JOB SUMMARY:

Within the context of a client and family-centred Recovery model and in accordance with the College of Psychologists of British Columbia established standards of professional practice, and the vision and values of the organization, this position is in charge of psychological services provided to a section of the facility for the designated scope of practice area within mental health services. Performs psychological assessments on clients, provides psychological treatment and facilitates education of referred clients. Working independently and as a member of an interdisciplinary team, completes psychological assessments, provides psychological treatment, liaises with external agencies, attends clinical/case conferences, evaluates the effectiveness and appropriateness of treatment, and maintains client records including documenting client diagnosis and most effective form of treatment, charting client information and assessment results, and preparing progress notes and psychological reports. Provides formal and informal consultations, participates in quality improvement and risk management activities, provides clinical teaching and supervision to Psychology Residents and students, and conducts and participates in research.

QUALIFICATIONS:

Ph.D. in Clinical Psychology from a recognized university. Two (2) years recent related experience in the designated scope of practice areas of mental health services and/or experience working with individuals with substance misuse issues in clinical psychology including therapeutic, diagnostic and consultation services.

Current registration with the College of Psychologists of British Columbia or registration with the College within one year of employment.

Valid Class V BC Driver's license and possession of a personal vehicle with business insurance coverage.
