

- Orientation de l'école :** *Psychologie clinique* : Un modèle de praticien-chercheur avec des compétences particulières en interventions au niveau de l'enfant et de la famille, interventions au niveau de l'adulte et du couple, interventions sociale et communautaire selon les orientations cognitive-comportementale, expérientielle et interpersonnelle.
- Psychologie expérimentale* : Neurosciences du comportement, psychologie cognitive, psychologie sociale et personnalité, psychologie du développement, psychologie quantitative et méthodes de recherche.
- Programmes offerts :** Ph.D. en psychologie clinique accrédité par la SCP et l'APA et Ph.D. en psychologie expérimentale.
- Les demandes d'admission doivent être envoyées à :** L'administrateur, programmes des 2^e et 3^e cycles, École de Psychologie, Université d'Ottawa, Ottawa, Ontario, K1N 6N5. Tél: (613) 562-5801; Téléc : (613) 562-5147; courriel : hdore@uottawa.ca.
Date limite : 15 janvier. Frais : 75 \$.
Les formulaires de demande d'admission sont disponibles à :
<http://www.etudesup.uottawa.ca/demande/index.html>
- Conditions d'admission :** Spécialisation en psychologie y compris une thèse ou l'équivalent.
- Statistiques 2005-2006 :** Programme clinique: Total de 75 étudiants au Ph.D. Nombre d'étudiants admis en 2005 : 14.
Programme expérimental: Total de 43 étudiants au Ph.D. Nombre d'étudiants admis en 2005 : 7.
- Exigences des programmes :** Pour le programme de Ph.D. en clinique : 12 trimestres de résidence à temps complet, 14 cours trimestriels, stages, 2 000 heures d'onternat, un examen de synthèse et une thèse.
Pour le programme de P.hD. en expérimental : 12 trimestres de résidence à temps complet, 8 cours trimestriels, un examen de synthèse et une thèse.
- Frais de scolarité :** Résident : 6 400 \$, par année. Non-résident : 13 250\$ par année.
- Aide financière :** Assistanats: à l'enseignement, à la recherche et au travail clinique. Bourses d'admission de la Faculté des études supérieures et postdoctorales.
Appui financier moyen pour 2004 était de 17 000 \$.
- Installations spéciales :** 1 centre interne d'entraînement pour le programme clinique : le Centre des services psychologiques et 17 centres externes d'entraînement.

Laboratoires en neuroscience du comportement, psychologie cognitive, psychologie sociale, psychologie du développement. Installations informatiques et service animalier.

Personnel de soutien : 5 membres de personnel administratifs. Consultant en statistiques.

Installations (recherche et clinique) :

9 000 p.c. de laboratoires. 1 centre d'entraînement : le Centre des services psychologiques.

Université du Québec à Montréal

Montréal, Québec

Fax : (514) 987-7953; Courriel : doctorat.psycho@uqam.ca

Site : <http://www.psycho.uqam.ca>

Département de psychologie : (514) 987-4804. Le système d'année académique est conçu en terme de sessions (3 sessions par année).

Titres décernés : Philosophiae Doctor, Ph.D. (profil recherche) Psychologiae Doctor, Psy.D. (profil professionnel) Combiné Psychologiae Doctor/Philosophiae Doctor, Psy.D. et Ph.D., (profil scientifique-professionnel).

Orientation et description des profils :

Ce programme vise l'obtention du doctorat à partir d'un diplôme de premier cycle dans une démarche intégrée et continue d'activités de recherche, de formation académique et d'intervention. Le programme compte trois profils qui permettent une spécialisation des étudiants.

Profils recherche (Ph.D.) : Ce profil est destiné aux étudiants qui désirent faire une carrière en recherche ou qui veulent approfondir une problématique avancée reliée à une autre profession (par exemple l'enseignement). Il fournit les bases méthodologiques et théoriques nécessaires pour planifier et entreprendre une démarche qui est à la fine pointe des recherches dans le domaine de spécialisation choisi par l'étudiant.

Profil professionnel (Psy.D.) : Ce profil offre à l'étudiant une formation professionnelle axée sur les deux dimensions de l'évaluation et de l'intervention psychologiques. Il permet l'approfondissement des connaissances théoriques et pratiques dans un des domaines de spécialisation offerts au département. Ce profil conduit à l'accréditation professionnelle.

Profil scientifique-professionnel : (profil combiné Psy.D./Ph.D.) : Ce profil est destiné aux étudiants qui désirent faire une carrière en recherche appliquée ou en intervention et qui veulent combiner l'acquisition des habiletés de recherche avec celles de l'intervention. Il fournit les bases méthodologiques et théoriques nécessaires pour planifier et entreprendre une démarche de recherche avancée et donne en même temps les bases conceptuelles et l'encadrement pratique nécessaires à l'intervention psychologique. Les démarches de recherche et d'intervention doivent être vues comme des activités complémentaires qui permettront une interaction entre la rigueur expérimentale associée à l'approche empirique et les habiletés conceptuelles et humaines nécessaires à la pratique professionnelle. Ce profil conduit à l'accréditation professionnelle.

Demande d'admission :

Registrariat, Service de l'admission, C.P. 8888, Succ. Centre-Ville, Montréal, Québec, H3C 3P8. Date Limite : le 15 février.

Conditions d'admission :

Le candidat doit être titulaire d'un baccalauréat ou l'équivalent obtenu avec une moyenne cumulative d'au moins 3,2 sur 4,3 ou l'équivalent et avoir des connaissances de base en psychologie, comprenant les cours suivants :

méthodologie de la recherche, statistiques, psychobiologie, perception, apprentissage, affectivité, personnalité normale, développement, cognition et psychologie sociale.

Le candidat doit être accepté par un directeur de thèse; la compréhension de l'anglais écrit est exigée. Le candidat doit spécifier, parmi les trois profils offerts dans le programme, celui auquel il désire s'inscrire et il doit aussi remplir les conditions spécifiques d'admission de ce profil.

Profil recherche : Le candidat doit avoir réussi trois cours de spécialisation jugés préalables au domaine de recherche par le comité d'admission en plus des connaissances requises pour l'admission générale. Le candidat doit fournir une description de son domaine d'intérêt.

Profil scientifique-professionnel : Le candidat doit être titulaire d'un baccalauréat en psychologie ou son équivalent avec au moins cinquante-quatre (54) crédits en psychologie incluant une formation de base en psychopathologie, en évaluation par les tests et en techniques d'entrevue en plus des connaissances requises pour l'admission générale. Le candidat doit produire une description des domaines de recherche et d'intervention dans lesquels il veut se spécialiser, en indiquant le lien entre les domaines de recherche et d'intervention.

Profil professionnel : Le candidat doit être titulaire d'un baccalauréat en psychologie ou son équivalent avec au moins cinquante-quatre (54) crédits en psychologie incluant une formation de base en évaluation par les tests et en techniques d'entrevue en plus des connaissances requises pour l'admission générale. Le candidat doit produire une description du

domaine d'intervention et de recherche dans lequel il veut se spécialiser.

Capacité d'accueil :

Le programme n'est pas contingenté mais le nombre d'admis ne devra pas dépasser la capacité d'encadrement des professeurs accrédités aux études de cycles supérieurs. Admission à l'automne seulement.

Méthodes et critères de sélection :

Chaque dossier est d'abord examiné par le Sous-comité d'admission et d'évaluation. Les dossiers considérés globalement acceptables sont ensuite examinés par un comité sectoriel qui fait une sélection selon la capacité d'accueil et les intérêts de recherche des professeurs. Selon les sections, les comités peuvent aussi faire des entrevues.

L'évaluation des dossiers utilise les éléments suivants : le dossier académique, les lettres de recommandation, l'expérience pertinente et les intérêts de recherche.

Documents requis en plus du formulaire d'admission, le candidat doit ajouter :

- trois lettres ou formulaires de recommandation;
- un exemplaire de deux travaux écrits (travaux de session ou rapports scientifiques);
- une brève description de ses intérêts de recherche et de formation et les sections (par ordre de priorité) parmi les suivantes dans lesquelles il désire être admis: analyse fonctionnelle du comportement; communautaire; développement; éducation; neuropsychologie/biopsychologie; psychodynamique/humaniste; sociale; industrielle-organisationnelle.

Le candidat doit aussi indiquer :

- les noms des professeurs avec qui il voudrait travailler;
- les profils (par ordre de priorité) dans lesquels il désire être admis.

Régime d'études et durée des études :

- Profil scientifique-professionnel (combiné Psy.D.et Ph.D.) : minimum 6 ans
- Deux autres profils : minimum 4 ans.

Université du Québec à Trois-Rivières

Doctorat en psychologie (Intervention) (D.Ps.)

Trois-Rivières, Québec

Titre décerné :

Docteur en psychologie D.Ps. (Intervention).

Domaines d'application :

Le programme Intervention s'adresse à une clientèle de futurs psychologues se consacrant à temps plein au domaine de la pratique professionnelle. En plus du travail d'évaluation et d'intervention psychologiques, le diplômé pourra agir comme consultant, superviseur et gestionnaire dans les milieux de pratique et produire un type de savoir lié directement aux clientèles avec lesquelles il travaille. De plus, il pourra communiquer son savoir et savoir-faire dans un poste lié à l'enseignement collégial ou universitaire.

**Orientation générale
du programme :**

Dans le programme Intervention, c'est surtout par le biais d'un maillage étroit entre le développement de la pratique professionnelle et la production d'un savoir scientifique axé sur des problématiques uniques et singulières vécues dans ses internats que l'étudiant sera formé à répondre de manière adéquate aux défis des milieux. Le programme Intervention dispense une formation intégrée où la formation à l'intervention est intimement liée au développement et à la production d'un savoir scientifique pour qu'il en résulte un psychologue clinicien capable d'intervenir auprès de diverses clientèles et capable de produire et de communiquer, à partir de sa pratique professionnelle, un savoir scientifique. Sa formation au développement d'un savoir scientifique est imbriquée dans sa formation clinique, et ce, tout au long de son programme d'étude, comme le souhaite l'Ordre des psychologues du Québec. Ce programme comporte 135 crédits.

Responsable :

Monsieur Michel Alain, directeur du Comité d'études de cycles supérieurs, Département de psychologie, Université du Québec à Trois-Rivières. Courriel : Michel.Alain@uqtr.ca; Télécopieur : (819) 376-5195; Téléphone : (819) 376-5011. Poste 4061.

Demande d'admission :

Acheminer les demandes d'admission au Bureau du registraire, Université du Québec à Trois-Rivières, C.P. 500 Trois-Rivières, G9A 5H7.

Demande d'admission :

Date limite: 16 février. Il n'y a qu'une seule admission par année, soit celle de la session automne.

**Conditions d'admission
et sélection :**

Base universitaire : Être titulaire d'un baccalauréat en psychologie avec une moyenne cumulative de 3.2 (sur 4.3) ou l'équivalent, baccalauréat qui devra inclure tous les éléments du tronc commun requis par l'Ordre des psychologues du Québec (42 crédits).

Base expérience : Posséder les connaissances requises, une formation appropriée et une expérience jugée pertinente.

NOTE :

Ce programme est contingenté.

Université du Québec à Trois-Rivières

Doctorat en psychologie (Intervention/Recherche) (Ph.D.)

Trois-Rivières, Québec

Titre décerné :

Philosophiae doctor, Ph.D. (Intervention/Recherche)

Domaine d'application :

Le programme Intervention/Recherche se situe dans la tradition de formation en psychologie où on valorise tout autant le geste de chercheur que celui du praticien. À ce titre, ce modèle donne à l'étudiant une double identité, celle du chercheur autonome capable de mener à terme des recherches dans divers secteurs de la discipline et celle du praticien adéquatement outillé pour faire de l'évaluation et de l'intervention psychologiques.

**Orientation générale
du programme :**

Le programme Intervention/Recherche est conçu pour former un psychologue clinicien à l'intervention auprès de certaines clientèles et à effectuer de la recherche à caractère appliqué pertinent aux milieux de

pratique. De plus, l'Ordre des psychologues du Québec souhaite que des activités de recherche soient réalisées lors des internats dans de tels milieux.

Par ailleurs, le programme Intervention/Recherche s'adresse à une clientèle de futurs psychologues qui désirent se consacrer à la fois à la pratique professionnelle et à la recherche reliées à diverses problématiques. En plus du travail d'évaluation et d'intervention psychologiques, le diplômé pourra agir comme consultant, superviseur et gestionnaire tant pour des tâches liées à la pratique qu'à la recherche. Il sera préparé à conceptualiser et à réaliser des projets de recherche dans divers secteurs de la discipline. De plus, il pourra communiquer son savoir et son savoir-faire dans un poste lié à l'enseignement collégial ou universitaire.

Responsables : Monsieur Michel Alain, directeur du Comité d'études de cycles supérieurs, Département de psychologie, Université du Québec à Trois-Rivières. Courriel : Michel.Alain@uqtr.ca; Télécopieur : (819) 376-5195; Téléphone : (819) 376-5011, poste 4061.

Demande d'admission : Acheminer les demandes d'admission au Bureau du registraire, Université du Québec à Trois-Rivières, C.P. 500, Trois-Rivières, G9A 5H7.

Demande d'admission : **Date limite :** 16 février. Il n'y a qu'une seule admission par année, soit celle de la session d'automne.

Conditions d'admission et de sélection :
Base universitaire : Être titulaire baccalauréat en psychologie avec une moyenne cumulative de 3.2 (sur 4.3) ou l'équivalent, baccalauréat qui devra inclure tous les éléments du tronc commun requis par l'Ordre des psychologues du Québec (42 crédits).

Base expérience : Posséder les connaissances requises, une formation appropriée et une expérience jugée pertinente.

NOTE : Ce programme est contingenté.

Université du Québec à Trois-Rivières
Doctorat en psychologie (Recherche) (Ph.D.)
Trois-Rivières, Québec

Titre décerné : Philosophiae Doctor, Ph.D. (Recherche)

Domaine d'application : Le programme s'adresse à la fois aux étudiants en psychologie se destinant à une carrière de chercheur dans le domaine des sciences humaines, sans aspirer à devenir clinicien ainsi qu'à ceux venant de disciplines connexes et désirant venir compléter un doctorat en psychologie.

Au terme de sa formation, l'étudiant devra avoir démontré qu'il est en mesure de concevoir, de poursuivre et de mener à terme des projets de recherche de façon autonome et qu'il est apte à contribuer de façon originale à l'avancement des connaissances en psychologie. Il devra également avoir démontré qu'il a développé un sens critique à l'égard

des réalisations et des limites de la psychologie, qu'il possède les habiletés de base nécessaires à la communication scientifique et qu'il peut assumer un rôle important dans la communauté en contribuant au développement scientifique et professionnel.

Le programme vise donc spécifiquement une formation intégrée à la recherche en privilégiant les composantes de dimension méthodologique, d'élargissement des connaissances et de communication des connaissances. Il prend appui sur l'orientation principale des activités d'enseignement et de recherche du département de psychologie qui est celle de l'étude de la personne et plus spécifiquement de son développement psychologique et de son adaptation aux étapes successives de sa vie.

Ce programme comprend 120 crédits.

Responsables : Monsieur Michel Alain, directeur du Comité d'études de cycles supérieurs, Département de psychologie, Université du Québec à Trois-Rivières. Courriel : Michel.Alain@uqtr.ca; Télécopieur : (819) 376-5195; Téléphone : (819) 376-5011, poste 4061.

Demande d'admission : Acheminer les demandes d'admission au Bureau du registraire, Université du Québec à Trois-Rivières, C.P. 500, Trois-Rivières, G9A 5H7.

Demande d'admission : **Date limite :** 16 février.

Conditions d'admission et sélection : *Base universitaire :* Pour le programme Recherche, une formation minimale de niveau baccalauréat (moyenne minimale de 3.2) sera exigée dans une discipline jugée pertinente.

Base expérience : Posséder les connaissances requises, une formation appropriée et une expérience jugée pertinente.

Selon la formation de l'étudiant, celui-ci pourra avoir à compléter jusqu'à trois cours de premier cycle hors programme afin d'avoir une connaissance minimale du champ disciplinaire de la psychologie.

NOTE : Ce programme contingenté.

Queen's University
Kingston, Ontario

Department of Psychology: First established as an independent Department in 1949. For many years before that Psychology was taught in the Department of Philosophy. Head of Department, V.L. Quinsey. Faculty: 32 full-time, (12 Professors; 8 Associate Professors; 12 Assistant Professors; 35 Adjunct/Cross Appointed Faculty). Academic year system – 3 terms. Graduate degrees awarded 1930-2005 inclusive: Masters' 497; Ph.D. 439. First Ph.D. awarded in 1959 in the area of Personality and Alcoholism. First M.A. awarded in 1930 in the area of Animal Learning.

Department Orientation: The Department has programs at both the M.A. and the Ph.D. level in four areas: (1) Brain, Behaviour and Cognitive Science (BBCS), (2) Clinical, and (3) Developmental, and (4) Social-Personality. The Brain, Behaviour and Cognitive Science, the Developmental and, the Social-Personality Programs are designed to emphasize research skills and scholarship, preparing students for either academic positions or for research posts in government, industry, and the like. The CPA Accredited Clinical Program is designed to educate psychologists who will be proficient in both the scientific and clinical aspects of their profession, and who are capable of working in a variety of settings. All programs stress empirical research.

Applications to be Addressed to: Applications are made through the online application process, the departmental link to the online system is <http://psyc.queensu.ca/gradbeta1/prostufirms.html>. There is a non-refundable application fee of \$85.00. Application deadline is January 15.

Web Site: For detailed information on faculty and graduate programs visit the WEB site at <http://psyc.queensu.ca/gradbeta1/prostufirms.html>

Admission Requirements: The University requires a minimum of a second class honours degree in Psychology or its equivalent. Departmental standards are considerably higher. An undergraduate thesis is preferred, but not required for graduate admission. Most successful applicants have a first class honours degree and score above the 60th percentile on G.R.E.s. Queen's University encourages applications from all qualified candidates. Women, aboriginal peoples, people with disabilities, and visible minorities are especially encouraged to apply.

2005-2006 Student Statistics: Full-time Ph.D. 47, M.A.33. Part-time Ph.D. 4. Part-time M.A. 0.

Degree Requirements: *Master's:* The master's program normally extends over two calendar years. For students with an honours degree in psychology the requirements for the master's program are: PSYC-801*, 802* (Statistics) and 899 (thesis to be completed by the end of the second year in the program), plus the following program-specific requirements:

Brain, Behaviour and Cognitive Science: In each academic year, students take one course from the Research Seminar series and two courses from either the Behavioural Neuroscience stream or the Cognitive Neuroscience stream selected in consultation with the supervisor and the Program Chair. Students in the Behavioural Neuroscience stream also take QACS-799.

Clinical: Over two years, students take seven courses and complete two practicum placements.

Developmental: In each academic year, students take one course from the Pro-Seminar series and one course from the Developmental series of courses selected in consultation with the student's supervisor and the Program Chair.

Social-Personality: In each of the two academic years, students take two courses from the Social-Personality series selected in consultation with the student's supervisor and the Program Chair. In the second year of the program, students also take either Psyc-940* or Psyc-941*

Doctoral: The doctoral program in Brain, Behaviour and Cognitive Science, Developmental, and Social-Personality may be completed in two years of study by students with a master's degree in psychology. The Clinical program requires a minimum of three years to complete.

Some students with a master's degree may require more time to complete the Ph.D. Such students might include those with a master's degree completed in one year, in a discipline other than psychology, or at a university other than Queen's.

The requirements for the program are: PSYC-999 (thesis), the Comprehensive Examination required by the specific program, and:

Brain, Behaviour and Cognitive Science: In each academic year, students take a Research Seminar. Students, in consultation with their supervisors, are responsible for selecting additional training venues that are appropriate for their area of specialization.

Clinical: Students take two required half courses, three additional half course electives, four practicum placements and complete a one-year predoctoral internship.

Developmental: Students take one course from the Pro-Seminar series, and two courses from the Developmental series of courses selected in consultation with the student's supervisor and Program Chair.

Social-Personality: Students take one course from the Social-Personality series and three additional courses selected in consultation with the student's supervisor and the Program Chair. In the first year of the program students normally take either Psyc-940* or Psyc-941*.

Tuition Costs:

Canadian Citizens and Landed Immigrants: The tuition fee for 2005-2006 is \$5965. (including student assistance levy and activity fee).
International Students: The tuition fee for 2005-2006 is \$11,405.

Financial Assistance:

University scholarships (Queen's Graduate Fellowships and Queen's Graduate Awards) as well as assistance from provincial and federal granting agencies (e.g. NSERC, SSHRC, OGS).

Applications for 2005-06:

170 applications received, 33 offers made.

Anticipated Openings in 2006-07:

BBCS: 8; Clinical: 6; Developmental: 6; Social: 6.

**Average Scores of
Students Admitted
in 2006-07 for Masters:**

GRE-V 600. GRE-Q 665. GRE-A 5.2. GRE-Adv. 730. GPA: First-class standing in Honours Psychology B.A. or B.Sc. Degree.

Special Facilities or Resources:

Laboratories and computer facilities for human and animal experimental work, plus extensive opportunities to work in applied settings such as local hospitals, penitentiaries, schools and social agencies.

Research Space:

Humphrey Hall and the adjacent Craine building contain most of the laboratory, teaching, and technical facilities of the Psychology Department, facilities for the study of perception and action, including laboratories for the study of optical flow, pattern vision, psychoacoustics and auditory psychophysics, tactile psychophysics and haptic perception, full-body motion, speech synthesis, music perception, eye-hand coordination, facial animation, and human factors relating to teleoperation, and virtual reality. Behavioral neuroscience facilities include multi- and single-unit recordings, intracerebral microdialysis, and image analysis, as well as laboratories for studying animal learning and cognition, avian and insect navigation, and birdsong. There is a human sleep laboratory, and laboratories for the study of human memory, decision and categorization phenomena, and reading processes. There are extensive facilities for research in developmental psychology, from infancy through old age, including laboratories for studying infant perception, language acquisition, lying, aggression and victimization. There are facilities for computer-administered experiments in personality, social interaction and influence, and social judgement, as well as eyewitness identification and jury decision-making. Research facilities are also available through various community hospitals, Federal penitentiaries in the Kingston area, and through other community health-based institutions.

The Department of Psychology also maintains computing resources of varying sizes and configurations located in laboratories. It houses a semi-public computing site, and a teaching laboratory for applied statistics in a computing environment. The Department is affiliated with the High-Performance Computing Virtual Laboratory, Canada's largest academic high-performance computing facility, operated by a consortium of four universities (Queen's, Royal Military College, Ottawa, and Carleton). The Department provides training in parallel computing applied to behavioural phenomena. It also has facilities for the computational modeling of cognitive processes.

**Typical Requirements for
Academic Staff Appointments:**

Completed Ph.D. requirements essential, and preferably some post-doctoral experience desirable but not essential. Approx. age: Open. A good record of research productivity and publication will be given considerable weight in assessing the merit of prospective candidates, as will evidence of superior teaching ability.

University of Regina
Regina, Saskatchewan

Department of Psychology: Established 1965. Head: William E. Smythe. Faculty: 18 Full-time. (7 Full Professors, 3 Associate Professors, 3 Assistant Professors, as well as 1 Full Professor, 2 Associate Professors and 2 Assistant Professors at Federated Colleges). Academic year system – semester. Phone: (306) 585-4221/4157; Fax: (306) 585-5429; email: psychology.dept@uregina.ca url: www.uregina.ca/arts/psychology/

Department Orientation: There are two main streams in the graduate program - Clinical Psychology, and Experimental and Applied Psychology. In the clinical program opportunities exist to work with children, adults or seniors in a variety of settings such as mental health, psychiatric, acute care, rehabilitation, counselling or forensic settings. Exposure to a variety of theoretical orientations is possible including cognitive-behavioural, humanistic, interpersonal, experiential, feminist and psychodynamics. Exposure to health psychology and neuropsychology is also available.

The EAP programme focuses on training students to become independent researchers who are capable of carrying out high quality, high impact research. In this program you can specialize in Cognitive Psychology, Developmental Psychology, Forensic Psychology, Neuroscience, Social Psychology, and Theoretical Psychology.

Applications to be Addressed to: Dean, Faculty of Graduate Studies and Research. Deadline for completed applications is February 15th. Fee: \$60. url: www.uregina.ca/gradstudies/

Admission Requirements: Fully qualified acceptance into the M.A. programme requires Honours degree or equivalent in Psychology. Admission to the Ph.D. programme is traditionally contingent upon a Master's degree in Psychology. (Students who fail to meet the basic admission requirements for either degree may be eligible for admission as conditionally qualified students. After successful completion of one or two semesters of senior level classes, including passing a qualifying examination, they would then become eligible for admission into either the M.A. or Ph.D. programme as fully qualified students)

2006-2007 Student Statistics: Ph.D. Students - 29; M.A. Students - 24; 13% male, 87% female .

Degree Requirements: *Master's:*
After an Honours degree or equivalent, a student is expected to complete their degree in two years: generally a minimum of 12 credit hours in classes other than practica and internships, 16 thesis credit hours, plus the graduate seminar. The final requirements would be to prepare and defend a thesis.

Ph.D.:
Ph.D. students usually spend a minimum of three years residence post-M.A. and take at least 16 credit hours of classes plus 44 Thesis credit hours. The student is required to pass a comprehensive examination, and to prepare and defend a doctoral dissertation. Clinical students are required to take a one-year pre-doctoral internship.

Tuition Costs: For Masters students; tuition is \$166.66 per credit hour. With additional fees a typical 3 credit hour course come to \$607.58. For Ph.D. students, tuition is \$1000 per semester.

- Financial Assistance:** A number of scholarships, assistantships, and fellowships from Grad Studies are available. These vary in value up to a maximum of \$5385 per semester at present.
- Research and Clinical Space:** Facilities are available for research and clinical teaching. The Psychology Training Clinic provides opportunities for clinical research and training under the supervision of registered psychologists.
- Typical Requirements for Academic Staff Appointments:** Research, teaching, and clinical experience currently emphasized. Language requirements - English.

Department of Psychology Information: Established 1979. Chairperson: Dr. Victor Catano. Graduate Program Coordinator: Dr. Victor Catano. Full-time 17, Part-time, 18. Academic year system: 2 Semesters (September-December and January-April). Degrees awarded since 1979: 91 M.Sc. degrees in Applied Psychology.

Department Orientation, Objectives, and Emphasis: Students are expected to acquire a background in theory and research that is consistent with the scientist/practitioner model. The objective for M.Sc. Students is preparation for employment after degree completion or continuation on to doctoral level programs.

Programs and Degrees Offered: M.Sc. in Applied Psychology (Areas of concentration: Industrial/Organizational Psychology); Ph.D. in Industrial/Organizational Psychology.

Admission Requirements: M.Sc.: Honour's Degree in Psychology or equivalent. Undergraduate course work should include statistics and research methods, tests and measurements, and an honours thesis (or equivalent). I/O courses are desirable, but not required. GPA (B+; 3.30). GRE scores: verbal, quantitative, logical, and psychology. Importance of other criteria: letters of recommendation (high); previous research activity (high); work and volunteer experience, (medium; if relevant to program); application letter (medium); extracurricular activity (low).

Ph.D.: Masters' degree in I/O Psychology or related area; GPA (B+;3.30). GRE scores: verbal, quantitative, logical, and psychology. Importance of other criteria: letters of recommendation (high); previous research activity (high); work and volunteer experience (medium; if relevant to program); application letter (medium); extracurricular activity (low).

- Application Process:** The admission materials are available from the Faculty of Graduate Studies & Research (or on-line at <http://fgsr.smu.ca/GraduateStudies/Admissions/Science.aspx>)
Application deadline: February 1. Application processing fee: \$70.
Address application to: Faculty of Graduate Studies and Research, Saint Mary's University, Halifax, NS B3H 3C3.
- 2005-2006 Student Statistics:** Total number of full-time students: 20.
- Degree Requirements:** M.Sc.: 2-year program: A full-year course in advanced statistics and design; 1 half-year course in advanced assessments; 1 half-year course in organizational psychology; 1 half-year course in personnel psychology; 2 half-year elective courses; internship of 500 hours; thesis.
Ph.D.: 3-year program (2-year residency requirement): 1 half-year course in topics in organizational psychology; 1 half-year course in topics in personnel psychology; 2 half-year independent research courses; 1 half-year elective course; dissertation. Students may have to take extra courses to make up for any deficiencies in their masters program.
- Tuition Costs:** M.S.c: Canadian and landed immigrants, \$3537/year. Ph.D.: Canadian and landed immigrants, \$5000/year.
- Housing:** Campus housing available.
- Financial Assistance:** Available for two years (M.Sc.) and for three years (Ph.D). Normally, all full-time students receive support. Teaching Assistantships (2006-2007): \$5000 per 8 months. Students are also eligible for University Fellowships and Scholarships. Average total support (2006-2007): MSc: \$14,500; Ph.D. \$20,000. All graduate students are eligible for Research Assistant positions, and Ph.D. students are eligible to teach undergraduate courses.
- Special Facilities and Resources:** The Psychology Department has behaviour analysis, cognitive, and general experimental laboratories, a small group-research lab, observation rooms, and a tests and measurements library. Support systems include Departmental and University computers (both mainframe and personal computers) and a technical workshop. The department maintains good working relations with institutions representative of a variety of practical settings (e.g., businesses, hospitals and government agencies), which frequently provide paid internship settings for the M.Sc. students. I/O graduate students have access to resources of the Saint Mary's M.B.A. and Ph.D programs. The students will also have the opportunity to participate in two research teaching and consulting centres: the Centre for Leadership Excellence and the CN Centre for Occupational Health & Safety.

- Support Staff:** 1 Psychology Technician, 1 Secretary, 1 Academic Adviser (as well as university IT support staff)
- Applications in 2006:** 32 applicants, 8 accepted.
- Anticipated Openings in 2007:** M.Sc.: 7-10; PhD.: 3.

Saint Thomas More College
University of Saskatchewan

St. Thomas More College is federated with the University of Saskatchewan, thus degrees are conferred by the University of Saskatchewan. For details, refer to University of Saskatchewan entry.

University of Saskatchewan
(Educational Psychology and Special Education)
Saskatoon, Saskatchewan

Department of Educational Psychology and Special Education:

The Department of Educational Psychology & Special Education has implemented three new post-degree programs. These three programs serve the needs of educators and other human service providers in the province by providing options for advanced study in several dimensions of Educational Psychology & Special Education. The academic year is 3 semesters. Degrees awarded: Master's and special case Ph.D.s. A Post Degree Certificate in Special Education is also available. <http://www.usask.education/edpse>.

Department Orientation: The goal is to prepare students for successful careers in applied educational psychology and special education settings and in research positions. The emphasis is on balancing applied educational psychology practice with related research.

Applications to be Addressed to: Graduate Studies Chair, Department of Educational Psychology and Special Education, University of Saskatchewan, 28 Campus Drive, Room 3104, Saskatoon, Saskatchewan, S7N 0X1. Telephone: Graduate Chair (306) 966-7723; Fax (306) 966-7716. E-mail: laurie.hellsten@usask.ca.

Admission Requirements: Requirements for an M.Ed. program in: 1) School & Counselling Psychology requirements are listed on the website at <http://www.usask.ca/education/edpse/gradstudies/index.htm>. 2) Special Education requirements include a four year degree in Education or Psychology, six credit units in Special Education, an introductory statistics course, and one year of work experience; 3) Measurement & Evaluation include a four year degree in Education or Psychology, an intermediate course in statistics as well as one year of work experience. Each program requires a minimum average of 70% in the last 60 credit

units. A Master's degree in Educational Psychology or Special Education or related field is required for consideration for a special case Ph.D. program.

- Student Statistics:** Master's program in School & Counselling Psychology is a minimum two year full-time residency program, which includes 36 credit units of course work, a practicum, plus a thesis. Master's program in Educational Psychology and Special Education is a minimum one year full-time residency program, which includes 18 credit units of course work plus a thesis.
- Tuition Costs:** Please refer to the College of Graduate Studies and Research web site for current tuition fees (www.usask.ca/cgsr)
- Financial Assistance:** There is a number of scholarships available to M.Ed. thesis candidates. One teaching fellowship is also available.
- Applications in 2006:**
- School & Counselling Psychology:* Total applications: 30; New students entering the program: 10.
- Special Education and Measurement:* Total applications: 23; New students entering the program: 12.
- Programme and Degrees Offered:**
- M.Ed. degrees are offered in three areas: School & Counselling Psychology, Measurement and Evaluation, and Special Education. These areas include: *School & Counselling Psychology* - Ethics in Counselling & School Psychology, Psychopathology, Assessment, Individual Interventions, Group Interventions. *Special Education & Measurement and Evaluation* – Theory of Educational & Psychological Measurement, Advanced Test Theory and Instrument Construction, Measuring Resiliency in Children with Exceptionalities, Language & Learning Disability, and Behaviour Disorders.
- University of Saskatchewan (Psychology)**
Saskatoon, Saskatchewan

<http://www.usask.ca/psychology>
- Department of Psychology:** Established 1949. Head: Valerie Thompson. Faculty: 23 Full-time, (6 Full Professors, 12 Associate Professors, 5 Assistant Professors) + 1 funded Forensic Chair + 5 appointed in St. Thomas More College + 1 Dean of Graduate Studies; 20 Part-time. There are numerous adjunct professors and professional affiliates in the wider community. Degrees awarded 1949 to 2003: M.A. 302, Ph.D. 116.
- Department Orientation:** Strong emphasis on research in a wide spectrum of topics, including laboratory and applied research. The scientist-practitioner model strives to develop psychologists with abilities in both theoretical and applied domains.
- Applications to be Addressed to:** Graduate Admissions, Department of Psychology, University of Saskatchewan, 9 Campus Drive, Saskatoon, SK, S7N 5A5. Phone 306-

966-6657; Fax 306-966-6630; Email psychology@usask.ca; website: <http://www.usask.ca/psychology/> Deadline for all programs is January 15th. Applicants will be required to pay an application fee of \$50 Canadian, payable to the U of S by certified cheque or money order. Detailed information package available from the department.

Tuition Costs 2005-2006:

The standard tuition for one term is \$1,000. International students will be assessed a differential tuition. More detailed information about tuition fees can be obtained at: <http://www.usask.ca/cqsr/tuitionmodel.html>

2006-2007 Student Statistics:

Full-time	M.A.	15	Ph.D.	36
Female	11/15	73%	28/36	78%
Male	4/15	27%	8/36	22%

Programme and Degrees Offered:

Clinical Psychology: Ph.D., accredited by CPA and APA (incoming students are initially accepted into a M.A. program).

Applied Social Psychology: M.A., Ph.D.

Basic Behavioural Science: M.A., Ph.D. (incoming students are initially accepted into an M.A. program).

Admission Requirements:

An Honours B.A. or B.Sc., with an A average in the last two years of study, is required for admission. Strong GRE scores in verbal, quantitative, analytical, and psychology are required in Clinical and Applied Social. GRE scores are not required for application to Basic Behavioural Science. Letters of reference, research experience and interest are important considerations.

Degree Requirements:

Ph.D. Clinical: 45 credit units including courses in basic areas of psychology, dissertation, comprehensive examination, four practica, one-year internship, 6-7 years average completion time including 1 year in M.A. program. See: www.usask.ca/psychology/clinprog/welcome.

M.A. Applied Social: 24 credit units, thesis, practicum, summer clerkship, 2-3 years average completion time.

M.A. Basic Behavioural Science: 15 credit units, thesis, average completion time 2-3 years. Students may transfer to the Ph.D. program after one year.

Ph.D. Applied Social: 21 credit units, dissertation, comprehensive examination, summer internship, 4-5 years average completion time.

Ph.D. Basic Behavioural Science: 21 credit units (including M.A. credits if rollover), dissertation, comprehensive examination, 4-5 years average completion time.

Financial Assistance:

Clinical - Graduate assistantships - teaching or research - approximately \$16,000 for up to 4 years (1 year in M.A. program plus 3 years in Ph.D. program) followed by paid internship.

Applied Social - M.A. - 2 years at \$16,000/year.

Applied Social- Ph.D- 2 years at \$16,000/year

Basic Behavioural Science - Funding (currently \$16,000/ year) is provided for M.A. year 1 and Ph.D. years 1-3.

**Applications for
Fall 2005 Admission:**

Applied Social M.A. - 20 applications received, 5 offers, 3 enrolled;
Ph.D. - 3 applications received, 0 offers, 0 enrolled.

Clinical M.A. (Transfer to Ph.D. after 1 year) - 54 applications received, 9 offers, 6 enrolled; **Ph.D.** - 9 applications received, 0 offers, 5 transfers from M.A.

Basic Behavioural Science M.A. - 22 applications , 13 offers, 8 enrolled; **Ph.D.** - 3 application received, 2 offers, 1 enrolled, 1 transfer from M.A.

Special Facilities or Resources: Psychological Services Centre, animal lab facilities, cognitive science lab with access to fMRI facilities, computer facilities.

Support Staff: 1 1/2 computer technician, 2 secretaries, 1 administrative assistant.

Université de Sherbrooke

Sherbrooke, Québec

Département de psychologie : (819) 821-7222 - Établi en 1959. L'année académique est divisée en trimestres.

Titre décerné : D.Ps.

Spécialisation : Le programme de doctorat professionnel se centre sur l'acquisition de compétences dans les huit domaines suivants : les relations interpersonnelles, l'évaluation, l'intervention, la consultation, la recherche, l'éthique et la déontologie, la gestion, la supervision. Il permet de choisir entre un profil davantage orienté vers l'aide auprès des individus ou un profil davantage orienté vers la consultation auprès des organisations. Le programme offre en outre la possibilité d'apprendre à intervenir en contexte de diversité culturelle.

Admissions : En 2006, il y a eu 115 demandes d'admission. Vingt et une personnes ont été admises.
Sont admissibles les candidates et les candidats ayant complété un baccalauréat spécialisé en psychologie décerné par une université québécoise, ou l'équivalent, et y ayant maintenu une moyenne cumulative de 3,2 sur 4,3.
Les demandes d'admission doivent parvenir, avant le 1^{er} février, pour une admission au mois de septembre suivant seulement, au Bureau du registraire, Université de Sherbrooke, Sherbrooke (Québec) J1K 2R1.

Régime des études : Le programme exige des étudiantes et des étudiants qu'ils soient inscrits à temps complet pendant huit trimestres répartis sur quatre années.

Coordonnées du département : Téléphone : (819) 821-7222
Télécopieur : (819) 821-7925
Courriel : psychologie@usherbrooke.ca
Site Web : <http://www.usherbrooke.ca/psychologie>

Directeur du département : Claude Charbonneau, Ph.D.

Simon Fraser University
Burnaby, British Columbia

Department of Psychology: Established 1965. Chair, Daniel Weeks, Ph.D.
Faculty: 42 full time (13 Professors, 10 Associate Professors, 15 Assistant Professors, 3 Senior Lecturers)
Academic year: trimester system
Degrees awarded from 1965 to 2006 inclusive: 302 Master's, 218

Ph.Ds.
First Ph.D. awarded in 1970 in the area of Neuroscience, first MA awarded in 1968 in the Developmental area.

Department Orientation: The department offers graduate work leading to MA and Ph.D. degrees in experimental and clinical psychology. Within the experimental and clinical programs, specialization is available in cognitive and biological psychology, developmental psychology, law and forensic psychology, social psychology, and theory and methods. The clinical program also offers specializations in child clinical psychology, clinical forensic psychology, and clinical neuropsychology. Simon Fraser University, in conjunction with the University of British Columbia, also effects the option of an LLB/Ph.D. program in Law and Forensic Psychology with either an experimental or clinical focus for the PhD component.

Applications to be addressed to: Graduate Program Assistant, Psychology Department, Simon Fraser University, Burnaby, B.C., V5A 1S6. Phone: 604-291-4367, Fax: 604-291-3427, Email: turner@sfu.ca, URL: <http://www.psyc.sfu.ca/>

Applicants are admitted only in the Fall Semester. Deadline for applications: January 3, 2007. Application fee: \$75.00. Students seeking admission must submit all supporting documents in one package: application, \$75.00 fee, GRE results, transcripts, letters of

reference, statement of intent, CV and check list. The TOEFL may be submitted separately. The GRE general test is required of all applicants. For applicants to the clinical program, the Advanced test in Psychology is also required.

Admission Requirements: The department reserves the right to admit only those for whom research space and appropriate faculty supervisors are available. Average scores of those accepted for admission in 2006: GRE-V 613; GRE-Q 677; GRE-ADV 738; PSYC GPA 3.99. Importance of non-objective criteria: previous research activity - high; work experience - low; clinically related public service - low; letters of recommendation - high.

2005-2006 Student Statistics: Full time: PhD 52, MA 39. 76% female, 24% male. 91 students are active in the graduate program.

Degree Requirements: *Experimental Program:* Students admitted to the MA program must achieve satisfactory performance in PSYC 824, 910, 911, two breadth courses and a minimum of two area courses, and must complete an MA thesis (PSYC 898). Ph.D. program students must complete a minimum of two area courses, comprehensive examinations, and a doctoral dissertation. The required courses and comprehensive exams must be completed within two years of entrance to the PhD program.

Clinical Program: MA students must complete satisfactorily the following: PSYC 744, 770, 820/821, 822/823, 824, 880 (practicum), 910, 911, 898 and two area courses. PhD students must complete PSYC 819, PSYC 999, two advanced assessment or intervention, courses, a breadth requirement, and two area courses. Students are not permitted to register in Ph.D courses beyond the 7th semester of the third program year until the MA thesis is complete. Students must enroll in PSYC 825 (ongoing clinical training) every semester that they are involved in the Clinical Psychology Centre.

In addition, students in Experimental and Clinical Psychology must participate in area research seminars (PSYC 913, 914, 916, 917, or 918) during their MA and Ph.D. programs and complete the requirements of their area specialization. Before applying for internships clinical students must successfully defend their dissertation proposal.

Specialized Programs within Department: Developmental Area: Child Clinical Stream
Law and Forensic Psychology Area: Clinical Forensic Stream
Cognitive and Biological Area: Clinical Neuropsychology Stream

Tuition Costs: Candidates for the Master's and Ph.D. degrees: currently \$1,731.59 per semester (4 months). Fees apply for resident and non-resident. Campus housing is available.

Financial Assistance: Available to all graduate students. Scholarships or fellowships: Apply to Dean of Graduate Studies. A Graduate Fellowship for one semester

is \$6,000.00. President's Dissertation Stipend is a \$6000.00 award for one semester at the Ph.D. level. Bert Henry Memorial Graduate Scholarship for candidates who hold a MA degree and plan to enter a PhD program, value \$18,000 disbursed over 3 consecutive semesters. C.D. Nelson Memorial Graduate Scholarship for candidates entering a graduate program valued at \$18,000 per annum. Many students also qualify for, and obtain, graduate scholarships from NSERC, SSHRC and other major external funding sources. Teaching assistantships: Apply to the Departmental Assistant. Hours of work per week, on average, is 15. Tuition is not exempt. Currently, teaching assistantships for MA candidates is \$5,155 per semester; for Ph.D. candidates is \$6,085 per semester. For work as a research assistant, students may apply to a professor with compatible research interests.

Special Facilities or Resources: A video-conferencing room, dedicated computing laboratories, including a microcomputer lab (18 current PCs, a laser printer and scanner). A wide variety of software is available, including word processing software (Word), statistics and math (SPSS, SAS, BMDP, SYSTAT, MathCAD, etc.), spreadsheets, databases, graphics programs, email, web facilities, and other internet applications. Neuroscience labs at the Animal Care Facility are well equipped for physiological and behavioural investigations of the nervous system, as well as advanced microscopy and image analysis. Supervised contact with clinical clients is offered through the large and well-appointed Clinical Psychology Centre, and the department maintains a comprehensive Test Library of assessment instruments. The Mental Health, Law and Policy Institute contains extensive research and work space and mock jury rooms and facilities.

Support Staff: 1 Manager, Academic & Administrative Services, 1 Undergraduate Advisor, 1 Graduate Program Advisor, 1 Clinical Psychology Centre Co-ordinator, 1 Information Technology Manager, 1 Computer and Network Technician, 1 Electronics Technician, 1 Teaching and Research Resource Assistant, 1 Information Specialist, 3 Clerical Staff.

Research and Clinical Space: Approximately 33,000 square feet. Includes the training clinic (Clinical Psychology Centre).

Typical Requirements for Academic Staff Appointments: The minimum requirement is a Ph.D. The language requirement is English. Additional requirements will vary according to the position being filled. Recent vacancies were in clinical, theory & methods, law & forensic and social. Present areas of excellence include psychophysiology, developmental, cognition and perception, social, clinical and psychology and the law.

University of Toronto
Toronto, Ontario

Department of Psychology: Established 1891. For year 2005-2006 – Chair: F. J. Vaccarino. Graduate Faculty: 84 Full Professors (plus 28 cross-appointed), 1 Associate Professor. Academic year system – two terms. Degrees awarded from 1927 to 2006 inclusive: 1037 Master's, 423 Ph.D. Largest number of degrees awarded in the area of Experimental Psychology. First Ph.D. awarded in 1906. First M.A. awarded in 1922.

Department Orientation: The Department is research oriented, including Applied Research.

Applications to be Addressed to: Graduate Studies, Department of Psychology, University of Toronto, 100 St. George Street, Toronto, Ontario, M5S 3G3, tel: (416) 978-3404, fax: (416) 978-4811, e-mail: grad@psych.utoronto.ca. Web: www.psych.utoronto.ca Deadline, January 15. Fee, \$90.00 (Cdn) or \$65.00 (US).

Admission Requirements: B.A. or B.Sc. with at least 6 full year courses in psychology, including statistics and a lab course. Grade average of at least A- or equivalent is usually required. NOTE: Students may be admissible with fewer than 12 semester courses in psychology. Students with a strong background in mathematics, physical science, biological science or computer science are especially encouraged to apply even if they have fewer than the suggested number of psychology courses.

Average Scores of Students

Admitted in 2005 for Master's: GRE-V 578. GRE-Q 697. GRE-A 5.4 Psychology 744.

2005-2006 Student Statistics: Full-time, Ph.D. 78, M.A. 34. First year, 32% male, 68% female.

Degree Requirements: *Master's:* 2 1/2 courses plus thesis, 1 year's residence (including a compulsory advanced research course).

Ph.D.: 6 courses, plus thesis. 2 years' residence.

Tuition Costs for 2005-2006

(Sept.-August): Full-time, Canadian \$6,215 Visa \$12,773 (some International student support available). Campus housing is available.

Financial Assistance: Fellowships – Connaught Scholarships – \$15,000 plus tuition and fees. University of Toronto Fellowships, Teaching assistantships, Research assistantships – A minimum level of \$15,000 plus tuition and fees per year is guaranteed.

Applications for 2005-2006: 194 applicants, 41 offered admission.

Typical Requirements for

Academic Staff Appointments: Requirement of teaching experience depends on rank; desirable for new Ph.D. but not essential. Demonstrated excellence in research. Published papers in refereed journals highly desirable. English language required.

Deadline: February 15

GRADUATE GUIDE 2006 - 2007

Admission Requirements:	B.A. in Honours Psychology or an equivalent four-year program with additional psychology courses. A basic counselling skills course. GPA above 3.0 or "B" with minimum grades for four (4) upper level Major courses at/above 3.7 or "A-". Two years social service experience. References. Personal Goal Statement. Community Standards agreement. Video (20 mins) & Interview.
Student Statistics:	2005-2006; 92 FTE enrolled
Degree Requirements:	M.A. requires 15 courses at 3 credits each plus a 100-hour practicum, 600-hour internship, electives, and either a 6 credit Thesis or a Comprehensive Exam.
Tuition Costs: 2005-2006:	Canadian M.A. - \$6,156 per semester (15 credit hours). On-campus housing available.
Financial Assistance:	Graduate Assistantships – Teaching or Research; Bursaries, Awards and Canadian Graduate Scholarships (SSHRC).
Applications in 2006:	51, accepted 29 FTE
Special Facilities or Resources:	Program computer facilities with various statistical programs (e.g. AMOS, SPSS, etc.), Training Clinic, Internship Placements, Psychological Test Library.
Support Staff:	Director of Fraser River Counselling (Training Clinic), Program Services Coordinator, Office Coordinator; Testing Library Assistant, Statistical and Research Assistants.
Research and Clinical Space:	Training Clinic; 1,000 square feet; Research; 7,000 square feet; Administration; 1,000 square feet.

University of Victoria (Educational Psychology)

Victoria, British Columbia

URL: <http://www.educ.uvic.ca/epl/>

Department of Educational Psychology and Leadership

Studies: Established 1963. Dr. Anne Marshall, Chair. Full-time Faculty: 15. 4 Professors, 4 Associate Professors and 7 Assistant Professors. Academic year: Fall, Spring and Summer (with limited offerings in the latter term) semesters.

Programs and Degrees Offered: The Educational Psychology Sections (EP) of the Department of Educational Psychology and Leadership Studies in the Faculty of Education offers graduate programs leading to the Master of Education (MEd), Master of Arts (MA), and Doctor of Philosophy (PhD) degrees. Within the MEd and MA, EP offers four programs of study: Counselling Psychology, Learning and Development, Measurement and Evaluation, and Special Education. The Masters of Education is course-based and includes a project. It is intended for people who have

professional accreditation/development as a goal. The Masters of Arts is a thesis-based, research degree designed for individuals who intend to pursue further graduate studies. Detailed descriptions of the programs of study can be found on the Departmental Website.

Address for Inquiries: Department of Educational Psychology and Leadership Studies, Faculty of Education, University of Victoria, Box 3010, Victoria BC, V8W 3N4. Graduate Assistant Telephone (250) 721-7883, Email epslsgrad@uvic.ca, Fax (250) 721-6190

Applications: Application deadlines vary by program, please see Departmental website for details. Application information can be obtained from <http://registrar.uvic.ca/grad/admission-checklist.html>
Mailing Address for Applications: Graduate Admissions and Records, University of Victoria, PO Box 3025 STN CSC, Victoria BC, V8W 3P2. Phone: 250 472-4657; Fax: 250-472-5420

Admission Requirements: Admission requirements vary as a function of program. Please see the Departmental website for specific program details.

Student Statistics: 2006-2007: 14 PhD; 32 MA (full-time); 80 MEd (32 full-time, 48 part-time). Gender distribution: 15% Males, 85% Females.

Degree Requirements: *Master's:* Requirements vary across program. A minimum of 18 units of course work is required for the MEd and MA programs. The MEd course work includes a research project and a comprehensive exam. The MA course work includes statistics and methods courses, and a thesis with an oral defense.

Doctoral: Programs must include a minimum of 15 units of course work and 30 units of dissertation. While there may be variation from student to student in the unit values of course work versus dissertation (e.g., 20 units course work and 25 units of dissertation), the student's program of studies must consist of a minimum of 45 units. One year of residence is required.

Includes a 3 unit graduate proseminar in educational psychology, advanced statistics, 3 additional units of research methodology, candidacy examinations, and a dissertation.

Tuition Costs: Full-time registration fee of \$1,527.40 per term for Canadians and permanent residents. \$1,817.50 per term for VISA students. Effective May 1, 2006.

Financial Assistance: The University of Victoria awards a limited number of Graduate Fellowships (Master's, to a max of \$13,500; PhD, \$15,000) students of high academic standing registered full time as candidates or provisional candidates for a degree. No duties are involved. Paid Assistantships (research and teaching) are available within the Department of Educational Psychology & Leadership Studies to a limited number of

qualified students. The number of teaching and research assistantships varies yearly.

**Anticipated Openings for
Full-time Program**

September 2006: 4 to 16 per program

Research and Clinical Space: Includes approximately 7 research offices, 2 interview rooms with one-way mirrors, audio/video facilities, and use of community agencies for practicum placements.

Support Staff: Educational librarian, computer technicians, audiovisual technicians, and 5 departmental secretaries.

Fax: (250) 721-8929

E-Mail: ptaylor@uvic.ca

URL: <http://www.web.uvic.ca/psyc/>

Department of Psychology: Established 1963. Chair: Elizabeth Brimacombe. Faculty: 30 Full-time (10 Full Professors, 12 Associate Professors, 5 Assistant Professors, 3 Senior Instructor). Academic year system, tri-semester. Degrees awarded from 1968 to June 2006 inclusive: 261 Master's, 195 Ph.D. Largest number of degrees awarded in the area of Clinical Neuropsychology. First Ph.D. awarded in 1969 in human neuropsychology. First Master's awarded in 1968 in general experimental.

Department Orientation: Life-Span Development, Neuropsychology (Experimental), Cognition, Clinical (Clinical Neuropsychology and Clinical-Life-Span programs only), Individualized (Environmental, Eyewitness Memory, Quantitative, Social, Behavioural). The program is oriented toward a Ph.D., although a Master's degree (obtained here or elsewhere) is one of the normal requirements.

Applications to be Addressed to: Admissions, Faculty of Graduate Studies, University of Victoria, P.O. Box 3025, Stn CSC, Victoria, B.C., V8W 3P2. Programme Information and Financial Assistance same as Admissions. Deadline for Fellowships: Second working day in January. Fee: \$75.00 domestic, \$125.00 foreign.

Admission Requirements: Verbal, Quantitative and Analytical scores from the Graduate Record Examination. Baccalaureate degree with grade point average of at least B+. Foreign students for whom English is not a major language must

GRADUATE GUIDE 2006 - 2007

take the Test of English as a Foreign Language (TOEFL) and obtain a score of at least 600. Personal letter stating interests and goals required of all applicants; personal interview for students applying for clinical training.

Student Statistics 2006-2007: Full-time Ph.D. 51, Master's 31. First year students: 6 female, 3 male. All faculty are active in the graduate programme.

Average Scores of Students

Admitted for 2006 Master's: GPA A-/A in last two years of study.

Degree Requirements:

M.Sc. And M.A.: (a) Advanced Research Methods, (b) Undergraduate or equivalent preparation in 5 basic areas of psychology, e.g., Biological/Neuropsychology, Learning/Cognition/Perception, Social/Environmental, Developmental, Personality/Abnormal, (c) Research Apprenticeship, and (d) Thesis.

Ph.D.: Same as above plus comprehensive examinations in major and minor area, methods course requirements, plus dissertation. Specific competence and program requirements apply to students admitted to the clinical programme.

Tuition Costs:

Full-time per term: \$1,527.40 domestic, \$1,817.50 foreign. Re-registration fees are levied for late completion of programme requirements. Also, \$180 per term for athletics and graduate student society fees. \$360 annual medical and dental coverage. Limited campus housing available.

Financial Assistance:

Fellowships of \$13,400 over 12 months for Master's, \$15,000 for Ph.D. Renewable for second year at Master's level and third year at Ph.D. level. Additional top-up funding of \$3,000-\$7,000 is given to fellowship and national award (e.g., NSERC, SSHRC, CIHR) winners. Teaching assistantships of approximately \$3,000-\$7,000 for 8 months, with potential supplement of additional \$1,000-\$3,000 maximum. Some faculty provide research assistantships.

Programmes and

Degrees Offered:

M.A. and M.Sc. and Ph.D. in Life-Span Development Neuropsychology (Experimental), Cognition, Clinical (Neuropsychology and Clinical Life-Span programs only), Individualized Programs.

Facilities:

The Department of Psychology is located in the Cornett Building on campus. Fully-equipped facilities include a psychology clinic operating as an outpatient service with teaching clinic; large observation rooms with audio and video recording equipment for the study of group-interaction and other social processes; microcomputer-based cognition laboratories; experimental rooms with one-way mirrors; electrophysiological recording rooms; and specialized labs for the study of visual and auditory perception. We have recently constructed a new

Brain and Cognition Laboratory featuring two state-of-the-art event-related potential (ERP) systems. The Department enjoys good community contact with local hospitals (general, rehabilitation, and extended care), schools, and private government agencies, which provide sites for both research and practicum experiences.

Support Staff: 1 administrative officer, 1 psychometrician, 1 computer programmer, 3 secretaries, 1 receptionist, 1 electronics technician.

University of Waterloo

Waterloo, Ontario

Department of Psychology: Established 1963. Chair: Dr. Mike Dixon. Faculty: 35 Full-time, 10 part-time. Academic year system – trimester. Degrees awarded from 1973 to June 2005 inclusive: 628 Master's, 423 Ph.D. Largest number of degrees awarded in the Clinical area. First Ph.D. awarded in 1965 in the Social area. First M.A. awarded in 1964 in the Developmental area.

Department Orientation, Objectives and Emphasis: Heavily research oriented in both applied and basic areas.

Applications to be Addressed to: Graduate Programs Assistant, Department of Psychology, University of Waterloo, Waterloo, Ontario N2L 3G1. Deadline, December 15th (for Clinical and Social programs); January 15th for all other programs for September entry. Application Fee, \$75.00. Telephone: 519-888-4567, ext. 32043. Fax: 519-746-8631. E-mail: gradinfo.psych@uwaterloo.ca. Url address: <http://www.psychology.uwaterloo.ca/>

Programmes and Degrees Offered: M.A. (nonterminal) in same areas as Ph.D.; M.A.Sc. (Master of Applied Science) in Developmental, Industrial/Organizational; Ph.D. in Behavioural/Cognitive Neuroscience, Clinical, Cognition, Developmental, Industrial/Organizational, Social. (Ph.D. in several applied areas through Special Programmes arrangement – students must have MA.)

Admission Requirements: Undergraduate Psychology, Honours degree in Psychology or approved equivalent. Graduate Record Exam: Verbal, Quantitative and

Analytical scores. Minimum scores for admission: Master's programmes: GPA B; psych GPA B. Doctoral programmes: GPA B; psych GPA B. Importance of nonobjective criteria: previous research activity, high; work experience, medium; extra-curricular activity, low; clinically related public service, low; letters of recommendation, high; reputation of referee, medium.

Average Scores of

Students Admitted in 2006: GRE-V 78%. GRE-Q 61%. GRE-An. 5.21. GRE-Adv 75%. Overall GPA=A. Psych GPA=A.

2005-2006 Student Statistics: Full-time Ph.D. 54, M.A. 15, M.A.Sc. 10, Part-time Ph.D. 4, Part-time M.A.Sc. 1. First year 25.

Degree Requirements: *M.A.Sc.:* 8 one-term course units including a research project plus one-term internship; 5 terms average time from HBA to complete M.A.Sc.

Ph.D.: 3 years course work, breadth requirements, thesis; 4 years time from HBA to complete Ph.D. Clinical Ph.D. entails an additional year internship.

Tuition Costs: Canadian Citizens or Permanent Resident, \$2146 per term. International Students, \$5266 per term. (Continuous registration required; one year equals three terms.) Some on-campus housing available.

Financial Assistance: Teaching Assistantships: \$5000 per term. Teaching Fellowships: \$6400 per year. External awards (e.g., SSHRC, OGS, NSERC, CIHR). Various fellowships and teaching assistantships are available on a competitive basis.

Applications for 2006-2007: Behavioural Neuroscience, 15 applications, 1 accepted. Clinical Psychology, 134 applications, 6 accepted. Cognitive Psychology, 10 applications, 7 accepted. Developmental Psychology, 13 applications, 4 accepted. Industrial/Organizational, 30 applications, 6 accepted. Social Psychology, 30 applications, 7 accepted. M.A.Sc., 11 applications, 4 accepted. Special Programmes, 1 application, 1 accepted.

Anticipated Openings in 2007: Behavioural Neuroscience, 3; Clinical, 5; Cognition, 4; Developmental, 4; Industrial/Organizational, 4; Social, 4; M.A.Sc., 5.

Special Facilities or Resources: Infant Study Lab, Preschool, Social, Cognition and Behavioural Neuroscience Labs, Clinic.

Support Staff: 1 animal care technician, 4 preschool teachers, 1 shop technicians, 1 histologist, 2 computer consultants.

Research and Clinical Space: Clinic – approx. 2,500 sq. ft. Special Purpose Lab space – approx. 23,000 sq. ft. General Purpose Lab. Space – approximately 24,000 sq. ft.

The University of Western Ontario (Education)

London, Ontario

The Faculty of Education: Established 1965. Chair M.Ed. (Counselling Psychology): Dr. Susan Rodger. Faculty: Full-time 4; Adjunct 1; Part-time 2. Academic year system – three terms. First M.Ed. awarded 1976 (area Counselling), First Educational Studies M.Ed. awarded 1977.

Programmes and

Degrees Offered: M.Ed. (Counselling Psychology), M.Ed.; Educational Psychology, Special Education.

Address Applications to: Chair, Graduate Studies, Faculty of Education, The University of Western Ontario, London, Ontario, N6G 1G7, tel: 519-661-2099; fax 519-661-3833. Deadline February 1. E-mail: graded@uwo.ca; www.edu.uwo.ca/graduate

Admission Requirements: M.Ed.: a minimum of a four-year degree, preferably Honours or equivalent from an approved university with at least a B average in the final two years of study or equivalent. For the M.Ed. in Counselling Psychology, a background in psychology is required. At least five courses, three of which are in the fields of social, developmental or personality psychology, will satisfy this requirement. In addition, elementary research methods are recommended.

Degree Requirements: M.Ed. Counselling Psychology: requires at least five terms if taken full-time. The Program includes an integrated set of five required courses and three half courses as electives. An internship is required during the last two terms. A thesis option is available.

M.Ed Educational Studies: consists of a minimum of ten half courses (including directed research project) of which four are compulsory; or six half courses, plus a thesis. Candidates must select either a major Project or a Thesis.

Ph.D.: two full required courses, 4 elective half courses in an area of specialization, a qualifying examination, and a thesis.

Tuition Costs: (Subject to change) Each academic year has 3 terms, the numbers quoted here are for each term for the 2006-2007 academic year: \$2,693.03, Full-time students; \$1,214.04; Part-time students; International students: \$6,088.03.

- Financial Assistance:** Teaching and/or Assistantships available. U.W.O. Centennial Graduate Fellowships for Secondary and Elementary School Teachers (request Faculty of Graduate Studies Calendar for information).
- Department Orientation:** Courses for the M.Ed. Counselling Psychology are primarily taken in the Counselling Psychology Program, with the option of taking selected electives from other programs and faculties.
- Special Facilities or Resources:** Observation facilities for observing counselling; computer services centre at faculty; cooperation with school boards and agencies in research, development and teaching.

The University of Western Ontario (Psychology)

Department of Psychology

London, Ontario N6A 5C2

Tel: 519-661-2064

Fax: 519-661-3961

www url: <http://www.ssc.uwo.ca/psychology/graduate.htm>

E-mail: psych-grad@uwo.ca

- Department of Psychology:** Established 1931. Chairperson: Dr. K.- Peter Ossenkopp. Faculty, 52 Full-time, 10 Part-time. Academic year system – 3 terms. First Ph.D. awarded in 1953. First M.A. awarded in 1933.
- Department Orientation:** The emphasis of the graduate programme is scientific involvement in the traditional fields of the discipline, coupled with advanced training in the application of psychology based on a scientist-practitioner model.
- Applications to be Addressed to:** The Graduate Program Office, Department of Psychology, The University of Western Ontario, 1151 Richmond Street, London, ON, Canada, N6A 5C2. Deadline: January 15. Please download & print application materials from the website: <http://www/ssc.uwo.ca/psychology>
- Admission Requirements:**
- M.Sc. Degree:* An applicant should have obtained an honours degree in Psychology, or its equivalent, with at least an A-(80%) standing in the final two years of undergraduate study.
- Ph.D. Degree:* A Masters degree (M.A. or M.Sc.) in psychology is currently required for admission as Ph.D. candidate in the Department.

Programmes and

Degrees Offered:

Full-time only. M.Sc. and Ph.D.: Behavioural and Cognitive Neuroscience, Clinical (accredited by CPA); Cognition and Perception; Developmental; Industrial /Organizational; Personality and Measurement; Social.

2005-2006 Student Statistics:

Ph.D.71; M.Sc.- 43; First year 22: 68% female , 32% male.

Degree Requirements:

M.Sc.: Candidates are required to take a course in research design, two half courses in their area of specialization, and two half courses outside their principal area. The specifics of this rule are available from the Graduate Program Office website. A thesis based on an empirical or theoretical investigation must also be submitted.

The minimum residence requirement is three terms of full-time study by a candidate entering with a Canadian Honours degree or its equivalent (four year degree with nine full courses or fourteen half courses in psychology). Students accepted into the Ph.D. program must finish the M.Sc. by August 31st if they wish to become Ph.D. candidates in the Fall. Failure to complete the M.Sc. before the end of the Fall term requires reapplication by January 15 for Ph.D. admission. If the M.Sc. program is completed by the end of the Fall term, the status of the student will be altered to Ph.D. at the beginning of the Winter term provided the result of the thesis examination is positive and department approval is forthcoming. A M.Sc. of high quality must be completed for continuation into the Ph.D. program.

Ph.D.: The emphasis is on the training of scientists, with students in clinical areas trained on the scientist-practitioner model. The program typically includes graduate seminars and tutorials, a comprehensive examination in one area of specialization, and a dissertation based on a research project. The minimum residence requirement is six terms of full-time study after a Master's degree but completion of the degree may require a period extending beyond the minimum.

Tuition Costs:

Graduate fees for Canadian citizens and Landed Immigrants for 2005-2006 are \$2,109.37 per term, for a three-term total of \$6,328.11. For students outside Canada who are neither Canadian citizens nor Landed Immigrants, the fees are \$4,488.03, for a three-term total of \$13,464.09(including mandatory health insurance premiums). International students with a "A" average are eligible to be considered for a fee bursary which reduces their fees to the same as those of Canadian citizens and Landed Immigrants.

Financial Assistance:

Students holding major scholarships (e.g., Ontario Graduate Scholarships, Natural Sciences and Engineering Research Council; Social Sciences and Humanities Research Council; Canadian Institutes of Health Research) may be offered supplementary teaching assistantships. Teaching assistantships are not available for the summer term. Students may be able to obtain summer research assistantships but these cannot be guaranteed.

Sources of support include: Graduate Tuition Scholarships, Western Scholarship for Graduate Study, Graduate Teaching Assistantships,

Research Assistantships: Academic year or Summer months. The number and amounts vary.

Applications in 2004: Behavioural and Cognitive Neuroscience, 17 applications, 7 accepted; Clinical Psychology, 106 applications, 7 accepted. Cognition and Perception, 13 applications, 8 accepted. Developmental, 16 applications, 6 accepted. Industrial/Organizational, 23 applications, 5 accepted. Personality and Measurement, 1 applications, 1 accepted. Social , 40 applications, 8 accepted.

Anticipated Openings in 2007: For the Department overall – 25.

Special Facilities or Resources: Special Facilities or Resources: Facilities for experimental research in the Social Science Centre include animal laboratories, rooms specially designed for research with research participants in perception, psychophysiology, learning, developmental, personality and experimental social psychology and, in addition, a preschool for observation and research into child development, early childhood education, curricula, materials and teaching methods. A broad range of equipment is available, and additional special equipment necessary for a student's research may be obtained. Facilities to aid in conducting experiments include sophisticated general and dedicated laboratory computers. An engineering shop, an audio-visual unit, a workshop, and electronic consultants are available. The department also has easy access to Social Science Network and Data Services which provides instructional, word processing and research services. Potential field settings (and sources of subjects for research) include schools, psychiatric and general hospitals.

Department of Psychology: Established 1960. Chairperson: Geoff Nelson (e-mail: gnelson@wlu.ca)
 Faculty: 32 Full-time, (9 Full Professors, 8 Associate Professors, 14 Assistant Professors, 1 Lecturer). 30 professors active in graduate program. Academic year system-semester. Degrees awarded from 1990 to 2006 inclusive: Brain & Cognition 50 Social & Developmental 84, Community 114. Fax: (519) 746-7605

- Department Orientation:** The department's graduate program includes the fields of Brain and Cognition, Social and Developmental Psychology, and Community Psychology. The Brain and Cognition research strengths include cognitive and behavioural neuroscience, cognition, and perception. The Social and Developmental research strengths include social cognition across the life span, life transitions and values, cognitive factors in lifelong learning, self-concept, and interpersonal relationships. The Community Psychology research strengths include primary prevention for children, youth, and families, community-based development and community mental health for adults, and culture and gender diversity. The department is very cohesive, and emphasizes strong and immediate faculty/student interaction.
- Programs and Degrees:** Offered: M.A., M.Sc. and Ph.D. with specialization in one of three fields: 1) Brain and Cognition 2) Social and Developmental Psychology 3) Community Psychology.
- Applications to be Addressed to:** Admissions, Faculty of Graduate Studies, Wilfrid Laurier University, Waterloo, Ontario N2L 3C5. We are moving to on-line admissions, please check our website.
- MA Admission Requirements:** The University requires a minimum of a second class honours or "B" standing in the fourth year of an Honours Program or equivalent. Normally, the department requires a minimum overall grade of B+ and standing in research design, statistics and an undergraduate thesis. Applicants who meet the minimum requirements are invited to visit the university to meet the faculty and be interviewed by them as part of the selection procedure. Applicants should ensure their applications are completed by February 1st. Application fee \$75.
- PhD Admission Requirements:** The University requires a minimum of an "A-" average in masters level courses. Applicants who meet the minimum requirements are invited to visit the university to meet the faculty and be interviewed by them as part of the selection procedure. Applicants should ensure their applications are completed by February 1st. Application fee \$75.
- 2005-06 Student Statistics:** Brain and Cognition: Full-time 11, Part-time 0. First year - 3 Male, 0 Female.
- 2005-06 Student Statistics:** Social and Developmental: Full-time 25, Part-time 0. First year - 1 Male, 7 Female.
- 2005-06 Student Statistics:** Community: Full-time 25 Part-time 2. First year - 3 Male, 6 Female.
- MA, Msc. Degree Requirements:** Brain and Cognition and Social and Developmental Psychology fields: - five term courses and a thesis, 1-2 years to complete program. Community Psychology field - two theory courses, two methods courses, two practica, and a thesis, 2 years to complete program.
- Ph.D. Degree Requirements:** Brain and Cognition and Social and Developmental Psychology fields - 7 term courses, 2 comprehensives, dissertation. Community Psychology field - 6 term courses, 2 comprehensives, dissertation.
- Tuition Costs: M.A.:** Full-time: \$1,877.40. per term. Visa students \$4,219.80 per term.

Financial Assistance: For Masters students: University Scholarships up to \$5,000; 3 terms Teaching or Research Fellowships \$4,100 per term; Research assistantships from individual faculty research grants.

For PhD students: Up to 4 years at a minimum of \$16,000 per year, consisting of scholarships, Teaching or Research Fellowships and advisor support.

MA, MSc Applications in 2006-07:

Brain and Cognition: 13 applications, 3 accepted
Social and Developmental: 28 applications, 4 accepted
Community: 27 applications, 7 accepted

PhD Applications in 2006-07:

Brain and Cognition: 2 applications, 0 accepted
Social and Developmental: 10 applications, 4 accepted
Community: 6 applications, 2 accepted

Anticipated MA, Msc Openings in 2007:

Brain and Cognition: 6. Social and Developmental: 6. Community: 6.

Anticipated PhD Openings in 2007:

Brain and Cognition: 3. Social and Developmental: 3. Community: 3.

Support Staff:

1 Lab Coordinator/Ethics Coordinator, 1 Electronics Research Technician involved in computer software and hardware design and development, 2 Animal Care Staff, 1 Graduate Program Assistant.

Special Facilities or Resources:

Animal research labs: Four large research suites with multiple testing rooms and a central area; small animal surgery and bioprocedure rooms. Several different human research laboratories equipped for: Cognitive research; Neurocognition (EEG); Perception; social and Developmental research (with facilities in a daycare setting). General Department Resources: over sixty different nonacademic community settings available for placement of both graduate and undergraduate students; electronics workshop.

Research and Clinical Space:

We presently have more than 1080 square meters of dedicated research space, including human and animal research.

**University of Windsor
Windsor, Ontario**

Department of Psychology:

Established 1944. Head: Dr. Shelagh Towson (towson@uwindsor.ca). Faculty: 33 Full-time (7 Full Professors, 12 Associate Professors, 14 Assistant Professors). Academic year system - semester. Degrees awarded from 1961 to 2005 inclusive, 602 Master's, 417 Ph.D. Clinical program accredited by CPA and APA. Telephone: (519) 253-3000, Ext. 2215, Fax: (519) 973-7021. University web site: www.uwindsor.ca/psychlogy.

GRADUATE GUIDE 2006 - 2007

- Department Orientation:** Both research and practice are emphasized and required. Students may follow specialties in Adult Clinical, Child Clinical, Clinical Neuropsychology and Applied Social.
- Applications to be Addressed to:** Applicant Services, Graduate Division, Office of the Registrar, University of Windsor, 401 Sunset Ave., Windsor, Ontario, Canada N9B 3P4. Fax: (519) 971-3653. Deadline, January 15. Fee, \$55 (U.S. - equivalent as per exchange rate at time of application).
- Admission Requirements:** Master's and Ph.D. programs: A prospective student should have an Honours B.A. in psychology or its equivalent: 18-20 semester psychology courses including introductory psychology, basic and intermediate statistics, and laboratory courses in learning and experimental methods. Students should also have completed an Honours B.A. thesis or its equivalent. Graduate Record Exam (GRE) (subject and general tests - minimum 60th percentile); Letters of recommendation (3); minimum GPA - B (3.00 - 9 on 13 pt. scale); minimum Psych GPA - B (3.00 - 9 on 13 pt. scale). Importance of non-objective criteria: previous research activity (high); letters of recommendation (high); work experience (low); extracurricular activity (low) clinical-related public service (low).
- 2005-06 Student Statistics:** Full-time Ph.D. 111; Part-time Ph.D. none. Most academic staff are active in the graduate programme.
- 2005-06 Admissions** Number of applicants: 179. Number of positions filled: 18. Mean scores of students admitted: GRE-V 70%, GRE-Q 56%, GRE-A 85%, GRE-Adv. Psych. 82%, Overall GPA 11.12 (13 pt. Scale), 2-year GPA 11.59 (13 pt. Scale), Psych. GPA 11.72 (13 pt. Scale).
- 2007 Anticipated Openings:** 17
- Degree Requirements:**
- Combined MA/PhD.** Program is designed as a continuous program whereby students cannot proceed until they have completed MA requirements. Courses, practica and thesis required for the MA are not intended to form a "stand-alone" package. Progress through the MA will be reviewed to determine continuation to doctoral level studies. Students entering the program with an already completed terminal MA (with thesis) complete the PhD part of the program only. Students not having completed an MA thesis will be required to complete thesis equivalent project.
- Ph.D.** (1) M.A. thesis; (2) Course work. The number of courses beyond the Honours B.A. depends upon the program that the student chooses. Up to six semester courses may be accepted for credit from another university. Required courses include courses in the student's area of specialization and courses related to methodology, biological bases of behaviour, cognitive/affective bases of behaviour, ethics, and the historical foundations of psychology. Students must also complete practicum and internship requirements; (3) Comprehensive Examination in student's area of specialization. Successful completion of this examination admits the student to doctoral candidacy; (4) Dissertation. The principal requirement for the Ph.D. degree in Psychology is the presentation of a dissertation which embodies the results of an original investigation. The results should constitute a significant and original contribution to knowledge.

Tuition Costs: Resident \$1772 per term. Non-resident: Visa students \$3095 per term. Compulsory fees approx. \$400 per term. Campus housing is available. Rates subject to change. (Student must be registered for all 3 semesters: fall, winter, summer.)

Special Facilities or Resources: The Department has several research service facilities. The Child Study Centre includes a furnished suite of rooms for child therapy, videotaping equipment, and a small microcomputer laboratory. The Psychological Services Centre and the Student Counselling Centre provide practicum and research opportunities for students in the Clinical and Applied Social programs. The Health Psychology Research Office (HPRO) is used for research in the fields of health and community psychology, and also provides a storage facility for community/health-related research and reference materials, as well as a small library of social and attitudinal measures. The Cognitive Neuropsychology lab is a 2,000 square foot laboratory fully equipped with various computer platforms to enable students to obtain hands-on experience in experimental design and implementation. The lab also has portable computers for off-site testing of neurological patients and school aged children. The Clinical Therapy research lab is located on the second floor of the main psychology building. The research focuses on the development and evaluation of psychological treatments for adult problems stemming from childhood trauma and includes the evaluation of treatment efficacy as well as the active ingredients of change (client and therapist factors and in-session processes). Other department labs include the Multicultural Clinical and Counselling Research Lab; the Centre for Study of Cognition and Function; and the Applied Cognition Lab.

A number of research groups exist in the department and meet on a regular basis during the fall and winter semesters. These groups involve topics such as: health psychology, feminist issues, forgiveness, emotional competence, suicidology, cultural psychology and trauma and psychotherapy, clinical therapy, and violence against women.

Support Staff: 5 secretaries, 1 electronics technician.

Research and Clinical Space: 26,000 square feet.

Typical Requirements for Academic Staff Teaching experience preferred. Evidence of scholarly productivity. English language proficiency.

York University
Toronto, Ontario
 Tel: 416-736-5290
 Fax: 416-736-5814
 www url: www.yorku.ca

Department of Psychology: Graduate Program established 1964, Director: Regina Schuller. Telephone (416)736-5290; FAX (416)736-5814. Faculty: 76 Full-time, 30 Part-time, 18 Professors Emeriti (24 Full Professors, 39 Associate Professors, 13

Assistant Professors, 28 Adjunct). Academic year system – semester. First M.A. awarded in 1966. First Ph.D. awarded in 1969.

Department Orientation: Training is offered in six major areas of specialization, Clinical, Clinical/Developmental, Brain Behaviour and Cognitive Sciences, Developmental and Cognitive processes, Social/Personality, and History and Theory.

Application to be Addressed to: Graduate Admissions Office, P.O. Box GA 2300, York University, 4700 Keele Street, Toronto, Ontario, M3J 1P3. Deadline, December 15th, Fee, \$80.00.

Admission Requirements: *M.A.:* The usual requirement for admission is an honours degree in psychology or its equivalent (at least eight full courses in psychology). Candidates must have obtained an average grade of B+ or higher in the last two years of study. For students not applying to the Clinical area, the honours degree equivalent should include: the equivalent of one full course in Introductory Psychology, Learning, Motivation, Perception, or Physiological Psychology; a full course in Research Design and Statistical Analysis; one full or two half courses in Child Psychology, Social Psychology, Abnormal Psychology, Personality Theory, Behaviour Disorders; one full or two half courses in Experimental Psychology; four other full Psychology courses or the equivalent. For students applying to the Clinical area, the honours degree equivalent should include: one full course in Introductory Psychology; one full course in Research Design and Statistical Analysis, and the equivalent of six other full courses in psychology. The latter should include one full course or two half courses in each of the following content areas:

- I. biological bases of behaviour (e.g., physiological psychology, comparative psychology, neuropsychology, sensation, psychopharmacology, health);
- II. cognitive-affective bases of behaviour (e.g., learning, memory, perception, cognition, thinking, motivation, emotion);
- III. social bases of behaviour (e.g., social psychology, cultural, ethnic and group processes, sex roles, organizational and systems theory); and
- IV. individual behaviour (e.g., personality theory, human development, individual differences, abnormal psychology).

Students with such qualifications may be admitted as Candidates for the M.A. degree. GRE scores (Aptitude and Advanced Psychology) are required. The M.A. program usually is completed as an integral part of the Ph.D. program.

Ph.D.: The usual prerequisite for admission in the Ph.D. program is a master's degree in psychology. However, the Graduate Program in Psychology will consider applications from exceptional students with a master's degree in another field. Students without a master's degree in psychology would normally register in the M.A. program. Students may not enter the Ph.D. program until they have completed all the M.A. requirements including the thesis.

Student Statistics 2006-2007

Full-time Ph.D. 148, M.A. 63. Part-time Ph.D. 16, M.A.10. 18% male, 82% female.

Degree Requirements:

M.A.: Candidates for the MA degree are admitted to one of the six areas of specialization. All areas require a full graduate course in statistics, at least a half course in the history and theory of psychology, and a thesis. In addition to these general requirements, each area requires (a) between two and three full courses at the 600 level, depending on the particular area; (b) one or two practica which may have to do with either research, or applied work (with the number and type once again being dependent on the particular area). The thesis is supervised by a two-person committee. The MA program requires a minimum of one year and may not exceed two years without penalties. Students who have not finished at the end of two years become ineligible for registration in further courses and practica and financial support ceases until all requirements for the degree are completed.

Ph.D.: Candidates in each of the six areas of specialization pursue advanced courses of study and research beyond the M.A. level for a period of at least two years. Each candidate works under the guidance of a three person supervisory committee. All Ph.D. candidates must fulfil the course requirements specified by the area of specialization. In addition candidates are required to complete at least two practica as specified by the particular area. All Ph.D. candidates write a minor area paper on a topic chosen in consultation with their supervisors. The topic is usually outside the area of specialization and, with permission, may be chosen from a field outside psychology. All Ph.D. candidates must conduct a research study on a topic chosen in consultation with their supervisors and report the results in appropriate dissertation form. The research and dissertation should demonstrate the candidate's independence, originality, and understanding of the area of investigation and should constitute a contribution to knowledge. After the normal submission of the dissertation, an oral examination is held. Additionally, both the clinical and clinical/developmental areas require a full-year clinical internship in a setting approved by the particular area. Also, the clinical area requires that its students pass an examination on competency in psychological assessment.

Tuition Fees:

These normally total approximately \$5,430.54 (subject to change) annually (3 terms per calendar year). Persons entering Canada on Student Visas may expect to pay tuition of approximately \$11,918.31 (subject to change) annually (3 terms per calendar year). Campus housing is available.

Financial Assistance:

Our financial commitment is met through a number of sources from the university and can include a Teaching Assistantship, a Research Assistantship and an Entrance Scholarship.

For 2006-2007, Masters students entering the program were guaranteed a minimum financial package in the amount of \$14,500 and Doctoral students entering the program were guaranteed a minimum of \$18,344. All incoming students with an A- or better average during their last two years of study also were eligible for a York Entrance Scholarship in the amount of \$4,000, bringing their guaranteed minimum financial package to \$18,500 for master's students and \$22,344 for doctoral students.

Many of our students are also successful at obtaining prestigious external scholarships from federal, provincial, and private agencies on top of the York University assistantships and scholarships, regularly received in the graduate program.

Canadian citizens and landed immigrants are eligible for:

Canadian Institutes of Health Research Studentships, Natural Sciences and Engineering Research Council of Canada Scholarships, Social Sciences and Humanities Research Council of Canada Scholarships, Ontario Graduate Scholarships, as well as more highly specialized scholarships including the Health Research Personnel Development Student Awards, National Institute on Mental Retardation Awards and Ontario Mental Health Fellowships.

Students may apply to the Faculty of Graduate Studies Bursary Fund (when available). The awards are based on need, the list priority being visa students. Exceptionally well-qualified student visa applicants may be eligible for awards that enable them to pay the same fees as Canadian residents.

Applications in 2004:

Clinical, 151 applications, 12 accepted, Clinical-developmental, 96 applications, 10 accepted, Developmental and Cognitive Processes, 13 applications, 2 accepted, Brain,Behaviour and Cognitive Sciences, 17 applications, 6 accepted, Social-Personality, 46 applications, 4 accepted, History and Theory, 4 applications, 1 accepted.

Special Facilities or Resources:

Practicum work is done on a half-time basis during the academic year and when possible full-time during the summer. Research and teaching practica are done on campus but clinical internships are available in the York Counselling and Development Centre and a number of hospitals, clinics, and counselling centres in the city. Supervised internship and practicum experience in applied settings is coordinated by Dr. Lynne Angus and Dr. Adrienne Perry. Those approved are: Adventure Place; Atkinson Counselling Centre, York University; Baycrest Centre for Geriatric Care; Centre for Addiction and Mental Health, Toronto; Counselling and Developmental Centre, York University; Ford and Associates; J.D. Griffin Adolescent Centre; C.M. Hincks Treatment Centre; The Hospital for Sick Children, Toronto; The Hugh MacMillan Medical Centre; North York General Hospital-Department of Psychiatry; Ontario Ministry of Correctional Services; The Personnel Applied Research Unit of the Canadian Armed Forces, Toronto; Sunnybrook and Women's College Health Science Centre; Surrey Place Centre; The Thistletown/George Hull Teaching and Research Centre for Children and Families; Toronto East General Hospital and Orthopaedic Hospital - Department of Psychiatry; University Health Network; West End Creche Child and Family Clinic; Whitby Psychiatric Hospital, Whitby; and the Youthdale Treatment Centre.

Support Staff:

1 Administrative Assistant, 2 secretaries, 1 Resource centre/computer lab supervisor, 3(50%) technicians, 1 electronic shop craftsperson, duplicating supervisor.

Research and Clinical Space:

Psychology has over 50,000 sq.ft. of space providing faculty offices, a computer laboratory, research laboratories and shared offices for graduate students.

GRADUATE GUIDE 2006 - 2007
